Asset allocation pattern of the Scheme	Instruments	Indicative Allocation (% of total assets)		Risk Profile
		Minimum Allocation (%)	Maximum Allocation (%)	
	Equity and equity related instruments (minimum 80% of the total assets would be in equity and equity related instruments of companies related to the healthcare services sector).	80	100	Medium to High
	Debt and Money Market instruments including securitized debt [#]	0	20	Low to Medium
	Units issued by REITs & InvITs	0	10	Medium to High
<p>[#] The fund may invest up to 50% of its debt portfolio in securitized debt.</p> <p>The Fund may use derivative instruments like Stock/Index Futures or such other derivative instruments as may be introduced from time to time for the purpose of hedging and portfolio balancing, or to undertake any other strategy within a limit of 50% of the Net Assets of the scheme.</p> <p>The Scheme can take exposure up to 20% of its net assets in stock lending.</p> <p>The Scheme may seek investment opportunity in the ADR/GDR, Foreign Securities, in accordance with guidelines stipulated in this regard by SEBI and RBI from time to time. Under normal circumstances, the scheme shall not have an exposure of more than 10% of its net assets in foreign securities subject to regulatory limits. Investment in Foreign Securities shall be in compliance with requirement of SEBI circular dated September 26, 2007 and other applicable regulatory guidelines. The Scheme may invest in derivatives to engage in permitted currency hedging transactions with an intention to reduce exchange rate fluctuations between the currency of the Scheme (INR) and the foreign currency exposure.</p>				

	<p>The above investment pattern is only indicative and may be changed by the Fund Manager for a short term period on defensive considerations, keeping in view the market conditions, market opportunities, applicable SEBI (MF) Regulations 1996, legislative amendments and other political and economic factors, the intention being at all times to seek to protect the interests of the Unit Holders. Rebalancing of the portfolio will be done when the asset allocation falls outside the range given above. If the exposure falls outside the above mentioned asset allocation pattern, it will be restored within 30 days. If owing to adverse market conditions or with the view to protect the interest of the investors, the fund manager is not able to rebalance the asset allocation within the above mentioned period of 30 days, the same shall be reported to the Internal Investment Committee. The Internal Investment Committee shall then decide the further course of action.</p> <p>Investment in Money Market Instruments: While no fixed allocation will normally be made for investment in money market instruments like Triparty Repo, Commercial Papers, Treasury Bills etc. the same may be kept to the minimum generally to meet the liquidity needs of the scheme.</p> <p>Investment in units of REITs and InvITs Investment limits applicable for investment in units of REIT and InvIT-</p> <p>(a) At Mutual fund level - All schemes of mutual fund shall not own more than 10% of units issued by a single issuer of REIT and InvIT; and</p> <p>(b) At individual scheme level - A mutual fund scheme shall not invest –</p> <ol style="list-style-type: none"> i. more than 10% of its NAV in the units of REIT and InvIT; and ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer. <p>The limits mentioned in sub-clauses (i) and (ii) above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT.”</p>
<p>Investment strategy</p>	<p>The Fund would be agnostic to market capitalization and may take concentrated exposure to certain stocks. Investment will be made in stocks of companies engaged in research & development, manufacturing, distribution & sales of the entire spectrum of Pharmaceutical products including intermediates, medical equipment and accessories & personal healthcare products. In the broader healthcare domain the fund will invest in companies involved in owning/managing hospitals, diagnostic centers, clinical & nursing services, insurance and technology providers/enablers. The Fund would also invest in any companies related to animal healthcare. The above are only indicative and the fund will look to invest in new and emerging areas of healthcare.</p> <p>Portfolio Turnover Policy The Scheme is an open-ended Scheme. Hence the fund managers have to execute transactions based on subscriptions and redemptions on a daily basis. Further as an active fund the scheme will take</p>

	<p>advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets. Hence it would be difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived there from.</p>
