- (v) The investor deals with the known intermediary i.e.his/her own bank.
- (vi) The application form is simpler as the application form for ASBA will be different from the NFO application form.

ASBA Procedure

- (a) An Investor intending to subscribe to the Units of the NFO through ASBA, shall submit a duly completed ASBA Application Form to a Self Certified Syndicate Bank (SCSB), with whom his/her bank account is maintained.

 - ii. Submit the form electronically through the internet banking facility offered by the SCSB ("Electronic ASBA").
- (c) An acknowledgement will be given by the SCSB in the form of the counter foil or specifying the application number for reference. Such acknowledgement does not guarantee, in any manner that the investors will be allotted the Units applied for. Note: if the bank account specified in the ASBA Application Form does not have sufficient credit balance to meet the application money towards the subscription of Units, the Bank shall reject the ASBA Application form.
- (d) On acceptance of Physical or Electronic ASBA, the SCSB shall block funds available in the bank account specified to the extent of the application money specified in the ASBA Application Form.

IV. INVESTMENT VALUATION NORMS FOR SECURITIES AND OTHER ASSETS

SECTION I

VALUATION NORMS FOR EQUITY/EQUITY RELATED SECURITIES

TRADED SECURITIES

1. EQUITY AND EQUITY RELATED SECURITIES:

SEBI Regulations has prescribed following methodology for valuation of Equity and Equity related securities:

Traded Securities are to be valued at the last quoted closing price on the selected Stock Exchange. Where security is not traded on the selected stock exchange, the last quoted closing price of another Stock Exchange may be used. If a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the selected stock exchange or any other stock exchange, as the case may be, on the earliest previous day may be used, provided such date is not more than thirty days prior to valuation date.

(Ref: SEBI (Mutual Fund) Regulations, 1996 Schedule VII and amendments through SEBI Circular No. MFD/CIR No.14/442/2002 dated February 20, 2002.)

- The steps involved in valuation of traded securities are:
 - (i) Selection of principle stock exchange appropriate Stock Exchange (as per offer document) by Asset Management Company (AMC) and valuing the security at the closing price on the date of valuation.
 - (ii) Valuing security at the closing price of another Stock Exchange, if it is not traded on the valuation date on the Stock Exchange as selected at (i) above.

- (iii) Valuing security at the earliest previous day's quotes of selected stock exchange or any other stock exchange as the case may be (being not more than thirty days prior to valuation date).

Clearly, for reasons of speed and regular flow of data in electronic form, our choice of stock exchange for trading is limited to the two premier exchanges of India - the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). Both these exchanges have electronic trading, greater transparency, quicker and more efficient settlements, which enable better cash management, and are popular with other major institutions.

- Process followed for valuation of traded equity and equity related securities by Axis MF would be as follows:

- (i) For valuation purposes **NSE** has been selected as appropriate stock exchange for equity and equity related securities held by all the schemes.
- (ii) Wherever equity and equity related securities are not listed on NSE or are not traded on a certain day at NSE, the closing price at BSE should be considered, followed by any other regional exchanges.
- (iii) In case of securities which have been allotted under preferential / private allotment and are not listed or traded on both the stock exchanges, the scrip is valued at last quoted price on the Stock Exchange where it is traded (provided the last quoted price is not more than thirty days prior to the valuation date.)
- (iv) To summarise, if a security is not traded on NSE on a particular valuation day, the value at which it was traded on BSE, on the earliest previous day is used, provided such day is not more than thirty days prior to the valuation date.
- (v) Normal Preference shares and Cumulative Convertible Preference shares (CCPS) shall be valued at traded price (As mentioned in above Para). In case the same are not traded for more than 30 days, the same shall be valued in good faith (after obtaining valuation committee's approval) by AMC depending on the type of preference share. Appropriate Illiquidity discount can be given by AMC.
- (vi) If the equity securities are not traded on any stock exchange for a period of thirty days prior to the valuation date, the scrip must be treated as 'non-traded' scrip and should be valued as non-traded security as per the norms given separately by us in **Equity Section-Non-Traded** and also in case of equity securities not listed on any stock exchange, the scrip is to be valued as per the norms given separately in **Equity Section-Non Traded**.

a. Selection of stock exchange for valuation:

Board of AMC for all its equity and equity related securities would select NSE/BSE as appropriate stock exchange for the valuation of securities.

Appropriate stock exchange that would be considered for valuation is also specified in the scheme offer document.

b. Change in the selected Stock Exchange:

In case selected stock exchange for valuation of any or all securities is to be changed, reasons for change have to be recorded in writing by the valuation committee and approved by the Board of AMC.

2. VALUATION OF FOREIGN SECURITIES and ADR/GDR:

Exchange to be considered for valuation of foreign securities and ADRs/GDRs is to be approved by the AMC Board. SEBI has not prescribed the method of valuation of foreign securities and ADR/GDR. Process of valuation to be followed by Axis Mutual Fund would be as follows:

i. Receiving last quoted price:

If the security is listed in a time zone ahead of ours then the same day price (obtained at 5pm) as provided by Reuters would be used for valuation. If the security is listed in a time zone behind ours then the latest available price (obtained at 5pm) would be used for valuation.

In case the security is not traded on the above mentioned days, price of previous day should be used, provided the price is not more than 30 days old.

ii. Converting the price in Indian Rupees (INR):

Since valuation prices are in foreign currency, these are converted in Indian Rupees by applying the bid exchange rate provided by Reuters (obtained at 5pm) on the date of valuation.

In case Reuters have not provided the conversion rate, the valuation price of the security should be converted to INR based on RBI reference rate.

3. STOCK AND INDEX DERIVATIVES:

3.1 Equity / Index Options Derivatives:

(i) Market values of traded option contracts shall be determined with respect to the exchange on which it is contracted originally, i.e., an option contracted on the National Stock Exchange (NSE) would be valued at the closing price on the NSE. The price of the same option series on the Bombay Stock Exchange (BSE) cannot be considered for the purpose of valuation, unless the option itself has been contracted on the BSE.

- (ii) The Exchanges give daily settlement prices in respect of all derivatives positions. These settlements prices would be adopted for valuing the positions, which are not traded.

3.2 Equity / Index Futures Derivatives:

- (i) Market values of traded futures contracts shall be determined with respect to the exchange on which contracted originally, i.e., futures position contracted on the National Stock Exchange (NSE) would be valued at the closing price on the NSE. The price of the same futures contract on the Bombay Stock Exchange (BSE) cannot be considered for the purpose of valuation, unless the futures contract itself has been contracted on the BSE.
- (ii) The Exchanges give daily settlement prices in respect of all derivatives positions. These settlements prices would be adopted for valuing the positions, which are not traded.

NON-TRADED / THINLY TRADED SECURITIES

If the equity securities are not traded on any stock exchange for a period of thirty days prior to the valuation date, the scrip must be treated as 'non-traded' scrip.

Basic Conditions of valuation of Non-traded / Thinly traded Securities:

The Regulations prescribe following conditions for valuation of non-traded securities:

- i) Non-traded securities shall be valued in 'good faith' on the basis of the valuation principles laid down by SEBI.
- ii) The basis should be appropriate valuation methods on the principles approved by Board of AMC.
- iii) Such basis should be documented in Board minutes
- iv) Methods used to arrive at good faith valuation should be periodically reviewed by the Trustees.
- v) Methods used to arrive at good faith valuation should be such that the auditor's report the same as 'fair and reasonable' in their report on the annual accounts.
- vi) Same price needs to be considered for the particular security across the schemes
- vii) Valuation needs to be done on trade date itself and not on settlement date

1. APPLICATION MONEY FOR PRIMARY MARKET ISSUE:

Application money should be valued at cost up to 30 days from the closure of the issue. If the security is not allotted within 30 days from the closure of the issue,

application money is to be valued as per the directives of valuation committee, which shall be ratified in the next board meeting. Rationale of valuing such application money should also be recorded.

2. NON-TRADED / THINLY TRADED EQUITY:

Thinly traded equity/ equity related security is defined in SEBI (Mutual Fund) Regulations as follows:

When trading in an equity/equity related security (such as convertible debentures, equity warrants, etc.) in a month is both less than Rs. 5 lacs and the total volume is less than 50,000 shares, it shall be considered as thinly traded security and valued accordingly. **Ref: SEBI Circular No. MFD/CIR/14 /088 / 2001 dated March 28, 2001 .**

It is evident that any security to qualify as thinly traded security it should satisfy both the aforesaid conditions.

- Process to be followed for determining whether security is thinly traded
 - In order to determine whether a security is thinly traded or not, the volumes traded in Bombay Stock Exchange (**BSE**) and National Stock Exchange (**NSE**) for the last month are considered.
 - On the last day of the month service vendor viz. Bilav software Pvt. Ltd. send soft copy containing scrip-wise volume on BSE and NSE. This data is used to determine whether any of the equity security held in the portfolio is thinly traded.

As per SEBI Circular No. MFD/CIR/ 8 / 92 / 2000 dated September 18, 2000 non-traded / thinly traded equity is to be valued as follows:

- (a) Based on the latest available Balance Sheet, net worth shall be calculated as follows:
- (b) Net Worth per share = [share capital+ reserves (excluding revaluation reserves) – Misc. expenditure and Debit Balance in P&L A/c] Divided by No. of Paid up Shares.
- (c) Average capitalisation rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalisation rate (P/E ratio). Earnings per share (EPS) of the latest audited annual accounts will be considered for this purpose.
- (d) The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for ill-liquidity so as to arrive at the fair value per share.

- (e) In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalised earning.
- (f) In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.
- (g) In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security.

In line with these guidelines issued by SEBI, non-traded / thinly traded securities should be valued as follows:

2.1 Net worth per share is computed as follows:

- i) Net worth of the company = Paid up share capital + Reserves other than Revaluation reserve - Miscellaneous expenditure, debit balance in Profit and Loss account and certain contingent liabilities.
- ii) Net worth per share = (Net worth of the company / Number of paid up shares).

2.2 Computation of capitalised value of earning per share (EPS):

- i) Determination of the Industry Price Earning Ratio (P/E) to which the company belongs.
 - Classification of industries provided by AMFI should be adopted.
 - Presently Industry P/E Ratio used is provided by NSE on a monthly basis. However, the P/E ratio data if not available from BSE/NSE, P/E provided by the Capital Market, Prowess (CMIE), Bloomberg etc. should be taken.
- ii) Compute EPS from the latest audited annual accounts. In case the EPS is negative, EPS value shall be considered as zero
- iii) Compute capitalised value of EPS at 75% discount
 $(P/E * 0.25) * EPS$

2.3 Computation of fair value per share to be considered for valuation at 10 % discount for illiquidity.
 $[(Net\ worth\ per\ share + Capitalised\ value\ of\ EPS) / 2] * 0.90$

2.4 In case the latest balance sheet i.e. balance sheet prepared within nine months from the close of the accounting year of the company, is not available (unless the accounting year is changed) the shares should be valued as zero.

2.5 Axis Mutual Fund would value such security at market price or fair value as computed above, whichever is less.

2.6 In case an individual non traded / thinly traded security as valued aforesaid, accounts for more than 5% of the total asset of the scheme, AMC should appoint an

independent valuer. The security shall be valued on the basis of the valuation report of the valuer.

- 2.7 To determine if the security is more than 5% of the total assets of the scheme, security value based on the procedure mentioned above should be compared with total net assets of the scheme on the date of valuation.

3. VALUATION OF UNLISTED EQUITY:

SEBI Circular No. MFD/CIR/03/526/2002 dated May 9, 2002 has prescribed the method of valuation for unlisted equity securities. These guidelines are similar to the guidelines issued by SEBI for non traded / thinly traded securities mentioned above only except the following:

3.1 Computation of Net worth per share as lower of (a) and (b):

- (a) i) Net worth of the company = Paid up share capital + Reserves other than Revaluation reserve - Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses.
ii) Net worth per share = (Net worth of the company / Number of paid up shares).
- (b) i) Net worth of the company = Paid up capital + Consideration on exercise of Option/Warrants received/receivable by the company + free reserves other than Revaluation reserve – Miscellaneous expenditure not written off or deferred revenue expenditure, intangible assets and accumulated losses.
ii) Net worth per share = (Net worth of the company / {Number of paid-up shares + number of shares that would be obtained on conversion/exercise of outstanding warrants and options}).
If the net worth of the company is negative, the share should be marked down to Zero.

- 3.2 Computation of fair value per share to be considered for valuation at 15 % discount for illiquidity.
$$[(\text{Net worth per share} + \text{Capitalised value of EPS}) / 2] * 0.85$$

- 3.3 In case the latest balance sheet i.e. balance sheet prepared within nine months from the close of the accounting year of the company, is not available (unless the accounting year is changed) the shares should be valued as zero.

- 3.4 At the discretion of the AMC and with the approval of the trustees, unlisted equity scrip may be valued at a price lower / higher than the value derived using the aforesaid methodology.

4. VALUATION OF SUSPENDED SECURITY:

- 4.1 In case trading in an equity security is suspended for trading on the stock exchange up to 30 days, then the last traded price would be considered for valuation of that security.

4.2 If an equity security is suspended for trading on the stock exchange for more than 30 days, then it would be considered as non traded and valued accordingly.

5. VALUATION OF NON-TRADED RIGHTS ENTITLEMENTS:

As per Schedule VIII of SEBI (Mutual Fund) Regulations

5.1 When Company announces rights to the existing equity shareholders, under its Listing Agreement with Stock Exchange; it has to declare ex-right date for the purpose of trading on the Stock Exchange. Ex-right date is a date from which the underlying shares, which are traded on the Stock Exchange, will not be entitled to the rights. These rights entitlements can also be renounced in favour of a willing buyer. These renunciations are in some cases traded on the Stock Exchange. In such case these should be valued as traded equity related securities.

5.2 Till the rights are subscribed, the entitlements as per Regulations have to be valued as under:

Valuation of non-traded rights entitlement is principally the difference between the right price and ex-right price. SEBI Regulations have explained this with the help of following formula:

$$V_r = n / m \times (P_{ex} - P_{of}) \text{ Where}$$

V_r = Value of Rights

n = Number of rights offered

m = Number of original shares held

P_{ex} = Ex-right price

P_{of} = Rights offer price

5.3 The following issues while valuing the rights entitlements have to be addressed:

i) In case original shares on which the right entitlement accrues are not traded on the Stock Exchange on an ex-right basis, right entitlement should not be recognised as investments.

ii) When rights are not treated pari passu with the existing shares such as, restrictions with regard to dividend etc., suitable adjustment should be made by way of a discount to the value of rights at the last dividend announced rate.

iii) Where right entitlements are not subscribed to but are to be renounced, and where renunciations are being traded, the right entitlements have to be valued at traded renunciation value.

iv) Where right entitlements are not traded and it was decided not to subscribe the rights, the right entitlements have to be valued at zero.

v) In case the Rights Offer Price is greater than the ex-rights price, the value of the rights share is to be taken as zero.

Valuation procedure adopted by the Axis AMC (w.e.f. January 23, 2013):

Until the right entitlements are traded, the value of the "rights" shares should be calculated as:

Value of rights entitlement = Ex-right price – Rights offer price

6. VALUATION OF NON -TRADED WARRANTS:

As per Eighth Schedule to SEBI (Mutual Fund) Regulations

- Warrants are the entitlements to subscribe for the shares at a predetermined price at a later date in future.
- In respect of warrants to subscribe for shares attached to instruments, the warrants can be valued at underlying equity price as reduced by the amount which would be payable on exercise of the warrant. An appropriate discount must be deducted to account for the period which must elapse before the warrant can be exercised.

Valuation procedure adopted by the Axis AMC

Value of Warrant = [Value of underlying shares - exercise price]

- An appropriate discounting factor shall be decided by the valuation committee on case to case basis.
- If the amount payable on exercise of the warrants is higher than the value of the share, the value of the warrants should be taken as zero.

7. VALUATION OF NON-TRADED PREFERENCE SHARES:

SEBI has not prescribed any methodology for valuation of preference shares. Non traded preference shares shall be valued in good faith depending upon the type of the preference Share and after considering illiquidity discount, if any.

Valuation of non-traded preference shares would depend on the terms of issue of preference shares. i.e. convertible/non-convertible.

- Convertible preference shares should be valued like convertible debentures
- Non-convertible preference shares should be valued like Non-convertible debentures.

8. VALUATION OF SHARES ON DE-MERGER:

On de-merger valuation shall be carried out based on the following possibilities:

- i. Both the shares are traded immediately on de-merger: In this case both the shares are valued at respective traded prices.
- ii. Shares of only one company continued to be traded on de-merger: Traded shares is to be valued at traded price and the other security is to be valued at traded value on the day before the de merger less value of the traded security post de merger or

AMC shall provide the fair valuation for the same. In case value of the share of de merged company is equal or in excess of the value of the pre de merger share, then the non-traded share is to be valued at zero.

In case shares of other company are not traded for more than 30 days, these are to be valued as unlisted security or AMC shall provide the fair valuation for the same.

- iii. Both the shares are not traded on de-merger: Shares of de-merged companies are to be valued equal to the pre de merger value up to a period of 30 days from the date of de merger. The market price of the shares of the de-merged company one day prior to ex-date can be bifurcated over the de-merged shares. The market value of the shares can be bifurcated in the ratio of cost of shares.
In case shares of both the companies are not traded for more than 30 days, these are to be valued as unlisted security or AMC shall provide the fair valuation for the same.

9. VALUATION OF PARTLY PAID-UP EQUITY SHARES:

Partly paid-up equity shares shall be valued at Underlying Equity price as reduced by the balance call money payable.

10. VALUATION OF OTHER INSTRUMENTS:

In case of any other type of capital corporate action event, the same shall be valued at fair price on case to case basis after obtaining necessary approval from board/valuation committee.

SECTION II

The amendment also states that in case of any conflict between the principles of fair valuation and valuation guidelines as per Eighth Schedule and circulars issued by SEBI, the Principles of Fair Valuation shall prevail.

As per the above mentioned amendment, the Board of Directors of Axis Asset Management Company Limited and Axis Mutual Fund Trustee Limited has approved the Valuation Policy and Procedure for Money Market and Debt Instruments.

1. VALUATION OF MONEY MARKET AND DEBT SECURITIES WITH RESIDUAL MATURITY OF UPTO 60 DAYS:

Money Market and Debt instruments include CP, CD, Fixed Coupon Bonds, Zero Coupon Bonds and Pass Through Certificates, FRN, Treasury Bills, Cash Management Bill, BRDS (w.e.f. July 01, 2014), etc.

All Money Market and Debt securities shall be valued on amortization yield to maturity basis from purchase price (excluding brokerage). However, in case of subsequent trades i.e. own trades #, latest traded price is considered for amortization.

Axis AMC's own trade has been defined as trade (including Inter-scheme) with face value of at least INR 5 crores. Further, in case of more than 1 trade on single day by Axis AMC in the same security, weighted average price is computed and considered. Note: In case of CP/CD/ZCBs/TB/CMB/BRDS, weighted average price is computed using weighted average yield

The spread between purchase / own trade yield and the benchmark yield shall be worked out by AMC/Fund Manager. The spread shall generally remain fixed through the life of the instrument. If necessary, it can be changed after suitable justification by AMC/Fund Manager.

In case of amortized value falling outside the +0.10% band, CBV automatically adjusts amortization price to bring it in line within +0.10% band as per the instructions of AMC/Fund Manager.

AMC/Fund Manager will monitor the change in the credit rating or credit profile of the issuer and would require a re-evaluation of the correctness of the spread.

2. VALUATION OF MONEY MARKET AND DEBT SECURITIES WITH RESIDUAL MATURITY OF OVER 60 DAYS (w.e.f. November 29, 2013):

AMFI vide its email dated November 19, 2013 has recommended that AMC should implement the Scrip Level Valuation on or before November 30, 2013.

Money Market and Debt instruments include CP, CD, Fixed Coupon Bonds, Zero Coupon Bonds and Pass Through Certificates, FRN, BRDS (w.e.f. July 01, 2014), etc.

Important Remarks:-

- In case of new purchases (new issuance in the market) which are not a part of the list of CRISIL and ICRA security level pricing, the valuation of such securities shall be done at weighted average cost/yield on the day of purchase.
- The prices received from CRISIL and ICRA shall be ignored during the notice period of Put/Call and exercise date, however the security shall continue to be amortized using the price prevalent on the notice date.
- Abnormal situations and market disruptions where current market information may not be obtainable / adequate for valuation of securities, valuation Committee shall be responsible for monitoring these kinds of events. Abnormal situations and market disruptions cases shall be reported to the board from time to time.

Collateralised Borrowing and Lending Obligations (CBLO) shall be valued at cost plus accruals.

VALUATION OF REVERSE REPO (PURCHASE AND SALE BACK) TRANSACTIONS:

Eighth Schedule to SEBI (Mutual Fund) Regulation has spelt out briefly the methodology for valuation of Repo Instruments.

This is an agreement under which on payment of a purchase price, the fund receives (purchases) securities from a seller who agrees to repurchase them at a specified time at a specified price. A repurchase agreement is similar in effect to a loan by the fund to the seller collateralised by the securities. The Mutual Fund does not record the purchase of securities received but records the repo transactions as if it were a loan. Repo instruments have to be valued at the resale price after deduction of applicable interest rate up to the date of resale. To put it differently, it is at the net consideration paid i.e., loan given plus interest accrued every day. The difference between repurchase and sale prices is accounted as interest income.

THINLY TRADED DEBT SECURITIES:

Thinly traded debt security is defined in SEBI (Mutual Fund) Regulations as follows:

A debt security (other than Government Securities) shall be considered as a thinly traded security if on the valuation date, there are no individual trades in that security in marketable lots (currently Rs 5 Crore) on the exchanges/ reporting platforms or AMC own trades. A thinly traded debt security as defined above would be valued as per the norms set for non-traded debt security.

SECURITIES PURCHASED ON PRIVATE PLACEMENT BASIS:

In case the security is purchased on private placement basis, the same would be valued at cost on the date of purchase. As per SEBI Regulations, such security can be valued at cost for 15 days. However, taking in to consideration the volatility in the market, it could be valued at cost on the date of purchase only and from the next day, valuation could be carried out like any other debt security or AMC shall provide the fair valuation for the same.

VALUATION OF SECURITIES WITH PUT/CALL OPTIONS:

The option embedded securities would be valued as follows:

Securities with call option:

The securities with call option shall be valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option.

In case there are multiple call options, the lowest value obtained by valuing to the various call dates and valuing to the maturity date is to be taken as the value of the instrument.

Securities with Put option:

The securities with put option shall be valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option.

In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is to be taken as the value of the instruments.

Securities with both Put and Call option on the same day:

The securities with both Put and Call option on the same day would be deemed to mature on the Put/Call day and would be valued accordingly.

SECTION III**VALUATION OF OTHER SECURITIES****MUTUAL FUND UNITS:**

(i) Mutual Fund Units listed and Traded would be valued at the closing traded price as on the valuation date.

(ii) Unlisted Mutual Fund Units and listed but not traded Mutual Fund Units would be valued at the last declared NAV on AMFI website as on the valuation date.

VALUATION OF GOLD IN CASE OF EXCHANGE TRADED GOLD FUND:

(i) The gold held by a gold exchange traded fund scheme shall be valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for gold having a fineness of 995.0 parts per thousand, subject to the following:

- (a) adjustment for conversion to metric measures as per standard conversion rates;
- (b) adjustment for conversion of US dollars into Indian rupees as per the Bloomberg. In case Bloomberg has not provided the conversion rate, the closing price of the security should be converted to INR at RBI reference rate. RBI reference rate declared by the Foreign Exchange Dealers Association of India (FEDAI); and
- (c) addition of –

- transportation and other charges that may be normally incurred in bringing such gold from London to the place where it is actually stored on behalf of the mutual fund; and
- notional customs duty and other applicable taxes and levies that may be normally incurred to bring the gold from London to the place where it is actually stored on behalf of the mutual fund: Provided that the adjustment under clause (c) above may be made on the basis of a notional premium that is usually charged for delivery of gold to the place where it is stored on behalf of the mutual fund:

Provided further that where the gold held by a gold exchange traded fund scheme has a greater fineness, the relevant LBMA prices of AM fixing shall be taken as the reference price under this sub-paragraph.

- (ii) If the gold acquired by the gold exchange traded fund scheme is not in the form of standard bars, it shall be assayed and converted into standard bars which comply with the good delivery norms of the LBMA and thereafter valued in terms of sub-paragraph (1)

VALUATION PROCESS FLOW FOLLOWED BY AXIS MF SHALL BE AS BELOW:

- (i) LBMA Gold Fixing: - As per SEBI Guidelines Gold would be valued at AM fixing price for the day available on the LBMA site.
- (ii) The Gold Premium and fixing charges for valuation purpose would be fixed on 1st working day of every month and same will be applicable for that month.
- (iii) LBMA Gold price is quoted for USD/Oz for 999 fineness. For conversion of Troy Ounces to Kilogram, use the NYMEX conversion factor of 31.99 Troy ounces per kilogram for 995 purity. The fineness quotient is to be adjusted by using the factor 0.995996 (0.995/0.999) in case if the gold lying in stock is of 999 fineness.
- (iv) To convert it into Rs./Kg, it has to be multiplied by INR reference rate from RBI. In case RBI reference rate for any day is not published the latest available reference rate should be considered.
- (v) Custom duty is fixed on per Kg basis. In case any revision in the same, AMC shall finalize the same.
- (vi) Octroi is also on ad valorem basis i.e. on the gold price per kg including customs. In case any revision in the same, AMC shall finalize the same.
- (vii) VAT is on ad valorem basis i.e. on the gold prices per kg with Customs duty and Octroi. In case any revision in the same, AMC shall finalize the same.

VALUATION OF INTEREST RATE SWAPS (IRS):

Interest Rate Swaps shall be valued at the net present value by discounting the future cash flows. Future cash flows for Interest Rate Swaps contracts shall be

computed daily based on the terms of the contract and discounted using suitable OIS rates sourced from Reuters, as approved by the Valuation Committee.

VALUATION OF CONVERTIBLE DEBENTURES AND BONDS:

As per Eighth Schedule of SEBI (Mutual Fund) Regulations method of valuation of convertible debentures is prescribed and will be followed by Axis MF

In respect of convertible debentures and bonds, the non-convertible and convertible components shall be valued separately. The non-convertible component should be valued on the same basis as would be applicable to a debt instrument. The convertible component should be valued on the same basis as would be applicable to an equity instrument. If, after conversion the resultant equity instrument would be traded pari passu with an existing instrument which is traded, the value of the latter instrument can be adopted after an appropriate discount of the non-tradability of the instrument during the period preceding the conversion while valuing such instruments, the fact whether the conversion is optional should also be factored in.

ILLIQUID SECURITIES:

- (a) Aggregate value of "illiquid securities" of scheme, which are defined as non-traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value.
- (b) All funds shall disclose as on March 31 and September 30 the scheme-wise total illiquid securities in value and percentage of the net assets while making disclosures of half yearly portfolios to the unit holders. In the list of investments, an asterisk mark shall also be given against all such investments, which are recognized as illiquid securities.
- (c) Mutual Funds shall not be allowed to transfer illiquid securities among their schemes w.e.f. October 1, 2000.
- (d) In respect of closed ended funds and open ended funds, for the purposes of valuation of illiquid securities, the limits of 15% and 20% should be increased to 20% and 25% respectively of the Scheme's AUM.

GUIDELINES FOR IDENTIFICATION AND PROVISIONING FOR NON PERFORMING ASSETS (DEBT SECURITIES) FOR MUTUAL FUNDS:

(A) Definition of a Non Performing Asset (NPA):

An 'asset' shall be classified as non performing, if the interest and/or principal amount have not been received or remained outstanding for one quarter from the day such income / installment has fallen due.

(B) Effective date for classification and provisioning of NPA's:

The definition of NPA may be applied after a quarter past due date of the interest. For e.g. if the due date for interest is 30.06.2000, it will be classified as NPA from 01.10.2000.

(C) Treatment of income accrued on the NPA and further accruals:

- After the expiry of the 1st quarter from the date the income has fallen due, there will be no further interest accrual on the asset i.e. if the due date for interest falls on 30.06.2000 and if the interest is not received, accrual will continue till 30.09.2000 after which there will be no further accrual of income. In short, taking the above example, from the beginning of the 2nd quarter there will be no further accrual on income.
- On classification of the asset as NPA from a quarter past due date of interest, all interest accrued and recognized in the books of accounts of the Fund till the date, should be provided for. For e.g. if interest income falls due on 30.06.2000, accrual will continue till 30.09.2000 even if the income as on 30.06.2000 has not been received. Further, no accrual will be done from 01.10.2000 onwards. Full provision will also be made for interest accrued and outstanding as on 30.06.2000.

(D) Provision for NPAs – Debt Securities:

Both secured and unsecured investments once they are recognized as NPAs call for provisioning in the same manner and where these are related to close ended scheme the phasing would be such that to ensure full provisioning prior to the closure of the scheme or the scheduled phasing whichever is earlier.

The value of the asset must be provided in the following manner or earlier at the discretion of the fund. Fund will not have discretion to extend the period of provisioning. The provisioning against the principal amount or installments should be made at the following rates irrespective of whether the principal is due for repayment or not.

- 10% of the book value of the asset should be provided for after 6 months past due date of interest i.e. 3 months from the date of classification of the asset as NPA.
- 20% of the book value of the asset should be provided for after 9 months past due date of interest i.e. 6 months from the date of classification of the asset as NPA.
- Another 20% of the book value of the assets should be provided for after 12 months past due date of interest i.e. 9 months from the date of classification of the asset as NPA.
- Another 25% of the book value of the assets should be provided for after 15 months past due date of interest i.e. 12 months from the date of classification of the asset as NPA.
- The balance 25% of the book value of the asset should be provided for after 18 months past due date of the interest i.e. 15 months from the date of classification of the assets as NPA.

Book value for the purpose of provisioning for NPAs shall be taken as a value determined as per the prescribed valuation method.

This can be explained by an illustration:

Let us consider that interest income is due on a half yearly basis and the due date falls on 30.06.2000 and the interest is not received till 1st quarter after due date i.e. 30.09.2000.

This provisioning will be done in following phased manner:

10% provision 01.01.2001 6 months past due date of interest i.e. 3 months from the date of classification of asset as NPA (01.10.2000)

20% provision 01.04.2001

20% provision 01.07.2001

25% provision 01.10.2001

25% provision 01.01.2002

Thus, 1 1/2; years past the due date of income or 1 1/4; year from the date of classification of the 'asset' as an NPA, the 'asset' will be fully provided for. If any installment is fallen due, during the period of interest default, the amount of provision should be installment amount or above provision amount, whichever is higher.

(E) Reclassification of assets:

Upon reclassification of assets as 'performing assets':

1. In case a company has fully cleared all the arrears of interest, the interest provisions can be written back in full.
2. The asset will be reclassified as performing on clearance of all interest arrears and if the debt is regularly serviced over the next two quarters.
3. In case the company has fully cleared all the arrears of interest, the interest not credited on accrual basis would be credited at the time of receipt.
4. The provision made for the principal amount can be written back in the following manner: -
 - 100% of the asset provided for in the books will be written back at the end of the 2nd quarter where the provision of principal was made due to the interest defaults only.
 - 50% of the asset provided for in the books will be written back at the end of the 2nd quarter and 25% after every subsequent quarter where both installments and interest were in default earlier.
5. An asset is reclassified, as 'standard asset' only when both overdue interest and overdue installments are paid in full and there is satisfactory performance for a subsequent period of 6 months.

(F) Receipt of past dues:

When the fund has received income/principal amount after their classifications as NPAs;

- For the next 2 quarters, income should be recognized on cash basis and thereafter on accrual basis. The asset will be continued to be classified as NPA for these two quarters.
- During this period of two quarters although the asset is classified as NPA no provision needs to be made for the principal if the same is not due and outstanding
- If part payment is received towards principal, the asset continues to be classified as NPA and provisions are continued as per the norms set at (D) above. Any excess provision will be written back.

(G) Classification of Deep Discount Bonds as NPAs:

NOTICE is hereby given that, with effect from November 1, 2015, the following modifications are being carried out in the Scheme Information Document(s) (SIDs) of all the Schemes of Axis Mutual Fund ('Fund') and in the Statement of Additional Information (SAI):

1. Foreign Account Tax Compliance Act ('FATCA') and Common Reporting Standards (CRS) requirements:

India has joined the Multilateral Competent Authority Agreement (MCAA) on automatic exchange of financial information. All countries which are signatories to the MCAA are obliged to exchange a wide range of financial information after collecting the same from financial institutions in their jurisdiction. Government of India and the Government of United States of America have also signed an agreement to improve international tax compliance and to implement the Foreign Account Tax Compliance Act (FATCA) in India. Specified financial institutions in India are required to report information related to US account holders / tax payers to the Indian Government, which will in turn forward that information to the U.S. Internal Revenue Service (IRS).

SEBI issued its

circular no. CIR/MIRSD/2/2015 dated August 26, 2015 inter alia advising intermediaries to take necessary steps to ensure compliance with the requirements specified in the rules and guidelines specified by the Government of India. AMFI also issued its best practices guidelines circular no. 63/2015-16 dated September 18, 2015 on this matter. The AMC and the Mutual Fund are required to adhere to various requirements inter alia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities, as specified under the applicable laws. Accordingly, the following aspects need to be adhered to :

- For all new accounts opened by investors, from September 1, 2015 till October 31, 2015, MFs need to obtain relevant FATCA / CRS declarations. These details / certification need to be obtained by December 31, 2015, particularly in cases where, after Indicia search, a positive match is found with any US indicia. If self certification is not provided by an investor or the reasonableness of self-certification cannot be confirmed, the account is treated as reportable.
- For accounts opened between July 1, 2014 and August 31, 2015 and certain pre-existing accounts opened till June 30, 2014, the AMC is reaching out to such investors to seek the requisite information/declaration which has to be submitted by the investors before specified timelines. In case the information/declaration is not received from the investor on or before the specified timelines, the account shall be treated as reportable.

Investors are requested to provide all the necessary information / declarations to facilitate compliance, considering India's commitment to implement CRS and FATCA under the relevant international treaties.

January 1, 2012, so that each investor could undergo a uniform KYC process in the securities market just once, based on SEBI prescribed norms and the KYC details are shared with all SEBI registered intermediaries by the KRAs.

Subsequently, SEBI, vide its circular no. MIRSD/Cir-5/2012 dated April 13, 2012 advised various intermediaries to upload KYC data of its existing customers into the KRA system. While uploading KYC data into the KRA system, intermediaries were also required to highlight such 'Missing/Not Available' KYC information of a customer, which was either not required or not taken previously, but was mandatory as per uniform KYC guidelines issued by SEBI.

In accordance with AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015, investors may note the following:

4. UPDATE W.R.T. CONSOLIDATED ACCOUNT STATEMENT (CAS) IN SID, KIM AND SAI OF AXIS MUTUAL FUND

SEBI vide its circular no. CIR/MRD/DP/31/2014 dated November 12, 2014, in order to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in demat form with Depositories, has required Depositories to generate and dispatch a single consolidated account statement for investors having mutual fund investments and holding demat accounts.

In view of the aforesaid requirement, for investors who hold demat account, for transactions in the schemes of Axis Mutual Fund on or after February 1, 2015, a Consolidated Account Statement, based on PAN of the holders, is being sent by Depositories to investors holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month.

Consolidated account statement is being sent by Depositories every half yearly (September/March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and demat accounts there have been no transactions during that period.

Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan (including transaction charges paid to the distributor) and transaction in dematerialized securities across demat accounts of the investors and holding at the end of the month.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories. Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS.

Consolidation of account statement is done on the basis of Permanent Account Number (PAN). Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding.

For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS is sent by e-mail. However, where an investor does not wish to receive CAS through email, option is given to the investor to receive the CAS in physical form at the address registered in the Depository system.

Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out.

Investors who do not hold demat account continue to receive Consolidated Account Statement sent by RTA/AMC, based on the PAN, covering transactions across all mutual funds as per the current practice.

In case an investor has multiple accounts across two depositories; the depository with whom the account has been opened earlier will be the default depository.

The dispatch of CAS by the depositories constitute compliance by the AMC/ the Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations. However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).

All the other terms and conditions of the Scheme Information Document (SID), Key Information Memorandum (KIM) of schemes and Statement of Additional Information (SAI) of Axis Mutual Fund remain unchanged.

This addendum forms an integral part of Scheme Information Document (SID), Key Information Memorandum (KIM) of all schemes and Statement of Additional Information (SAI) of Axis Mutual Fund.
