### INVESTMENT OBJECTIVE:

To generate long-term capital appreciation by creating a portfolio that is invested in equity and equity related securities of pharma, healthcare, hospitals, diagnostics, wellness and allied companies.

However there can be no assurance or guarantee that the investment objectives of the scheme would be achieved.

### ASSET ALLOCATION PATTERN:

Under normal circumstances, the asset allocation will be as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Maximum	Minimum	
Equity & Equity related instruments of pharma, healthcare, diagnostics, wellness and allied companies.	100	80	High

Equity & Equity related instruments of other than pharma, healthcare, diagnostics, wellness and allied companies.	20	0	Medium to High
Debt, Units of Mutual Fund Schemes, Money market instruments, Cash & Cash Equivalent	20	0	Low to Medium

The Scheme may also take exposure to:

- Derivative instruments to the extent of 50% of net assets.
- ADR/GDR/ Foreign Securities to the extent of 50% of net assets. Investment in ADR/GDR/Foreign Securities would be as per SEBI Circular dated September 26, 2007, as may be amended from time to time.

- Stock lending up to 20% of net assets.

The Cumulative Gross Exposure to equity, debt and derivatives positions will not exceed 100% of the Net Assets of the Scheme.

The Scheme will neither do short selling nor will it deal in repo in corporate bonds.

In the event of any deviation from the asset allocation stated above, the Fund Manager shall rebalance the portfolio within 30 days from the date of such deviation. If owing to adverse market conditions or with the view to protect the interest of the investors, the fund manager is not able to rebalance the asset allocation within the above mentioned period of 30 days, the same shall be reported to the Internal Investment Committee. The internal investment committee shall then decide on the future course of action.

- It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the scheme undergo changes within the permitted band as indicated above or for changes due to defensive positioning of the portfolio with a view to protect the interest of the unit holders on a temporary basis. The investors/unit holders can ascertain details of asset allocation of the scheme as on the last date of each month on AMC's website at www.icicipruamc.com that will display the asset allocation of the scheme as on the given day.
- Considering the inherent characteristics of the Scheme, equity positions would have to built-up gradually and also sold off gradually. This would necessarily entail having large cash position before the portfolio is fully invested and during periods when equity positions are being sold off to book profits/losses or to meet redemption needs.
- Investors may note that securities, which endeavor to provide higher returns typically, display higher volatility. Accordingly, the investment portfolio of the Scheme would reflect moderate to high volatility in its equity and equity related investments and low to moderate volatility in its debt and money market investments.

**INVESTMENT STRATEGY:**

The primary investment objective of the Scheme is to seek to generate long-term capital appreciation by creating a portfolio that is invested in Equity and Equity related securities of pharma, healthcare, hospitals, diagnostics, wellness and allied companies.

The scheme being theme specific will be largely affected by the risks associated with the pharma, healthcare, hospitals, diagnostics, wellness and allied sector. Investment in the scheme carries the risk with regard to non-diversification of the portfolio due to the investment universe limited to companies that are operating in the pharma, healthcare, hospitals, diagnostics, wellness and allied sector and hence, the scope for diversification could be limited at times. There could be instances when the portfolio might have an unusually high exposure to a few stocks.

The proportion of investment between equity and debt will be decided based on the view of the fund manager on anticipated movement in both equity as well as debt markets. The Fund manager can also take aggressive calls on the market by going upto 100% in equity at any point of time or any other appropriate ratio depending upon his view. The allocation between debt and equity will be decided based upon the prevailing market conditions, macro- economic environment the performance of the corporate sector, the equity market and other considerations.

The Scheme may invest in companies forming part of S&P BSE Healthcare Index or even stocks outside the index but which form part of pharma, healthcare, hospitals, diagnostics, wellness and related companies.

A brief description of pharma, healthcare, diagnostics and wellness sectors is mentioned below:

**Pharma**

The Indian pharmaceuticals market is the third largest in terms of volume and thirteenth largest in terms of value. Branded generics dominate the pharmaceuticals market, constituting nearly 70 to 80 per cent of the market. India is the largest provider of generic drugs globally with the Indian generics accounting for 20 per cent of global exports in terms of volume. Of late, consolidation has become an important characteristic of the Indian pharmaceutical market as the industry is highly fragmented.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level. The Union Cabinet has given its nod for the amendment of the existing Foreign Direct Investment (FDI) policy in the pharmaceutical sector in order to allow FDI up to 100 per cent under the automatic route for manufacturing of medical devices subject to certain conditions.

**Healthcare**

Healthcare has become one of India's largest sectors - both in terms of revenue and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment. The Indian healthcare sector is growing at a brisk pace due to its strengthening coverage, services and increasing expenditure by public as well private players.

Indian healthcare delivery system is categorised into two major components - public and private. The Government, i.e. public healthcare system comprises limited secondary and tertiary care institutions in key cities and focuses on providing basic healthcare facilities in the form of primary healthcare centers (PHCs) in rural areas. The private sector provides majority of secondary, tertiary and quaternary care institutions with a major concentration in metros, tier I and tier II cities.

India's competitive advantage lies in its large pool of well-trained medical professionals. India is also cost competitive compared to its peers in Asia and Western countries. The cost of surgery in India is about one-tenth of that in the US or Western Europe.

**Diagnostics**

Heightened physician awareness to better clinical outcomes and increasing patient requirement to avail of high quality care have made it imperative for providers to deliver targeted therapy. This has been made possible by the availability of sensitive and specific diagnostic tests along with technologically advanced medical devices and equipments. These further enable healthcare providers to utilize material and human resources optimally.

Advancement in medical technology, substantial demand, coupled with ongoing standardization of regulation and accreditation, has made India an attractive destination for foreign companies to outsource manufacturing of high end devices. Imminent consolidation, international tie ups and the demand created by insurance industry will similarly aid diagnostic players to deliver world class services. It is anticipated that these developments will enable health care providers to synergize medical and service excellence, thus, enabling them to deliver need-based, high quality patient care.

**Wellness**

In India, wellness is a concept which has been in vogue since ancient times. Traditional medicinal and health practices like Ayurveda and yoga have propounded the concept of mental and bodily wellness. Most of the

ancient wellness concepts have largely focused on the basic needs of an individual within the need hierarchy, namely a focus on health, nutrition and relaxation. With the progress of time, wellness as a concept has taken up a multi-dimensional definition, encompassing the individual's desire for social acceptance, exclusivity and collective welfare.

Chiefly influenced by changes in society and in the lifestyles of individuals, this change has also been accelerated by extraneous factors like globalization and a greater awareness of the need for wellness among individuals. Wellness players, thus have responded to this change, shifting their focus from traditional offerings like curative healthcare and value oriented mass products to new generational offerings like preventive healthcare, luxury products and personalized services.

While the Consumers mainly comprise a young population with rising income levels and the increasing need to look good and feel good, which has led these young consumers to seek wellness solutions to meet lifestyle challenges, the Providers offer wellness services and products to meet the hygiene, curative and enhancement needs of the consumer. The Adjacent industries, such as healthcare, media, retail, gaming, hospitality and education capitalize on the growth of the wellness sector to generate additional revenue streams, leverage existing competencies and offer a wider array of services/products to customers while the Facilitators, include employers, insurance companies and schools, who are likely to play a key role in encouraging and inculcating pro-wellness habits among consumers going forward. The last participant, the Government wears multiple hats in its roles as a provider, facilitator, enabler, and regulator in the industry.

**Fixed Income securities**

The AMC aims to identify securities, which offer optimal levels of yield/return considering risk-reward ratio. An appropriate mix of debt and money market instruments will be used to achieve this.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the Company, the past track record as well as future prospects of the issuer, the short as well as long-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustees.

**Portfolio Turnover**

Portfolio turnover is defined as the lower of purchases and sales after reducing all subscriptions and redemptions transactions there from and calculated as a percentage of the average assets under management of the Scheme during a specified period of time.

The AMC's portfolio management style is conducive to a low portfolio turnover rate. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets. The AMC will endeavour to balance the increased cost on account of higher portfolio turnover with the benefits derived there from.

**RISK PROFILE OF THE SCHEME:**

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme Specific Risk Factors summarised below.

**Scheme Specific Risk Factors and Risk Management Strategies:**

In general, investment in the scheme may be affected by risks associated with equities and fixed income securities.

The scheme will be largely affected by the risks associated with pharma, healthcare, hospitals, diagnostics, wellness and allied stocks.

The Scheme will mainly invest in pharma, healthcare, hospitals, diagnostics, wellness and allied companies thereby limiting its exposure to certain specific sectors. This will limit the capability of the Scheme to invest in other sectors. Also, as with all equity investing, there is the risk that companies in that specific sector will not achieve its expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Thus investing in the Scheme could involve potentially greater volatility and risk.

**Investing in Equities:**

- Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
- The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital

markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.

- The Mutual Fund may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
- Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities that offer attractive yields. This may however increase the risk of the portfolio.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
- Fund manager endeavors to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
- In case of abnormal circumstances it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
- The schemes are also vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes. These stocks, at times, may be relatively less liquid as compared to growth stocks.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.

**Risk Factors associated with Thematic Schemes:**

Investing in thematic schemes is based on the premise that the Scheme will seek to invest in companies belonging to a specific sector / theme. This will limit the capability of the Scheme to invest in other sectors / theme.

These Schemes would invest in equity and equity related securities of companies engaged in the particular sector / theme and hence concentration risk is expected to be high.

Also, as with all equity investing, there is a risk that companies in that specific sector / theme will not achieve its expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Thus investing in a sector /theme specific scheme could involve potentially greater volatility and risk.

**Risk associated with non-diversification of the portfolio:**

As there is non-diversification of the portfolio in the scheme, the scheme will be affected by the risks associated with investment in Pharma, Healthcare, Diagnostic and Wellness sectors.

In the proposed scheme, the investment universe is limited to companies that are operating in the Pharma, Healthcare, Diagnostic ,Wellness sectors and allied companies. The scope for diversification could be limited at times. There could be instances the investment portfolio might have an unusually high exposure to a few stocks. However, given the nature of the scheme, the Mutual Fund may invest upto 100 % of the corpus into debt / money market instruments for a short term period on a defensive consideration.

**Sector specific risk**

- Pricing of drugs is subject to price control and any reduction in prices of bulk drugs/ formulations manufactured by pharma companies may affect the valuation of the concerned companies adversely.
- High competition in the generics market may impact the margins of Indian pharma companies.
- Other barriers for growth of pharma companies could be inadequate patent infrastructure, weak redressal system for patent infringement etc.
- INR appreciation may hit Pharma Companies competitiveness and margins.
- Companies having presence in the generic space in the regulated markets are exposed to risk of non-compliance with the regulatory norms of those countries resulting in banning of products which in turn may disrupt their operations in the short-term.

- For API manufacturers, non-compliance with regards to laid down environmental & pollution norms could attract action from the concerned regulatory authorities which may even lead to shut-down of their units. This risk is relatively high in case of small & mid-size API manufacturers compared to organized companies who generally make necessary investments in pollution control infrastructure.

**Risk management strategies:** The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Scheme has identified following risks of investing in debt and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risks associated with Equity investment	
Risks and description	Risk mitigation strategy
<b>Concentration Risk:</b> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The Scheme will try and mitigate this risk by investing in sufficiently large number of companies (and across sectors) so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
<b>Market Risk:</b> The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme.	Market risk is a risk which is inherent to an equity scheme. The Scheme may use derivatives to limit this risk.
<b>Liquidity Risk:</b> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the fund invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time and not affected by illiquidity of the underlying stocks.
<b>Derivatives Risk:</b> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds.	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Fund managers will endeavor to use derivatives which are liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. Such exposure shall also be regularly reviewed by the Fund manager. No OTC contracts will be entered into.
<b>Currency Risk:</b> The Scheme may invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets may be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The Scheme may employ various measures (as permitted by SEBI/ RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

Risks associated with Debt investment	
Risks and description	Risk mitigation strategy
<b>Market Risk/ Interest Rate Risk:</b> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The scheme will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

<b>Liquidity or Marketability Risk:</b> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The fund will however, endeavour to minimize liquidity risk by investing in securities having a liquid market.
<b>Credit Risk:</b> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the fund will ensure that these instruments are sufficiently backed by assets.
<b>Reinvestment Risk:</b> This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
<b>Currency Risk:</b> The Scheme may invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets may be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The Scheme may employ various measures (as permitted by SEBI/ RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

Investor shall have flexibility to choose either Top-Up Cap Amount OR Top-Up Cap Month-Year. In case of multiple selection, Top-Up Cap Amount will be considered as default selection. In case of non selection, the SIP variable Top-Up amount will be capped at a default amount of Rs.10 lakhs.

SIP amount will remain constant from Top-Up Cap date/amount till the end of SIP Tenure.

### 20. DEMAT/NON-DEMAT MODE:

If the details mentioned in the application are incomplete/incorrect or not matched with the Depository data, the application shall be treated as invalid and the units would be allotted in Non- Demat mode. The application form should mandatorily accompany the latest Client investor master/ Demat account statement. Demat option will not be available for Daily/Weekly/Fortnightly dividend options. Investors desiring to get allotment of units in demat mode must have a beneficiary account with a Depository Participant (DP) of the Depositories i.e. National Securities Depositories Limited (NSDL) / Central Depository Services Limited (CDSL).

There shall be no exit load on the redemption of units allotted as a result of such reinvestment of dividend. It may also be noted that the criteria for compulsory reinvestment of dividend declared under the dividend payout option in specific schemes, where the dividend amount is less than the minimum dividend payout limit, will not be applicable to investors holding their units in DEMAT form. For unit holders, holding units in DEMAT form, if dividend is declared in any applicable Scheme, the amount will be paid out or reinvested as per the option selected by the unit holders only. **X. KNOW YOUR CUSTOMER (KYC) NORMS:** With effect from 1st January, 2011, KYC (Know Your Customer) norms are mandatory for ALL investors for making investments in Mutual Funds, irrespective of the amount of investment. Further, to bring uniformity in KYC process, SEBI has introduced a common KYC application form for all the SEBI registered intermediaries. With effect from 1st January 2012, all the new investors are therefore requested to use the Common KYC application form to apply for KYC and mandatorily undergo In Person Verification (IPV) requirements with SEBI registered intermediaries. Individual client who has registered under Central KYC Records Registry (CKYCR) has to fill the 14 digit KYC Identification Number (KIN) in application form as per AMFI circular 135/BP/68/2016-17. For Common KYC Application Form please visit our website [www.icicipruamc.com](http://www.icicipruamc.com).

**XI. DEMAT/NON-DEMAT MODE:** Investors have an option to hold the Units in dematerialized form. By providing DP details, Units shall be directly credited to the investor's demat account after the realization of funds and depositories will issue a statement. Applicants must ensure that the sequence of names as mentioned in the application form matches with that of the account held with the Depository Participant.

If the details mentioned in the application are incomplete/incorrect or not matched with the Depository data, the application shall be treated as invalid and the units would be allotted in Non-Demat mode. Demat option will not be available for Daily/Weekly/Fortnightly dividend options. Investors desiring to get allotment of units in demat mode must have a beneficiary account with a Depository Participant (DP) of the Depositories i.e. National Securities Depositories Limited (NSDL) / Central Depository Services Limited (CDSL).

Allotment letters would be sent to investors who are allotted units in Demat mode and a Statement of Accounts would be sent to investors who are allotted units in Non-Demat mode. Investors are requested to note that Units held in dematerialized form are freely transferable except units held in Equity Linked Savings Scheme's (ELSS) during the lock-in period.

The units will be allotted based on the applicable NAV as per the Scheme Information Document (SID). The investors shall note that for holding the units in demat form, the provisions laid in the SID of respective Scheme and guidelines/procedural requirements as laid by the Depositories (NSDL/CDSL) shall be applicable. In case the unit holder wishes to convert the units held in non-demat mode to demat mode or vice versa at a later date, such request along with the necessary form should be submitted to their Depository Participant(s). Units held in demat form will be freely transferable, subject to the applicable regulations and the guidelines as may be amended from time to time.

**XII. TRANSACTION CHARGES**

Pursuant to SEBI Circular No. Cir/IMD/DF/13/2011 dated August 22, 2011 transaction charge per subscription of Rs.10,000/- and above may be charged in the following manner:

- i. The existing investors may be charged Rs.100/- as transaction charge per subscription of Rs.10,000/- and above;
- ii. A first time investor may be charged Rs.150/- as transaction charge per subscription of Rs.10,000/- and above.

There shall be no transaction charge on subscription below Rs. 10,000/- and on transactions other than purchases/ subscriptions relating to new inflows.

In case of investment through Systematic Investment Plan (SIP), transaction charges shall be deducted only if the total commitment through SIP amounts to Rs. 10,000/- and above. The transaction charges in such cases shall be deducted in 4 equal installments.

However, the option to charge "transaction charges" is at the discretion of the distributors. Investors may note that distributors can opt to receive transaction charges based on "type of the Scheme". Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.

Transaction charges shall also be deducted on purchases/subscriptions received through non-demat mode from the investors investing through a valid ARN holder i.e. AMFI Registered Distributor (provided the distributor has opted-in to receive the transaction charges) in respect of transactions routed through Stock Exchange(s) platform viz. NSE Mutual Fund Platform ("NMF-II") and BSE Mutual Fund Platform ("BSE STAR MF").

The aforesaid transaction charge shall be deducted by the Asset Management Company from the subscription amount and paid to the distributor, as the case may be and the balance amount shall be invested in the relevant scheme opted by the investor.

However, upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by such distributor.

Transaction Charges shall not be deducted if:

- Purchase/Subscription made directly with the fund through any mode (i.e. not through any distributor/agent).
- Purchase/ subscription made in demat mode through stock Exchange, irrespective of investment amount.

CAS/ Statement of account shall state the net investment (i.e. gross subscription less transaction charge) and the number of units allotted against the net investment.

**XIII. EMPLOYEE UNIQUE IDENTIFICATION NUMBER (EUIIN) :** Investors procuring advisory services from non Individual distributors are requested to note that EUIIN would assist in tackling the problem of misselling even if the employee/relationship manager/sales person leave the employment of the distributor.

Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column separately provided in addition to the current practice of affixing the internal code issued by the main ARN holder and the EUIIN of the Sales Person (if any) in the EUIIN space.

Investors are requested to note that EUIIN is applicable for transactions such as Purchases, Switches, Registrations of SIP/STP/Trigger/Dividend Transfer Plan and EUIIN is not applicable for transactions such as Installments under SIP/STP/SWP/EFT Triggers, Dividend Reinvestments, Bonus Units, Redemption, SWP Registration, Zero Balance Folio creation and installments under Dividend Transfer Plans.

Investors are requested to note that EUIIN is largely applicable to sales persons of non individual ARN holders (whether acting in the capacity of the main distributor or sub broker). Further, EUIIN will not be applicable for overseas distributors who comply with the requirements as per AMFI circular CIR/ ARN-14/12-13 dated July 13, 2012.

**XIV. SIGNATURES :** The signature(s) should be in English or in any of the Indian languages specified in the eighth schedule of the constitution of India. Applications on behalf of minors should be signed by their Guardian. Thumb impressions must be attested by a Magistrate or a Notary Public or a Special Executive Magistrate under his/her official seal. Applications by minors should be signed by their guardians. In case of a Hindu Undivided Family (HUF), the Karta should sign on behalf of the HUF.

If the application form is signed by a Power of Attorney (PoA) holder, the form should be accompanied by a notarised photocopy of the PoA. Alternatively, the original PoA may be submitted, which will be returned after verification. If the PoA is not submitted with the application, the Application Form will be rejected. The POA should contain the signature of the investor (POA Donor) and the POA holder.

In case of corporates or any non-individual investors, a list of authorised signatories should be submitted along with Application form or in case of any change in the authorised signatory list, the AMC / Registrar must be notified within 7 days.

In case of application under POA or by a Non-Individual (i.e. Company, trust, society, partnership firm etc.) the relevant POA or the resolution should specifically provide for/authorize the POA holder/ authorized signatory to make application/ invest moneys on behalf of the investor.

**Signature mismatch cases:** While processing the redemption / switch out request in case the AMC/ Registrar come across a signature mismatch, then the AMC/ Registrar reserves the right to process the redemption only on the basis of supporting documents (like copy of passport, driving license etc.), confirming the identity of the investors.
