CURRENT INVESTMENT PHILOSOPHY

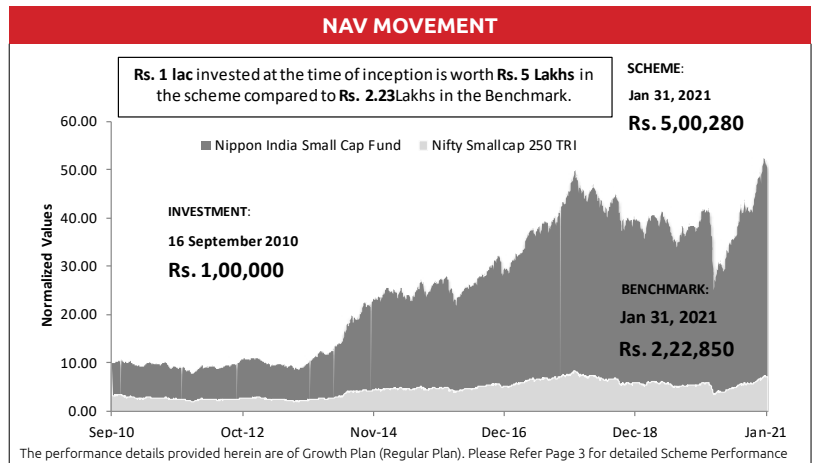

The fund attempts to generate relatively better risk adjusted returns by focusing on the smaller capitalization companies. Small cap stocks, for the purpose of the fund are defined as stocks whose market capitalization is below top 250 companies in terms of full market capitalization.

The investment approach adopts prudent risk management measures like margin of safety and diversification across sectors & stocks with a view to generate relatively better risk adjusted performance over a period of time.

WHY INVEST

- Small Cap space can potentially outperform over the long term especially during sustained uptrends.
- Strong in-house research a key differentiator to identify long term winners and NIMF has an established track record of over 25 years in managing equity strategies.
- Portfolio has optimal mix of Growth, Economic Revival, Value & Thematic plays.
