HIGHLIGHTS/SUMMARY OF THE SCHEME

Investment objective

The investment objective is to provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity. However, there can be no assurance that the investment objective of the scheme will be achieved.

Liquidity

The Scheme offers Units for Subscription and Redemption at NAV based prices on all Business Days on an ongoing basis. Under normal circumstances the AMC shall dispatch the Redemption proceeds within 10 Business Days from date of receipt of request from the unit holder.

Benchmark

CRISIL Liquid Fund Index

Transparency/NAV Disclosure

The AMC will calculate and disclose the NAVs on all Business Days. The NAV of the Scheme shall be published at least in two daily newspapers. The AMC shall update the NAVs on its website (www.axismf.com) and of the Association of Mutual Funds in India - AMFI (www.amfiindia.com) before 9.00 p.m. on every Business Day. If the NAVs are not available before the commencement of business hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAV.

The AMC will disclose the portfolio of the Scheme within one month from the close of each half year (i.e. 31st March and 30th September) either by sending a complete statement to all the Unit holders or by publishing the same by way of advertisement in one national English daily newspaper circulating in the whole of India and in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated. The portfolio statement will also be displayed on the website of the AMC and AMFI.

Further, the Mutual Fund/ AMC shall disclose portfolio of the Scheme as on the last day of each month on its website on or before the tenth day of the succeeding month in the prescribed format. The AMC will also provide a dashboard, in a comparable, downloadable (spreadsheet) and machine readable format, providing performance and key disclosures like Scheme's AUM, investment objective, expense ratios, portfolio details, scheme's past performance etc on its website.

The AMC will make available the Annual Report of the Scheme within four months of the end of the financial year on its website.

Plans and Options under the Plan(s) of the Scheme

Plans

Loads

Entry Load: Not Applicable

Exit Load: Nil

SEBI vide its circular no. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 has decided that there shall be no entry load for all Mutual Fund schemes. The upfront commission on investment made by the investor, if any, shall be paid to the ARN Holder (AMFI registered Distributor) directly by the investor, based on the investor's assessment of various factors including service rendered by the ARN Holder.

For more details on Load Structure, please refer paragraph 'Load Structure'.

Concept of Macaulay duration

The Macaulay duration is a measure of a bond's sensitivity to interest rate changes. It is a measure of the average life of the bond taking into account the coupon payments as well as the repayment of principal. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Because it takes into account both coupons and maturity cash flows, it better reflects the relationship between interest rates and price of the bond.

Minimum Application Amount

Rs. 5,000 and in multiples of Re. 1/- thereafter

Minimum Additional Purchase Amount

Rs.1,000 and in multiples of Re. 1/- thereafter

Minimum application amount is applicable at the time of creation of new folio and at the time of first investment in a plan.

I. INTRODUCTION

A. RISK FACTORS

i. Standard Risk Factors

- Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Axis Treasury Advantage Fund is the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Fund.
- Axis Treasury Advantage Fund is not a guaranteed or assured return Scheme.

ii. Scheme Specific Risk Factors

Risks associated with investments in Fixed Income Securities

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, money market instruments and derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Schemes' investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is

a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV

Risk associated with Securitized Debt

The Scheme may invest in domestic securitized debt such as Asset Backed Securities (ABS) or Mortgage Backed Securities (MBS). ABS are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. MBS are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties.

At present in Indian market, following types of loans are securitized:

1. Auto Loans (cars / commercial vehicles /two wheelers)
2. Residential Mortgages or Housing Loans
3. Consumer Durable Loans
4. Personal Loans
5. Corporate Loans

In terms of specific risks attached to securitization, each asset class would have different underlying risks. Residential Mortgages generally have lower default rates than other asset classes, but repossession becomes difficult. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Asset classes like personal loans, credit card receivables are unsecured and in an economic downturn may witness higher default. A corporate loan/receivable, depend upon the nature of the underlying security for the loan or the nature of the receivable and the risks correspondingly fluctuate.

The rating agencies define margins, over collateralisation and guarantees to bring risk in line with similar AAA rated securities. The factors typically analyzed for any pool are as follows:

- a. Assets securitized and Size of the loan: This indicates the kind of assets financed with the loan and the average ticket size of the loan. A very low ticket size might mean more costs in originating and servicing of the assets.
- b. Diversification: Diversification across geographical boundaries and ticket sizes might result in lower delinquency
- c. Loan to Value Ratio: Indicates how much % value of the asset is financed by borrower's own equity. The lower this value the better it is. This suggests that where the borrowers own contribution of the asset cost is high; the chances of default are lower.
- d. Average seasoning of the pool: This indicates whether borrowers have already displayed repayment discipline. The higher the number, the more superior it is.

The other main risks pertaining to Securitized debt are as follows:

Prepayment Risk: This arises when the borrower pays off the loan sooner than expected. When interest rates decline, borrowers tend to pay off high interest loans with money borrowed at a lower interest rate, which shortens the average maturity of ABS. However, there is some prepayment risk even if interest rates rise, such as when an owner pays off a mortgage when the house is sold or an auto loan is paid off when the car is sold.

Reinvestment Risk: Since prepayment risk increases when interest rates decline, this also introduces reinvestment risk, which is the risk that the principal can only be reinvested at a lower rate.

Risks associated with investments in Derivatives

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a bond is hedged using a Derivative, the change in price of the bond and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the Investor. Execution of strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risks associated with Repo transactions in Corporate Bonds

The Scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However in repo transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk is further mitigated through over-collateralization (the value of the collateral being more than the repo amount).

Risks associated with transaction in Units through stock exchange(s)

In respect of transaction in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.

Risks associated with Short Selling & Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risk associated with investment in Foreign Securities

Subject to necessary approvals, the Scheme may also invest in overseas financial assets as permitted under the applicable regulations. The value of an investment in a foreign issuer's securities may depend on general global economic factors or specific economic and political factors relating to the country or countries in which the foreign issuer operates. To the extent the assets of the Scheme are invested in overseas financial assets, there may be risk associated with fluctuation in foreign exchange rates, restriction on repatriation of capital and earnings under the exchange control regulations and transaction procedure in overseas market. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls, political circumstances, bi-lateral conflicts or prevalent tax laws. Since the Scheme would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of such Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management and hedging and portfolio rebalancing and in accordance with conditions as may be stipulated under the Regulations and by RBI from time to time.

Investment in foreign securities carries currency risk. Currency risk is a form of risk that arises from the change in price of one currency against other. The exchange risk associated with a foreign denominated instrument is a key element in foreign investment. This risk flows from differential monetary policy and growth in real productivity, which results in differential inflation rates. The risk arises because currencies may move in relation to each other.

Risks associated with Repo transactions in Corporate Bonds

The Scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However in repo transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk is further mitigated through over-collateralization (the value of the collateral being more than the repo amount).

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 Investors and no single Investor shall account for more than 25% of the corpus of the Scheme. The aforesaid conditions should be complied with in each calendar quarter on an average basis. In case the Scheme does not have a minimum of 20 Investors on an ongoing basis for each calendar quarter, the provisions of

Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at Applicable NAV. If there is a breach of the 25% limit by any Investor over the quarter, a rebalancing period of one month would be allowed and thereafter the Investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic Redemption by the Mutual Fund at the Applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS, if any

- Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem/hold Units.
- The Scheme related documents i.e. SID/ KIM/ SAI or the units of the Fund are not registered in any jurisdiction including the United States of America nor in any provincial/ territorial jurisdiction in Canada. The distribution of the Scheme related document in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of the Scheme related documents are required to inform themselves about, and to observe any such restrictions. No persons receiving a copy of this Scheme related documents or any accompanying application form in such jurisdiction may treat these Scheme related documents or such application form as constituting an invitation to them to subscribe for units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly the Scheme related documents do not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation as per applicable law.
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as provided by the AMC in connection with this offering. Prospective investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.
- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such redemptions.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in 'Statement of Additional Information'.
- The tax benefits described in this Scheme Information Document and Statement of Additional Information are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this Scheme Information Document and the Unit holders should be aware that the relevant fiscal rules or their

interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unit holder is advised to consult his / her own professional tax advisor.

- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.
- In case the AMC or its Sponsor or its Shareholders or their affiliates/associates or group companies make substantial investment, either directly or indirectly in the Scheme, redemption of units by these entities may have an adverse impact on the performance of the Scheme. This may also affect the ability of the other Unit holders to redeem their units.
- As the liquidity of the Scheme's investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption Requests or of a restructuring of the Scheme's portfolio. In view of this, the Trustee has the right, in its sole discretion, to limit redemptions under certain circumstances - please refer to the paragraph "Suspension/Restriction on Redemption of Units of the Scheme".
- Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the folios of the investor(s), reject any application(s)/redemptions / allotment of units.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An open ended low duration debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 6 to 12 months.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective is to provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity. However, there can be no assurance that the investment objective of the scheme will be achieved.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation pattern will be:

Instruments	Indicative Allocation (% of net assets)		Risk Profile
	Minimum	Maximum	Low/Medium/High
Debt & Money Market Instruments*	0	100	Low to Medium

*Includes securitized debt (excluding foreign securitized debt) up to 65% of the net assets of the Scheme. The Scheme shall not invest in foreign securitized debt.

The cumulative gross exposure through debt and derivative positions should not exceed 100% of the net assets of the Scheme in accordance with SEBI circular no. Cir/IMD/DF/11/2010 dated August 18, 2010.

Investment in Derivatives – up to 50% of the net assets of the Scheme. Investment in derivatives shall be for hedging, portfolio balancing and such other purposes as maybe permitted from time to time. Derivative instruments include Interest Rate Swaps, Interest Rate Forwards, Interest Rate Futures, Forward Rate Agreements and any such other derivative instruments permitted by SEBI/RBI from time to time.

The Scheme can invest up to 50% of net assets in Foreign Securities.

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as may be amended from time to time.

The Scheme may engage in Short Selling of securities in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI. The Scheme shall not deploy more than 20% of its net assets in securities lending and not more than 5% of the net assets of the Scheme will be deployed in securities lending to any single counterparty.

The Scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.

The scheme retains the flexibility to invest across all the securities in the debt and Money Markets Instruments. The scheme may also invest in units of debt and liquid mutual fund

schemes. The portfolio may hold cash depending on the market condition. The fund manager can use Derivative instruments to protect the downside risk.

The portfolio duration will undergo a change according to the expected movement in interest rates, liquidity conditions and other macro-economic factors. The Macaulay duration of the portfolio of the Scheme will be maintained between 6 months - 12 months depending on the interest rate view. The Scheme may review the above pattern of investments based on views on interest rates and asset liability management needs. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only. In case of deviation, the portfolio would be rebalanced within 30 days from the date of deviation. In case the same is not aligned to the above asset allocation pattern within 30 days, justification shall be provided to the Investment Review Committee and reasons for the same shall be recorded in writing. The Investment Review committee shall then decide on the course of action.

Axis Treasury Advantage Fund, An open ended low duration debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 6 to 12 months is a different scheme offered by Axis Mutual Fund and is not a minor modification of any other existing scheme/product of Axis Mutual Fund. Differentiation is as follows:

E.g. yields for 1Year instrument issued by a bank, a NBFC, a manufacturing corporate, a broking company can differ by as high as 100-500 basis points even if all of them are rated equally by the credit rating agency. Accordingly, there is a trade-off in terms of their respective liquidity. In view of the Fund's objective of maximizing returns with maintaining high liquidity, the portfolio will be constructed with judicious mix of instruments issued by the universe of eligible issuers across the spectrum. Portfolio maturity (in months) is determined after analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.</p> <p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. The Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. D. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in Debt Instruments, Money Market Instruments and other permitted securities which will include but not limited to:

Debt Instruments & Money Market Instruments

Collateralized Borrowing and Lending Obligations (CBLO)

Collateralized Borrowing and Lending Obligations (CBLO) is a money market instrument that enables entities to borrow and lend against sovereign collateral security. The maturity ranges from 1 day to 90 days and can also be made available upto 1 year. Central Government securities including T-bills are eligible securities that can be used as collateral for borrowing through CBLO.

Certificate of Deposit (CD) of Scheduled Commercial Banks and Development Financial Institutions

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is one year to 3 years from the date of issue.

Commercial Paper (CP)

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

Treasury Bill (T-Bill)

Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days.

Cash Management Bill

Cash Management Bill (CMB) are issued by the Government of India to meet their short term borrowing requirements. CMB are generally issued for maturities of less than 91 days.

Bills of Exchange

Bill (bills of exchange/promissory notes of public sector and private sector corporate entities) Rediscounting

Repos

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, corporate debt securities, Government Securities, State Government Securities and T-Bills are eligible for Repo/ Reverse Repo.

The Scheme may undertake repo or reverse repo transactions in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments

(including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

Non-Convertible Debentures and Bonds

Non convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements.

The Scheme may also invest in the non-convertible part of convertible debt securities.

Floating rate Debt instruments

Floating rate debt instruments are instruments issued by Central / state governments, corporates, PSUs, etc. with interest rates that are reset periodically.

Securitized Assets

Securitization is a structured finance process which involves pooling and repackaging of cashflow producing financial assets into securities that are then sold to investors. They are termed as Asset Backed Securities (ABS) or Mortgage Backed Securities (MBS). ABS are backed by other assets such as credit card, automobile or consumer loan receivables, retail installment loans or participations in pools of leases. Credit support for these securities may be based on the underlying assets and/or provided through credit enhancements by a third party. MBS is an asset backed security whose cash flows are backed by the principal and interest payments of a set of mortgage loans. Such Mortgage could be either residential or commercial properties. ABS/MBS instrument reflect the undivided interest in the underlying assets and do not represent the obligation of the issuer of ABS/MBS or the originator of underlying receivables. Securitization often utilizes the services of SPV.

Pass through Certificate (PTC)

Pay through or other Participation Certificates represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two wheeler loans and other assets subject to applicable regulations.

The following are certain additional disclosures w.r.t. investment in securitized debt:

1. How the risk profile of securitized debt fits into the risk appetite of the Scheme

Securitized debt is a form of conversion of normally non-tradable loans to transferable securities. This is done by assigning the loans to a special purpose vehicle (a trust), which in turn issues Pass-Through-Certificates (PTCs). These PTCs are transferable securities with fixed income characteristics. The risk of investing in securitized debt is similar to investing in debt securities. However it differs in two respects.

Typically the liquidity of securitized debt is less than similar debt securities. For certain types of securitized debt (backed by mortgages, personal loans, credit card debt, etc.), there is an additional pre-payment risk. Pre-payment risk refers to the possibility that loans are repaid before they are due, which may reduce returns if the re-investment rates are lower than initially envisaged.

Because of these additional risks, securitized debt typically offers higher yields than debt securities of similar credit rating and maturity. If the fund manager judges that the additional risks are suitably compensated by the higher returns, he may invest in securitized debt up to the limits specified in the asset allocation table above.

2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.

The originator is the person who has initially given the loan. The originator is also usually responsible for servicing the loan (i.e. collecting the interest and principal payments). An analysis of the originator is especially important in case of retail loans as this affects the credit quality and servicing of the PTC. The key risk is that of the underlying assets and not of the originator. For example, losses or performance of earlier issuances does not indicate quality of current series. However such past performance may be used as a guide to evaluate the loan standards, servicing capability and performance of the originator.

Originators may be: Banks, Non-Banking Finance Companies, Housing Finance Companies, etc. The fund manager / credit analyst evaluates originators based on the following parameters

- Track record
- Willingness to pay, through credit enhancement facilities etc.
- Ability to pay
- Business risk assessment, wherein following factors are considered:
 - Outlook for the economy (domestic and global)
 - Outlook for the industry
 - Company specific factors

In addition, a detailed review and assessment of rating rationale is done including interactions with the originator as well as the credit rating agency.

The following additional evaluation parameters are used as applicable for the originator / underlying issuer for pool loan and single loan securitization transactions:

- Default track record/ frequent alteration of redemption conditions / covenants
- High leverage ratios of the ultimate borrower (for single-sell downs) – both on a standalone basis as well on a consolidated level/ group level
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- Poor reputation in market
- Insufficient track record of servicing of the pool or the loan, as the case may be.

3. Risk mitigation strategies for investments with each kind of originator

An analysis of the originator is especially important in case of retail loans as the size and reach affects the credit quality and servicing of the PTC. In addition, the quality of the collection process, infrastructure and follow-up mechanism; quality of MIS; and credit enhancement mechanism are key risk mitigants for the better originators / servicers.

In case of securitization involving single loans or a small pool of loans, the credit risk of the underlying borrower is analyzed. In case of diversified pools of loans, the overall characteristic of the loans is analyzed to determine the credit risk. The credit analyst looks at ageing (i.e. how long the loan has been with the originator before securitization) as one way of evaluating the performance potential of the PTC. Securitization transactions

may include some risk mitigants (to reduce credit risk). These may include interest subvention (difference in interest rates on the underlying loans and the PTC serving as margin against defaults), overcollateralization (issue of PTCs of lesser value than the underlying loans, thus even if some loans default, the PTC continues to remain protected), presence of an equity / subordinate tranche (issue of PTCs of differing seniority when it comes to repayment - the senior tranches get paid before the junior tranche) and / or guarantees.

4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments

In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. In case of diversified pools of loans, the overall characteristic of the loans is analyzed to determine the credit risk.

The credit analyst looks at ageing (i.e. how long the loan has been with the originator before securitization) as one way of judging the performance potential of the PTC. Additional risk mitigants may include interest subvention, over collateralization, presence of an equity / subordinate tranche and / or guarantees. The credit analyst also uses analyses by credit rating agencies on the risk profile of the securitized debt.

Currently, the following parameters are used while evaluating investment decision relating to a pool securitization transaction. The Investment Review Committee may revise the parameters from time to time.

Characteristics/Type of Pool	Mortgage Loan	Commercial Vehicle and Construction Equipment	CAR	2 wheels	Micro Finance Pools *	Personal Loans *	Single Sell Downs	Others
Approximate Average maturity (in Months)	Up to 10 years	Up to 3 years	Up to 3 years	Up to 3 years	NA	NA	Refer Note 1	Refer Note 2

Maximum single exposure range	<1%	<1%	<1%	<1%	NA	NA	"	"
Average single exposure range %	<1%	<1%	<1%	<1%	NA	NA	"	"

* Currently, the Scheme will not invest in these types of securitized debt

Note 1: In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. The investment limits applicable to the underlying borrower are applied to the single loan sell-down.

Note 2: Other investments will be decided on a case-to-case basis

The credit analyst may consider the following risk mitigating measures in his analysis of the securitized debt:

- Size of the loan
- Average original maturity of the pool
- Loan to Value Ratio
- Average seasoning of the pool
- Default rate distribution
- Geographical Distribution
- Credit enhancement facility
- Liquid facility
- Structure of the pool

5. Minimum retention period of the debt by originator prior to securitization

Issuance of securitized debt is governed by the Reserve Bank of India. RBI norms cover the "true sale" criteria including credit enhancement and liquidity enhancements. In addition, RBI has proposed minimum holding period of between nine and twelve months for assets before they can be securitized. The minimum holding period depends on the tenor of the securitization transaction. The Scheme will invest in securitized debts that are compliant with the laws and regulations.

6. Minimum retention percentage by originator of debts to be securitized

Issuance of securitized debt is governed by the Reserve Bank of India. RBI norms cover the "true sale" criteria including credit enhancement and liquidity enhancements, including maximum exposure by the originator in the PTCs. In addition, RBI has proposed minimum retention requirement of between five and ten percent of the book value of the loans by the originator. The minimum retention requirement depends on the tenor and structure of the securitization transaction. The Fund will invest in securitized debts that are compliant with the laws and regulations.

7. The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

The key risk is securitized debt relates to the underlying borrowers and not the originator. In a securitization transaction, the originator is the seller of the debt(s) and the fund is the buyer. However, the originator is also usually responsible for servicing the loan (i.e. collecting the interest and principal payments). As the originators may also invest in the scheme, the fund manager shall ensure that the investment decision is based on parameters as set by the Investment Review Committee (IRC) of the Asset Management Company and IRC shall review the same at regular interval.

8. The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

The fund management team including the credit analyst has the experience to analyze securitized debt. In addition, credit research agencies provide analysis of individual instruments and pools. On an on-going basis (typically monthly) the servicer provides reports regarding the performance of the pool. These reports would form the base for ongoing evaluation where applicable. In addition, rating reports indicating rating changes would be monitored for changes in rating agency opinion of the credit risk.

When issued security

When, as and if issued' (commonly known as "**when-issued**" (**WI**) **security**) refers to a security that has been authorized for issuance but not yet actually issued. WI trading takes place between the time a new issue is announced and the time it is actually

issued. All “when issued” transactions are on an “if” basis, to be settled if and when the actual security is issued.

SEBI has on April 16, 2008 in principle allowed Mutual Funds to undertake ‘When Issued (WI)’ transactions in Central Government securities, at par with other market participants.

Open Position in the ‘WI’ market are subject to the following limits:

Category	Reissued Security	Newly Issued Security
Non-PDs	Long Position, not exceeding 5 percent of the notified amount.	Long Position, not exceeding 5 percent of the notified amount.

Debt derivative instruments

Interest Rate Swap

An Interest Rate Swap (IRS) is a financial contract between two parties exchanging or swapping a stream of interest payments for a “notional principal” amount on multiple occasions during a specified period. Such contracts generally involve exchange of a “fixed to floating” or “floating to fixed rate” of interest. Accordingly, on each payment date that occurs during the swap period, cash payments based on fixed/ floating and floating rates are made by the parties to one another.

Forward Rate Agreement

A Forward Rate Agreement (FRA) is a financial contract between two parties to exchange interest payments for a ‘notional principal’ amount on settlement date, for a specified period from start date to maturity date. Accordingly, on the settlement date, cash payments based on contract (fixed) and the settlement rate, are made by the parties to one another. The settlement rate is the agreed bench-mark/ reference rate prevailing on the settlement date.

Interest Rate Futures (as and when permitted):

A futures contract is a standardized, legally binding agreement to buy or sell a commodity or a financial instrument in a designated future month at a market determined price (the futures price) by the buyer and seller. The contracts are traded on a futures exchange. An Interest Rate Future is a futures contract with an interest bearing instrument as the underlying asset.

Characteristics of Interest Rate Futures

1. Obligation to buy or sell a bond at a future date
2. Standardized contract.
3. Exchange traded
4. Physical settlement
5. Daily mark to market

Foreign Securities

The Scheme may also invest in suitable investment avenues in foreign securities in overseas financial markets for the purpose of diversification, commensurate with the Scheme objectives and subject to necessary stipulations by SEBI / RBI. Towards this end, the Mutual Fund may also appoint overseas investment advisors and other service providers, to the extent permissible under the Regulations.

The Scheme may invest in the following foreign securities in line with the guidelines stipulated by RBI/SEBI from time to time:

- Initial and follow on public offerings for listing at recognized stock exchanges overseas

- Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
- Money market instruments rated not below investment grade
- Repos in the form of investment, where the counterparty is rated not below investment grade; repos shall not however, involve any borrowing of funds by the mutual funds
- Government securities where the countries are rated not below investment grade
- Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
- Short term deposits with banks overseas where the issuer is rated not below investment grade
- Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in (a) aforesaid securities, or (b) unlisted overseas securities (not exceeding 10% of their net assets).

Note: The Scheme will not invest in foreign securitized debt.

As per SEBI circular no. SEBI/IMD/CIR No.7/104753/07 dated September 26, 2007, mutual funds can make overseas investments subject to a maximum of US \$300 million or such limits as may be prescribed by SEBI from time to time. Subject to the approval of RBI / SEBI and conditions as may be prescribed by them, the Mutual Fund may open one or more foreign currency accounts abroad either directly, or through the custodian/sub-custodian, to facilitate investments and to enter into/deal in forward currency contracts, currency futures, interest rate futures / swaps, currency options for the purpose of hedging the risks of assets of a portfolio or for such purposes as maybe permitted from time to time. However, the use of such instruments shall be as permitted from time to time. All the requirement of the SEBI circular dated September 26, 2007 and any amendments thereto would be adhered to by the AMC for investment in foreign securities.

Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.

Short Term Deposits

Pending deployment of funds as per the investment objective of the Scheme, the Funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI.

Units of Mutual Fund schemes

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other mutual funds in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations.

The securities / instruments mentioned above and such other securities the Scheme is permitted to invest in could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity.

The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offers or negotiated deals. Further investments in debentures, bonds and other fixed income securities will be in instruments which have been assigned investment grade rating by the Credit Rating Agency.

Investment in unrated debt instruments shall be subject to complying with the provisions of the Regulations and within the limit as specified in Schedule VII to the Regulations.

Pursuant to SEBI circular no. MFD/CIR/9/120/2000 dated November 24, 2000, the AMC may constitute committee(s) to approve proposals for investments in unrated debt instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. However, in case any unrated debt security does not fall under the parameters, the prior approval of Board of AMC and Trustee shall be sought.

For applicable regulatory investment limits please refer paragraph "Investment Restrictions".

Details of various derivative strategies/examples of use of derivatives have been provided under the paragraph "Derivatives Strategy".

The Fund Manager reserves the right to invest in such securities as may be permitted from time to time and which are in line with the investment objectives of the Scheme.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund at the same time maintaining a balance between safety and liquidity.

The portfolio construction will seek to play out the shape of the curve (overnight – 12 months, 1Year-3Year, steep/flat/inverted) and differentiated levels of risk premia offered by the market to different class of issuers. E.g. yields for 1Year instrument issued by a bank, a NBFC, a manufacturing corporate, a broking company can differ by as high as 100-500 basis points even if all of them are rated equally by the credit rating agency. Accordingly there is a trade-off in terms of their respective liquidity. In view of the Fund's objective of maximizing returns with maintaining high liquidity, the portfolio will be constructed with judicious mix of instruments issued by the universe of eligible issuers across the spectrum. Portfolio maturity (in months) is determined after analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.

The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer.

The Macaulay duration of the portfolio of the Scheme will be maintained between 6 months - 12 months depending on the interest rate view. The Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.

Derivatives Strategy:

The Scheme may use Derivative instruments like interest rate swaps like Overnight Indexed Swaps ("OIS"), forward rate agreements, interest rate futures (as and when permitted) or such other Derivative instruments as may be permitted under the applicable regulations. Derivatives will be used for the purpose of hedging, and portfolio

balancing or such other purpose as may be permitted under the regulations and guidelines from time to time.

The Fund will be allowed to take exposure in interest rate swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio. In terms of circular no. MFD.BC.191/07.01.279/1999-2000 and MPD.BC.187/07.01.279/1999-2000 dated November 1, 1999 and July 7, 1999 respectively issued by RBI permitting participation by Mutual Funds in interest rate swaps and forward rate agreements, the Scheme will use Derivative instruments for the purpose of hedging and portfolio balancing. The Scheme may also use derivatives for such purposes as maybe permitted from time to time. Further, the guidelines issued by RBI from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the Mutual Fund.

IRS and FRAs do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in Derivatives will be in accordance with the extant SEBI Regulations / guidelines. Presently Derivatives shall be used for hedging and / or portfolio balancing purposes, as permitted under the Regulations. The circumstances under which such transactions would be entered into would be when, for example using the IRS route it is possible to generate better returns / meet the objective of the Scheme at a lower cost. e.g. if buying a 2 Yr Mibor based instrument and receiving the 2 Yr swap rate yields better return than the 2 Yr AAA corporate, the Scheme would endeavor to do that. Alternatively, the Scheme would also look to hedge existing fixed rate positions if the view on interest rates is that it would likely rise in the future.

The following information provides a basic idea as to the nature of the Derivative instruments proposed to be used by the Fund and the benefits and risks attached therewith. Please note that the examples have been given for illustration purposes only.

Using Overnight Indexed Swaps

In a rising interest rate scenario, the Scheme may enhance returns for the Investor by hedging the risk on its fixed interest paying assets by entering into an OIS contract where the Scheme agrees to pay a fixed interest rate on a specified notional amount, for a pre determined tenor and receives floating interest rate payments on the same notional amount. The fixed returns from the Scheme assets and the fixed interest payments to be made by the Scheme on account of the OIS transaction offset each other and the Scheme benefits on the floating interest payments that it receives. The Scheme may enter into an opposite position in case of a falling interest rate scenario, i.e. to hedge the floating rate assets in its portfolio the Scheme enters into an OIS transaction wherein it receives a fixed interest rate on a specified notional amount for a specified time period and pays a floating interest rate on the same notional amount. The floating interest payments that the Scheme receives on its floating rate securities and the floating interest payments that the Scheme has to pay on account of the OIS transaction offset each other and the Scheme benefits on the fixed interest payments that it receives in such a scenario.

Swap

Assume that the Scheme has a Rs. 20 crore floating rate investment linked to MIBOR (Mumbai Inter Bank Offered Rate). Hence, the Scheme is currently running an interest rate risk and stands to lose if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap. Through this swap, the Scheme will

receive a fixed predetermined rate (assume 12%) and pays the “benchmark rate” (MIBOR), which is fixed by the NSE or any other agency such as Reuters. This swap would effectively lock-in the rate of 12% for the next 6 months, eliminating the daily interest rate risk. This transaction is usually routed through an intermediary who runs a book and matches deals between various counterparties.

The steps will be as follows:

Assuming the swap is for Rs. 20 Crores for June 1, 2009 to December 1, 2009. The Scheme is a fixed rate receiver at 12% and the counterparty is a floating rate receiver at the overnight rate on a compounded basis (say NSE MIBOR).

On June 1, 2009 the Scheme and the counterparty will exchange only a contract of having entered this swap. This documentation would be as per International Swap Dealers Association (“ISDA”) norms.

On a daily basis, the benchmark rate fixed by NSE will be tracked by them.

On December 1, 2009 they will calculate the following:

- The Scheme is entitled to receive interest on Rs. 20 Crores at 12% for 184 days i.e. Rs. 1.21 Crores, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate.
- The counterparty is entitled to receive daily compounded call rate for 184 days & pay 12% fixed.
- On December 1, 2009, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 1.21 Crores, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference.
- Effectively the Scheme earns interest at the rate of 12% p.a. for six months without lending money for 6 months fixed, while the counterparty pays interest @ 12% p.a. for 6 months on Rs. 20 Crores, without borrowing for 6 months fixed.

The above example illustrates the use of Derivatives for hedging and optimizing the investment portfolio. Swaps have their own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Forward Rate Agreement

Assume that on June 30, 2009, the 30 day Commercial Paper (CP) rate is 4% and the Scheme has an investment in a CP of face value Rs. 50 Crores, which is going to mature on July 31, 2009. If the interest rates are likely to remain stable or decline after July 31, 2009, and if the fund manager, who wants to re-deploy the maturity proceeds for 1 more month does not want to take the risk of interest rates going down, he can then enter into a following Forward Rate Agreement (FRA) say as on June 30, 2009:

He can receive 1 X 2 FRA on June 30, 2009 at 4.00% (FRA rate for 1 months lending in 1 months time) on the notional amount of Rs. 50 Crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement date i.e. July 30, 2009 falls to 3.75%, then the Scheme receives the difference 4.00 – 3.75 i.e. 25 basis points on the notional amount Rs. 50 Crores.

Interest Rate Futures

Assume that the Scheme holds an Indian ten year benchmark and the fund manager has a view that the yields will go up in the near future leading to decrease in value of the investment and subsequent decrease in Net Asset Value of the Scheme. The fund

manager decides to use Interest Rate Futures to mitigate the risk of decline of Net Asset Value of the Scheme.

12th October 2009

- The benchmark ten year paper 6.88 2009, is trading at INR 98.00 at a yield of 7.19%.
- December 2009 futures contract on the ten year notional 7% coupon bearing Government paper is trading at a yield of 7.29% at a price of INR 98.50.
- The mutual fund decides to hedge the exposure by taking a short position in December 2009 interest rate futures contract.

25th November 2009

- As expected by the fund manager the yield of the benchmark ten year paper has increased to 8% and the price has decreased to 92.70.
- The December 2009 futures contract is trading at a price of INR 93.17 indicating a yield of 8.05%
- The mutual fund unwinds the short position by buying the December 2009 futures contract. The transaction results in profit from the futures position, against the corresponding loss from the Government of India security position.

Certain risks are inherent to Derivative strategies viz. lack of opportunities, inability of Derivatives to correlate perfectly with the underlying and execution risks, whereby the rate seen on the screen may not be the rate at which the transaction is executed. For details of risk factors relating to use of Derivatives, the investors are advised to refer to Scheme Specific Risk Factors.

Directional Trading

As there is an inverse relationship between interest rate movement and underlying bond prices, the futures price also moves in tandem with the underlying bond prices. If one has a strong view that interest rates will rise in the near future and wants to benefit from rise in interest rates; one can do so by taking short position in IRF contracts.

Example: A trader expects long-term interest rate to rise. He decides to sell Interest Rate Futures contracts as he shall benefit from falling future prices.

Expectation	Position
Interest Rates going up	Short Futures
Interest Rates going down	Long Futures

- Trade Date - 1st December 2015
- Futures Delivery date - 1st January 2016
- Current Futures Price - Rs. 97.50
- Futures Bond Yield - 8.21%
- Trader sell 250 contracts of the January 2016- 10 Year futures contract on NSE on 1st December 2015 at Rs. 97.50

Assuming the price moves to Rs. 97.15 on December 9, 2015, net MTM gain would be Rs. 1,75,000 (250*2000*(97.50-97.15) (I)

Closing out the Position

- 10th December 2015 - Futures market Price - Rs. 96.70
- Trader buys 250 contracts of January 2016 at Rs. 96.70 and squares off his position
- Therefore total profit for trader 250*2000*(97.15-96.70) is Rs.2,25,000 (II)
- Total Profit on the trade = INR 4,00,000 (I & II)

Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

Example:

Date: 01-December 2015

Spot price of GOI Security: Rs 105.05

Futures price of IRF Contract: Rs 105.12

On 01-December 2015 XYZ bought 2000 GOI securities from spot market at Rs 105.07. He anticipates that the interest rate will rise in near future. Therefore to hedge the exposure in underlying market he may sell January 2016 Interest Rate Futures contracts at Rs 105.12

On 16-January 2016 due to increase in interest rate:

Spot price of GOI Security: Rs 104.24

Futures Price of IRF Contract: Rs 104.28

Loss in underlying market will be $(104.24 - 105.05) * 2000 = \text{Rs } 1620$

Profit in the Futures market will be $(104.28 - 105.12) * 2000 = \text{Rs } 1680$

Imperfect Hedging

The Scheme may use Interest Rate Future for imperfect hedging in accordance with the SEBI (Mutual Funds) Regulations, 1996 as amended from time to time. In such cases, the Underlying being hedged and the IRF contract has a 90-day correlation of closing prices of more than 90%. In case of correlation breaking at any time the derivative position would be counted as an exposure. SEBI allows maximum of 20% imperfect hedging.

For example, assume a portfolio comprising the following structure:

Security	Amount (crs)	Price (Rs)
IGB 7.17% 2028	100	97.5
IGB 6.79% 2027	50	94.07
IGB 8.33% 2026	25	103.05
Cash	25	
Total	200	

Assuming the fund manager intends to hedge the portfolio using IRF and uses contracts on IGB 6.79% 2027 as it is most liquid.

Maximum imperfect hedging allowed, based on SEBI limit of 20% for the above fund is $200 * 20\% = 40$ crs

Maximum perfect hedging using 6.79% 2027 is 100 crs (as amount of 6.79% 2027 in the fund is 100 crs)

Total hedge the fund can do = 100 crs + 40 crs = 140 crs

Assuming the 90-day historical correlation between the instruments in the portfolio are as follows

90 day historical correlation	IGB 7.17% 2028	IGB 6.79% 2027	IGB 8.33% 2026
IGB 7.17% 2028	1	0.95	0.80
IGB 6.79% 2027	0.95	1	0.75
IGB 8.33% 2026	0.80	0.75	1

Given that we are using IRF on 7.17% 2028, we can hedge 7.17% 2028 using IRFs as correlation is more than 90% up to 40 crs (based on the 20% limit of imperfect hedging).

Since one contract of IRF has a notional of Rs. 2 lakhs, in this example the fund manager sells Rs. 140 crores/2 lakhs = 7000 contracts, to hedge his position.

Hence after hedging the fund is as shown below:

Security	Amount (crs)	Price (Rs)	Comments
IGB 7.17% 2028	100	97.5	100% hedged - Perfect hedging
IGB 6.79% 2027	50	94.07	40% hedged - Imperfect hedging
IGB 8.33% 2026	25	103.05	Unhedged
Cash	25		Unhedged
IGB 7.17% 2028	140	97.45	
Total	200		

At maturity of the Interest Rate Futures

Case 1: bonds close higher than at the time the hedge was entered into

Security	Amount (crs)	Price before hedging (Rs)	Price on maturity of hedge (Rs)	Gain	Net Gain (Lakhs)
IGB 7.17% 2028	100	97.5	97.6	0.1	10.00
IGB 6.79% 2027	50	94.07	94.22	0.15	7.50
IGB 8.33% 2026	25	103.05	103.10	0.05	1.25
Cash	25				-
Without IRF					18.75
IGB 7.17% 2028	140	97.45	100.6	-0.15	(21.00)
Total with IRF	200				(2.25)

Case 2: bonds close lower than at the time the hedge was entered into

Security	Amount (crs)	Price before hedging (Rs)	Price on maturity of hedge (Rs)	Gain	Net Gain (Lakhs)
IGB 7.17% 2028	100	97.5	97.4	-0.1	(10.00)
IGB 6.79% 2027	50	94.07	93.95	-0.12	(6.00)
IGB 8.33% 2026	25	103.05	103.00	-0.05	(1.25)
Cash	25				-
Without IRF					(17.25)
IGB 7.17% 2028	140	97.45	97.4	0.05	(7.00)
Total with IRF	200				(10.25)

As can be seen in the cases above, in case yields move higher, IRFs help in reducing the loss to the fund.

Arbitrage

Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.

Example:

On 18th December 2015 buy 6.35% GOI '20 at the current market price of Rs. 97.2485

- Step 1 - Short the futures at the current futures price of Rs. 100.00 (9.00% Yield)
Step 2 - Fund the bond by borrowing up to the delivery period (assuming borrowing rate is 8.00%)
Step 3 - On 10th January 2016, give a notice of delivery to the exchange

Assuming the futures settlement price of Rs. 100.00, the invoice price would be
= $100 * 0.9780$
= Rs. 97.8000

Under the strategy, the trader has earned a return of
= $(97.800 - 97.2485) / 97.2485 * 365 / 23$
= 9.00 % (implied repo rate)

(Note: For simplicity accrued interest is not considered for calculation)
Against its funding cost of 8.00% (borrowing rate), thereby earning risk free arbitrage.

Risks associated with Interest Rate Futures

Although hedging with interest rate futures allows investors to reduce interest rate risk, it generally cannot completely eliminate risk. All hedges generally contain some residual, or basis, risk. Moreover, hedging also introduces some other risks. Some of those risks are credit risk, marking to market risk, and managerial risk.

Basis risk:

The risk that remains after an investor hedges his portfolio is called basis risk. An investor who hedges his portfolio with interest rate futures bears basis risk because, when interest rates change, the change in the price of the futures contract does not perfectly offset the change in the price of the asset being hedged. Fixed income asset prices can change for reasons other than changes in interest rates. As a result, the basis risk in a hedge will be relatively high when factors other than interest rates are an important source of the changes in the price of the asset being hedged.

For example, an asset's price will fall if the issuer's credit rating falls or if the asset is relatively illiquid and a large amount is sold. Since these factors would not affect the prices of interest rate futures, such as Treasury bond futures, interest rate futures cannot offset price changes caused by such factors. In fact, that is why Treasury bond futures proved to be a less effective hedging instrument for the corporate bond than for the Treasury bond portfolio.

Credit risk:

Individuals do not have to be concerned about the opposite party defaulting on a futures contract because every futures exchange has a clearing organization that is a party to every futures contract in order to guarantee the integrity of the contract. That is, the clearing house is the seller in every contract bought and the buyer in every contract sold. But the risk remains that an investor will end up with an un-hedged open futures position if there is a default on the asset being hedged.

For example, suppose an investor in corporate bonds hedges his portfolio against changes in interest rates by selling interest rate futures. If interest rates fall, the prices of the bond and futures will rise. Since futures were sold, the investor would suffer losses on the futures, but those losses would be offset by the gains on the bonds. If the bond issuer defaults, though, the investor would have the losses on his futures position but no gains to offset the losses.

Portfolio Turnover:

The Scheme being an open-ended Scheme, it is expected that there would be a number of Subscriptions and Redemptions on a daily basis. Further, in the debt market, trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, credit rating changes or any other factors. In the opinion of the fund manager these opportunities can be played out to enhance the total return of the portfolio, which will result in increase in portfolio turnover. There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover

Investment in overseas financial assets (foreign fixed income securities):

RBI vide its letter no. EC.CO.OID.MF/ 19.19.463/2001-2002 dated May 31, 2002 has given approval to mutual funds to invest in such securities subject to the conditions stated therein. SEBI through its Circular dated September 26, 2007 & such other circulars as issued by SEBI from time to time has permitted Mutual Funds to invest in Foreign Securities including foreign debt securities within the overall limit of US\$ 7 billion, subject to a maximum of US\$ 300 million per Mutual Fund. Further, the Mutual Funds can also invest in Exchange Traded Funds within an overall limit of US\$ 1 billion, subject to a maximum of US\$ 50 million per Mutual Fund.

It is the Investment Manager's belief that overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the Investment Manager provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest only partially in overseas securities, there may not be readily available and widely accepted benchmarks to measure the performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use Derivatives for efficient portfolio management and hedging as maybe permitted from time to time and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.

Offshore investments will be made subject to any/all approvals/ conditions thereof as may be stipulated by SEBI/ RBI/ other Regulatory Agency. The Fund may, where necessary, appoint other intermediaries of repute as advisors, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Under normal circumstances, the Scheme may invest maximum 50% of its net assets in Foreign Securities. However, the AMC with a view to protecting the interests of Investors may alter the exposure in Foreign Securities as deemed fit from time to time.

For applicable regulatory investment limits please refer paragraph "Investment Restrictions.

The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the scheme.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market, consists of G-Sec outstanding of Rs. 5,104,665 cr as on April 28, 2018 (State Govt securities - Rs 24,02,242 cr, Source: CCIL), is the oldest and the largest component (50% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. The market capitalization of corporate bond market as on October 31, 2016 is Rs. 27,42,259.07 Cr (Source: SEBI). A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Collateralised Borrowing & Lending Obligations (CBLO)
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / DFI /

Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing on May 2, 2018 on some of the instruments and further illustrates this point.

Instrument	Current Yield range (%)
CBLO	6.-6.10
Repo	6.-6.10
3m Tbill	6.19-6.20
1Y Tbill	6.45-50
10Y Gsec	7.67-72
3m PSU Bank CD	7.10-7.15
3m Manufacturing co. CP	7.25-7.30
1Y PSU Bank CD	7.85-7.90
1Y NBFC CP	8.25-8.35
1Y Manufacturing co. CP	7.95-8.00
5Y AAA Institutional Bond	8.35-45
10Y AAA Institutional Bond	8.45-50

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

Risk Control:

Risk is an inherent part of the investment function. Effective risk management is critical to fund management for achieving financial soundness. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification; The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. AMC has implemented the Bloomberg Portfolio Order Management System as Front Office System (FOS) for this purpose. The system has incorporated all the investment restrictions as per SEBI guidelines and "soft" warning alerts at appropriate levels for preemptive monitoring. The system enables identifying & measuring the risk through various risk measurement

tools like various risk ratios, average duration and analyzes the same and acts in a preventive manner.

INVESTMENT BY THE AMC IN THE SCHEME

Subject to the Regulations, the AMC may invest either directly or indirectly, in the Scheme during the Ongoing Offer Period. However, the AMC shall not charge any investment management fee on such investment in the Scheme.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a Scheme

(ii) Investment Objective

(iii) Terms of Issue

- Liquidity provisions such as listing, Repurchase, Redemption.
- Aggregate fees and expenses charged to the Scheme.
- Any safety net or guarantee provided.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme and the Plan(s) / Option(s) thereunder and affect the interests of Unit holders is carried out unless:

- A written communication about the proposed change is sent to each Unit holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unit holders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

CRISIL Liquid Fund Index

Justification for use of benchmark

The scheme intends to invest in a portfolio of instruments (short term debt and money market instruments) which is best captured in CRISIL Liquid Fund Index. The constituents and weights of CRISIL Liquid Fund Index as on April 30, 2018 are as under:

Constituents	Weights (%)
CRISIL CBLO Index	15
CRISIL 3 Month CD Index	5
CRISIL 2 Month CD Index	10
CRISIL 3 Month CP Index	16
CRISIL 2 Month CP Index	54
Total	100

Hence, CRISIL Liquid Fund Index being the most appropriate of the available benchmarks is being used as a benchmark for Axis Treasury Advantage Fund.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective

of the Scheme and the appropriateness of the benchmark, subject to SEBI guidelines and other prevalent guidelines.

Presently, the Trustee/AMC has not designated a dedicated Fund Manager for investment in Foreign Securities. However, it shall be ensured that there is a dedicated fund manager for investment in foreign securities as and when the fund makes investment in foreign securities.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. A Mutual Fund Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC.

Provided that such limit shall not be applicable for investment in Government Securities, treasury bills and collateralized borrowing and lending obligations.

Provided further that investments within such limit can be made in the mortgaged backed securitised debt, which are rated not below investment grade by a credit rating agency, registered with SEBI.

2. The Scheme shall not invest more than 10% of its NAV in un-rated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme.

All such investments shall be made with the prior approval of the Trustee and Board of AMC.

3. The Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund.
4. The Scheme shall not make any investment in :
 - any unlisted security of an associate or group company of the sponsor; or
 - any security issued by way of private placement by an associate or group company of the sponsor; or
 - the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.
5. The Mutual Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.
6. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:
 - a) such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
7. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI.

Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

8. The Scheme shall not make any investment in any fund of funds scheme.
9. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI:

The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

- i. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- ii. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- iii. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- v. The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.

10. The Scheme shall not advance any loans.
11. The Scheme shall not borrow except to meet temporary liquidity needs of the Scheme for the purpose of Repurchase/Redemption of Unit or payment of interest and/or dividend to the Unit holder.

Provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

12. SEBI vide its circular no. Cir/IMD/DF/11/2010 dated August 18, 2010 and SEBI/HO/IMD/DF2/CIR/P/2017/ 109 dated September 27, 2017 has prescribed the following investment restrictions w.r.t. investment in derivatives:

S. No.	Particulars
1	The cumulative gross exposure through debt and derivative positions shall not exceed 100% of the net assets of the Scheme. Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.
2	The Scheme shall not write options or purchase instruments with embedded written options.
3	The total exposure related to option premium paid shall not exceed 20% of the net assets of the Scheme.
4	Exposure due to hedging positions may not be included in the above

	<p>mentioned limits subject to the following:</p> <ol style="list-style-type: none"> Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken. 								
5	Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.								
6	<p>Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:</p> <table border="1"> <thead> <tr> <th>Position</th> <th>Exposure</th> </tr> </thead> <tbody> <tr> <td>Long Future</td> <td>Futures Price * Lot Size * Number of Contracts</td> </tr> <tr> <td>Short Future</td> <td>Futures Price * Lot Size * Number of Contracts</td> </tr> <tr> <td>Option bought</td> <td>Option Premium Paid * Lot Size * Number of Contracts.</td> </tr> </tbody> </table>	Position	Exposure	Long Future	Futures Price * Lot Size * Number of Contracts	Short Future	Futures Price * Lot Size * Number of Contracts	Option bought	Option Premium Paid * Lot Size * Number of Contracts.
Position	Exposure								
Long Future	Futures Price * Lot Size * Number of Contracts								
Short Future	Futures Price * Lot Size * Number of Contracts								
Option bought	Option Premium Paid * Lot Size * Number of Contracts.								
7	The Scheme may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the Scheme. Exposure to a single counterparty in such transactions shall not exceed 10% of the net assets of the Scheme.								
8	<p>To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:</p> $\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures Prices} / \text{PAR})}$								
9	In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.								
10	<p>Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:</p> <ol style="list-style-type: none"> Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio. Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for 								

	<p>hedging shall be considered under the gross exposure computed in terms of Para 3 of SEBI circular dated August 18, 2010. The correlation should be calculated for a period of last 90 days.</p> <p>Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:</p> <ul style="list-style-type: none"> i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9. c. At no point of time, the net modified duration of part of the portfolio being hedged should be negative. d. The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Para 3 of SEBI circular dated August 18, 2010.
11	<p>The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.</p> <p>Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.</p>
12	<p>The interest rate hedging of the portfolio should be in the interest of the investors.</p>

13. The total exposure of the Scheme in a particular sector (excluding investments in Bank CDs, CBLO, Government Securities, T-Bills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 25% of the net assets of the Scheme.

Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 15% of the net assets of the Scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only;

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NBH) and the total Investment/exposure in HFCs shall not exceed 25% of the net assets of the Scheme.

14. The total exposure in a particular group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the Scheme. Such investment limit may be extended to 25% of the net assets of the Scheme with the prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

15. The Scheme shall participate in repos in corporate debt securities as per the guidelines issued by SEBI and/ or RBI from time to time and the guidelines framed by the Board of Directors of Trustee Company and the Asset Management Company, from time to time. At present the following conditions and norms shall apply to repo in corporate debt securities:

- (i) The gross exposure of the Scheme to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the Scheme.
- (ii) The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt and derivatives shall not exceed 100% of the net assets of the Scheme.
- (iii) The Scheme shall participate in repo transactions only in AA and above rated corporate debt securities.
- (iv) The Scheme shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
- (v) Counterparty selection & credit rating
The counterparty must be an acceptable counterparty for debt transactions. The Mutual Fund follows a counterparty empanelment process for fixed income transactions and the same shall be used for selection of counterparties for corporate bond repos. All repo transactions in corporate bonds will be governed by a repo agreement as specified by FIMMDA and / or other specified authorities.
- (vi) Collateral tenor & quality
Bonds with a minimum original maturity of 1-year and a minimum rating of AAA shall be eligible for repo. The exposure limit/investment restrictions prescribed under the Seventh Schedule of the Regulations and circulars issued there under (wherever applicable) shall be applicable to repo transactions in corporate bonds.
- (vii) Applicable haircuts
Currently mutual funds are permitted to carry out repo transactions in government securities without any haircuts. The Reserve Bank of India has notified a minimum haircut based on rating of the corporate bond as below. In addition, the Fixed Income and Money Market Dealers Association (FIMMDA) would maintain a rating-haircut matrix on an ongoing basis.

Rating	AAA		
Minimum haircut	10 %		

The haircuts seek to protect the lender of funds from the event of the counterparty failing to honor the repurchase leg of the repo. In such a circumstance, the Fund would suffer a loss if the value of the collateral depreciates by more than the haircut. The fall in the value of the collateral could be on account of higher yields and/ or deterioration of credit quality.

As the typical tenor of repos is short (typically overnight), the haircuts represent a relatively high degree of safety in relation to the interest rate risk on the collateral. The risk of collateral depreciation based on historical volatility is given in the table below:

Bond Tenor (yrs)	1	3	5	10
Price Volatility (%) (annualized)	0.6	1.2	1.7	3.4
Repo Tenor	Number of standard deviations needed to lose 10%			
1 day	258	136	94	48

7 days	98	52	36	18
--------	----	----	----	----

In the above table, the price volatility of a 10-year bond is about 3.4% annualized. That is a 10% price move represents nearly a 3-sigma event on an annualized basis. For overnight tenors, this represents a 48-sigma event (for comparison a 6-sigma event occurs about once in a million observations).

It is apparent that the haircuts stipulated by RBI are more than sufficient to mitigate interest rate risk. Credit event risk remains (the collateral could default during the tenor of the repo). This risk is to be mitigated by ensuring that the collateral is acceptable from a credit point of view.

The exposure limit/ investment restrictions prescribed under the Seventh Schedule of the Regulations and circulars issued there under (wherever applicable) shall be applicable to repo transactions in corporate bonds.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

All the investment restrictions will be applicable at the time of making investments.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

Default Option/Facility

The investor must clearly specify his choice of option/facility. In the absence of such clear instruction, it will be assumed that the investor has opted for 'default' option / facility and the application will be processed accordingly. The default plan/ option / facility are:

Default option

Default Option – Growth
 Default dividend frequency – Daily Option
 Default between Payout & Reinvestment Option - Reinvestment

Default Plan – Redemption application

Where Units under a Scheme are held under both Plans and the redemption / Switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number), failing which the request would be processed from Axis Treasury Advantage Fund. However, where Units under the requested Option are held only under one Plan, the request would be processed under such Plan.

Growth option

Dividends will not be declared under this option. The income attributable to Units under this option will continue to remain invested in the Scheme and will be reflected in the NAV of Units under this option.

Dividend option

Under this option, Dividends will be declared (subject to deduction of tax at source, if any) at specified frequencies at the discretion of the Trustee, subject to availability of distributable surplus calculated in accordance with SEBI (MF) Regulations. On payment of Dividend, the NAV of the Unit under Dividend option will fall to the extent of the Dividend payout and applicable statutory levies, if any.

	<p>It must be distinctly understood that the actual declaration of Dividend and frequency thereof is at the sole discretion of the Trustee. There is no assurance or guarantee to the Unit holders as to the rate of Dividend distribution nor that will the Dividend be paid regularly. The Trustee reserves the right to declare a Dividend at any other frequency in addition to the frequencies mentioned above.</p> <p>Dividend Payout Facility Under this facility, Dividend declared, if any, will be paid (subject to deduction of Dividend distribution tax and statutory levy, if any) to those Unit holder, whose names appear in the register of Unit holders on the notified record date.</p> <p>Dividend Reinvestment Facility Under this facility, the Dividend due and payable to the Unit holders will be compulsorily and without any further act by the Unit holder, reinvested in the respective Dividend option at a price based on the prevailing ex-Dividend Net Asset Value per Unit. The amount of Dividend re-invested will be net of tax deducted at source, wherever applicable. The Dividends so reinvested shall constitute a constructive payment of Dividends to the Unit holders and a constructive receipt of the same amount from each Unit holder for reinvestment in Units.</p> <p>On reinvestment of Dividends, the number of Units to the credit of Unit holder will increase to the extent of the Dividend reinvested divided by the Applicable NAV. There shall, however, be no Load on the Dividend so reinvested.</p>
Dividend Policy	<p>Under the dividend option, the Trustee will Endeavour to declare the dividend as per the specified frequencies, subject to availability of distributable surplus calculated in accordance with SEBI Regulations. The actual declaration of dividend and frequency will inter-alia, depend on availability of distributable surplus calculated in accordance with SEBI (MF) Regulations and the decisions of the Trustee shall be final in this regard. There is no assurance or guarantee to the Unit holder as to the rate of dividend nor that the dividend will be paid regularly.</p> <p>The AMC/Trustee reserves the right to change the frequency of declaration of dividend or may provide for additional frequency for declaration of dividend.</p> <p>Dividend Distribution Procedure In accordance with SEBI circular no. SEBI/ IMD/ Cir No. 1/ 64057/06 dated April 4, 2006, the procedure for dividend distribution would be as under:</p> <ol style="list-style-type: none"> 1. Quantum of dividend and the record date will be fixed by the Trustee. Dividend so decided shall be paid, subject to availability of distributable surplus. 2. Ultimate Beneficial Ownership details:

SEBI vide its circular no. CIR/MIRSD/2/2013 dated January 24, 2013 further read with AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015 and other applicable regulations has prescribed guidelines, for identification of Beneficial Ownership to be followed by the intermediaries. A 'Beneficial owner' is defined as a natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, and includes a person who exercises ultimate effective control over a legal person or arrangement. In this regard, all categories of investors (including all new / existing investors / unitholders) (except individuals, companies listed on a stock exchange or majority-owned subsidiary of such companies) are required to provide beneficial ownership details for all investments. Failing which, the fund reserves the right to reject applications/ subscription requests / additional subscription requests (including switches) / restrict further investments or seek additional information from investors who have not provided the requisite information on beneficial ownership. In the event of change in beneficial ownership, investors are requested to immediately update the details with the Fund/Registrar.

Foreign Account Tax Compliance Act ('FATCA') and Common Reporting Standards (CRS) requirements:

As a part of various ongoing tax and regulatory developments around the globe such as Foreign Account Tax Compliance Act ('FATCA') and Common Reporting Standard ('CRS'), financial institutions like Axis Mutual Fund ('Axis MF') are being cast with additional investor and counterparty account related due diligence requirements.

FATCA is a United States of America ("U.S.") tax initiative that requires all financial institutions to report financial transactions of U.S. persons including entities in which U.S. persons hold a substantial ownership, etc. to the relevant tax authorities. It was introduced by the United States Department of Treasury and the US Internal Revenue Service ("IRS") The purpose of FATCA is to prevent tax evasion by US citizens and residents (US Persons) through use of offshore accounts. FATCA obligates financial institutions (FIs), including Indian financial institutions to provide information on the accounts of / to report accounts held by specified US Persons. FATCA requires enhanced due diligence procedures by the FI so as to identify US reportable accounts. With respect to individuals, the US reportable accounts would cover those with US citizenship or US residency.

Further, similar to FATCA, G20 and OECD countries have released a "Standard for Automatic Exchange of Financial Account Information in Tax Matters", commonly known as the CRS on Automatic Exchange of Information (AEOI). CRS mandates automatic tax information exchange

	<p>regarding accounts of reportable persons between the CRS compliant jurisdictions.</p> <p>The Indian Government signed an Inter-Governmental Agreement (“IGA”) with the U.S. on July 9, 2015 to implement FATCA in India. In addition, India also signed the OECD’s Model Competent Authority Agreement for tax information sharing in accordance with multilateral Common Reporting Standard (“CRS”) on June 3, 2015. India had committed to implement CRS and the same has been implemented from January 1, 2016. Towards this, the Central Board of Direct Taxes has inserted Section 285BA of the Income Tax Act, 1961 along with Rules 114F to 114H (FATCA-CRS Rules), as part of the Income-tax Rules, 1962. These Rules require Indian financial institutions such as the Banks, Mutual Funds, etc. to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our investors and counterparties. According to the FATCA-CRS Rules, financial institutions in India are required to report tax information about account holders that tax resident of U.S. and other foreign countries, to the CBDT/ Indian Government which will, in turn, will relay that information to the IRS and governments of other foreign countries.</p> <p>These developments have resulted in compliance and reporting obligations on Financial Institutions like Axis MF. In relevant cases, information will have to be reported to tax authorities i.e. CBDT. Towards compliance, the Fund may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Axis MF has taken appropriate measures in order to become FATCA and CRS compliant, with effect from the applicable date as per applicable laws / rules/ regulations. As may be required by domestic or overseas regulators/ tax authorities, we may also be constrained to withhold and pay out any sums from your account or close or suspend your account(s). Axis MF may also have to comply with other similar laws as and when applicable.</p> <p>SEBI issued its circular no. CIR/MIRSD/2/2015 dated August 26, 2015 inter-alia advising intermediaries to take necessary steps to ensure compliance with the requirements specified in the rules and guidelines specified by the Government of India. AMFI also issued its best practices guidelines circular no. 63/2015-16 dated September 18, 2015 on this matter. The AMC and the Mutual Fund are required to adhere to various requirements inter-alia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities, as specified under the applicable laws.</p> <p>Accordingly, the following aspects need to be adhered to:</p> <ol style="list-style-type: none"> i. With effect from November 1, 2015 all investors will have to mandatorily provide the information and declarations pertaining to FATCA/CRS for all new accounts opened, failing which the application / transaction request shall be liable to be rejected. ii. For all new accounts opened by investors, from September 1, 2015 till October 31, 2015, MFs need to obtain relevant FATCA declarations. These details / certification need to be obtained by December 31, 2015,
--	---

	<p>particularly in cases where, after Indicia search, a positive match is found with any US indicia. If certification is not provided by an investor or the reasonableness of self-certification cannot be confirmed, the account is treated as reportable.</p> <p>iii. Investors are requested to note that under the alternative procedure provided in Rule 114H(8) of the Income-tax Rules, 1962, the financial institutions were required to obtain FATCA/CRS self-certification and carry out due diligence in respect of all individual and entity accounts opened from 1st July 2014 to 31st August 2015. Such self-certification and documentation was required to be obtained by the financial institutions by an extended timeline of 31st August 2016. In the event that such self-certification were not received within this timeline, financial institutions were required to close the account and if the account were found to be a "reportable account", report the same. In view of the difficulties highlighted by stakeholders in complying with the provision for "closure" of financial accounts, the Ministry of Finance, Government of India vide Press Release dated 31st August 2016 extended the time line for closure (from 31 August 2016) until further notification.</p> <p>Further to this, the Ministry of Finance, Government of India vide its Press release dated April 11, 2017 directed financial institutions to obtain the self-certification by April 30, 2017, failing which the accounts would need to be blocked. The transactions in such blocked folios would, be permitted only once the self-certification is obtained and due diligence completed. Investors are advised to complete their self-certification at the earliest to prevent being inconvenienced on account of blocking of any folio(s).</p> <p>Prospective investors and Unit holders will therefore be required to comply with the request of the Fund to furnish such information / documentation / declarations as and when deemed necessary by the Investment Manager in accordance with Applicable Laws. In case prospective investor / Unit holder fails to furnish the relevant information / documentation / declarations in accordance with Applicable Laws, the Fund reserves the right to reject the application or redeem the Units held directly or beneficially and may also require reporting of such accounts and/or levy of withholding tax on payments made to the Unit holders / investor and/or take any other action/s in accordance with Applicable Laws. FATCA-CRS provisions are relevant not only at on-boarding stage of Unit holders but also throughout the life cycle of investment with the Fund. Unit holders therefore should immediately intimate to the Fund/the Investment Manager, any change in their status with respect to any FATCA-CRS related information / documentation / declarations provided by them previously, including but not limited to any declarations provided in respect of residency of the Unit holders for tax purposes. Further, if the Fund and/or the Investment Manager is required by Applicable Laws, to provide information regarding the Fund and/or the unit holders / investors to any regulatory authority and/or the Fund Investments and/or income therefrom, and the Fund and/or the Investment Manager complies with such request in good faith, whether or not it was in fact enforceable, they shall not be liable to the Unit holders / investors or to any other party as a result of such compliance or in connection with such compliance.</p> <p>Prospective investors / Unit holders should consult their own advisors to</p>

	<p>understand the implications of FATCA-CRS provisions/requirements. Please note that Axis MF will be unable to provide advice to any investor or counterparty about their tax status or FATCA/CRS classification relevant to their account. It is the responsibility of the investor or counterparty to ensure that they record their correct tax status / FATCA/ CRS classification. Investor/ counterparty may seek advice from their tax advisor in this regard. The onus to provide accurate, adequate and timely inputs in this regard would be that of the investor or counterparty. Any changes in earlier information provided must be intimated within 30 days of such change.</p> <p>Investors are requested to provide all the necessary information / declarations to facilitate compliance, considering India's commitment to implement CRS and FATCA under the relevant international treaties.</p> <p>Implementation of KYC requirements: SEBI vide circular no. MIRSD/SE/Cir-21/2011 dated October 5, 2011 had mandated (i) Standard KYC form with uniform KYC guidelines and supporting documents to be used by SEBI registered intermediaries and (ii) Centralized KYC registration through KYC Registration Agencies (KRAs) registered with SEBI, w.e.f. January 1, 2012, to bring about uniform KYC process in the securities market, based on SEBI prescribed norms and the KYC details are shared with all SEBI registered intermediaries by the KRAs.</p> <p>Subsequently, SEBI, vide its circular no. MIRSD/Cir-5/2012 dated April 13, 2012 advised various intermediaries to upload KYC data of its existing customers into the KRA system. While uploading KYC data into the KRA system, intermediaries were also required to highlight such 'Missing/Not Available' KYC information of a customer, which was either not required or not taken previously, but was mandatory as per uniform KYC guidelines issued by SEBI.</p> <p>In accordance with AMFI best practices guidelines circular no. 62/2015-16 dated September 18, 2015, it is mandatory for all new/existing investors to provide additional KYC information such as Income details, Occupation, association with politically exposed person, net worth etc. as mentioned in the application form. Subscription requests, without providing these details, are liable to be rejected. No subscriptions (whether fresh or additional) and switches pertaining to 'KYC on-hold' cases are accepted, unless the investor / unitholder also submits relevant KYC missing / updated information, which is appropriately updated on the KRA - KYC.</p> <p>Further, it is mandatory for existing customers to complete In-Person Verification process and provide the missing KYC information failing which their applications / transaction requests for additional subscription (including switches) is liable to be rejected.</p> <p>Central KYC Processes Central Registry of Securitisation and Asset Reconstruction and Security interest of India ('CERSAI') has been authorised by Government of India to act as Central KYC Records Registry under Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 ('PMLA Rules').</p> <p>SEBI vide its circular no. Monthly	12 Installments	Rs. 1,000/- and in multiple of Re. 1/-								
Yearly	3 Installments	Rs. 12,000/- and in multiple of Re. 1/-								

Instructions for investments in SIP, the unit holders can now also make payment of SIP instalments through NACH facility. NACH is a centralized system, launched by National Payments Corporation of India (NPCI) with an aim to consolidate multiple Electronic Clearing Service (ECS) mandates. This facility will enable the unit holders of the Fund to make SIP investments through NACH by filling up the SIP Registration cum mandate form. A Unique number will be allotted to every mandate registered under NACH called as Unique Mandate Reference Number ("UMRN") which can be used for SIP transactions. The NACH facility shall be available subject to terms and conditions contained in the SIP registration Mandate Form and as prescribed by NPCI from time to time.

All SIP cheques/payment instructions should be of the same amount and same date (excluding first cheque). However, there should be a gap of 30 days between first SIP Installment and the second installment in case of SIP started during ongoing offer.

Investors will have the right to discontinue the SIP facility at any time by sending a written request to any of the Official Point(s) of Acceptance. Notice of such discontinuance should be received at least 20 days prior to the due date of the next debit. On receipt of such request, the SIP facility will be terminated. It is clarified that if the Fund fails to get the proceeds from three Installments out of a continuous series of Installments submitted at the time of initiating a SIP (Subject to a minimum under SIP i.e. 30 months), the SIP is deemed as discontinued.

Units will be allotted at the Applicable NAV of the respective dates on which the investments are sought to be made. In case the date falls on a Holiday or falls during a Book Closure period, the immediate next Business Day will be considered for this purpose

An extension of an existing SIP will be treated as a new SIP on the date of such application, and all the above conditions need to be met with. The Load structure prevailing at the time of submission of the SIP application (whether fresh or extension) will apply for all the Installments indicated in such application.

The AMC has the authority to make available SIP by way of a salary savings scheme for a group of employees through an arrangement with their employers.

For applicable Load on Purchases through SIP, please refer paragraph 'Load Structure' given in the document.

The AMC reserves the right to change / modify Load structure and other terms and conditions under the SIP prospectively at a future date. Please refer to the SIP Enrolment Form for terms & conditions before enrolment.

Note: the SIPs registered under Discontinued Plan (i.e. Retail Plan) of Axis Treasury Advantage Fund prior to October 1, 2012 shall be processed under the corresponding options of continuing plan (i.e. Axis Treasury Advantage Fund – Institutional plan which was renamed to Axis Treasury Advantage Fund w.e.f. January 1, 2013) for the remaining SIP installments, without any change in the terms of registration. The investors who do not

wish to continue their SIP in the continuing plan may discontinue the same by sending request in writing at least 20 days prior to the due date of the next debit.

Micro Systematic Investment Plan

Systematic Investment Plans (SIPs) where aggregate of installments in a financial year i.e. April to March does not exceed Rs. 50,000/- (per financial year per investor).

The Unit holders will have the facility of Micro SIP under the current SIP facility. The key features of the facility are as under:

1. Minimum amount per SIP installment is Rs. 100/- and in multiples of Re. 1 thereafter.
2. The minimum redemption amount will be Rs. 300/-.
3. Where the Mutual Fund fails to get the proceeds from six Installments out of a continuous series of Installments submitted at the time of initiating a SIP (Subject to a minimum under SIP i.e. 30 months), the SIP may be discontinued by the AMC.
4. All other features / guidelines of Systematic Investment Plan with reference to Standing Instruction / Direct Debit will be equally applicable for a Micro SIP.

Investors with PAN are not eligible for simplified KYC procedure for Micro SIP investments – details of which have been provided in the Statement of Additional Information.

For details, investors are requested to refer to the Micro SIP application form.

Systematic Investment Plan (SIP) Switch Facility

Unit holders having registered SIP in the specified scheme(s) of the Fund can use SIP Switch Facility to terminate SIP in the existing scheme and initiate SIP in another specified scheme.

period.

Investors can opt for the Systematic Transfer Plan by investing a lumpsum amount in one scheme of the Fund and providing a standing instruction to transfer sums at following intervals into any other scheme (as may be permitted by the Scheme Information Document of the respective schemes) of the Fund.

STP Frequency	Cycle Date	Minimum Amount* (in Rs.)	Minimum Installment
Daily	Monday To Friday	1,000/-	6
Weekly	Monday To Friday	1,000/-	6
Fortnightly	Alternate Wednesday	1,000/-	6
Monthly	1 st , 7 th , 10 th , 15 th or 25 th	1,000/-	6
Quarterly	1 st , 7 th , 10 th , 15 th or 25 th	3,000/-	2

In case Day of Transfer has not been indicated under Daily and Weekly frequencies, Wednesday shall be treated as Default day. Further, in case of Monthly and Quarterly Frequency, if the STP date and Frequency has not been indicated, Monthly frequency shall be treated as Default frequency and 10th shall be treated as Default Date.

In case none of the frequencies have been selected then Monthly frequency shall be treated as Default frequency and 10th shall be treated as Default Date.

The requests for discontinuation of STP shall be subject to an advance notice of 15 days before the next due date for STP.

Investors could also opt for STP from an existing account by quoting their account / folio number. A minimum period of 7 days shall be required for registration under STP.

Units will be allotted/ redeemed at the applicable NAV of the respective dates of the Scheme in which such investments/withdrawals are sought from the Scheme.

The requests for discontinuation of STP shall be subject to an advance notice of 15 days before the next due date for STP and it will terminate automatically if all Units are liquidated or withdrawn from the account or upon the Funds' receipt of notification of death or incapacity of the Unit holder.

The AMC reserves the right to introduce STPs at any other frequencies or on any other dates as the AMC may feel appropriate from time to time. In the event that such a day is a Holiday, the transfer would be affected on the next Business Day.

Further, in case of a last STP, where the balance amount is less than the STP amount, the entire amount will be transferred to the transferee scheme.

Note:

- (a) In case of Systematic Investment Plan (SIP) / Systematic Transfer Plan (STP) etc. registered prior to January 1, 2013 without any distributor code under the Axis Treasury Advantage Fund (Existing Plan), installments falling on or after January 1, 2013 will automatically be processed under the Direct Plan.
- (b) Investors who had registered for Systematic Investment Plan facility prior to January 1, 2013 with distributor code and wish to invest their future installments into the Direct Plan, shall make a written request to the Fund in this behalf. The Fund will take at least 15 days to process such requests. Intervening installments will continue in the Axis Treasury Advantage Fund (Existing Plan).

In case of (a) and (b) above, the terms and conditions of the existing registered enrolment shall continue to apply.

In case of Systematic Transfer Facilities (registered with Distributor Code) were registered under the Axis Treasury Advantage Fund (Existing Plan) prior to January 1, 2013 the future installments shall continue under the Existing Plan.

In case such investors wish to invest under the Direct Plan through these facilities, they would have to cancel their existing enrolments and register afresh for such facilities.

CAPITAL APPRECIATION SYSTEMATIC TRANSFER PLAN (CAPSTP)

Under this facility, the investors can opt for the Systematic Transfer Plan by investing a lump sum amount in one scheme of the Fund and providing a standing instruction to transfer capital appreciation at regular intervals - Weekly, Monthly or Quarterly into any other scheme (as maybe permitted by the Scheme Information Document of the respective schemes) of Axis Mutual Fund.

The capital appreciation, if any, will be calculated from the enrolment date of the CapSTP under the folio, till the first transfer date. Subsequent capital appreciation, if any, will be the capital appreciation between the previous CapSTP date (where CapSTP has been processed and paid) and the next CapSTP date.

There are three options available under CapSTP viz. Weekly, Monthly and Quarterly option, the details of which are given below:

The provision of 'Minimum Redemption Amount' as specified in the Scheme Information Document(s) of the respective designated Transferor Schemes and 'Minimum Application Amount' specified in the Scheme Information Document(s) of the respective designated Transferee Schemes will not be applicable for CapSTP.

	<p>Unit holders are required to fill in either the number of installments or the enrolment period in the enrolment Form, failing which the Form is liable to be rejected.</p> <p>In case, the Enrolment Period has been filled, but the CapSTP Date and/or Frequency (Monthly/ Quarterly) has not been indicated, Monthly frequency shall be treated as Default frequency and 10th shall be treated as Default Date. In case of weekly frequency, Wednesday shall be treated as Default day.</p> <p>In case none of the frequency is selected then Monthly frequency shall be treated as Default frequency and 10th shall be treated as Default Date.</p> <p>The application for CapSTP enrolment - Monthly & Quarterly frequency should be submitted at least 7 working days and not more than 90 days before the desired commencement date.</p> <p>In respect of CapSTP, the Load Structure prevalent at the time of enrolment shall govern the investors during the tenure of the CapSTP.</p> <p>A minimum period of 7 working days shall be required for registration under CapSTP. Units will be allotted/redeemed at the applicable NAV (of the respective date(s)) of the Scheme from/to which such withdrawals/investments are being made.</p> <p>The AMC reserves the right to introduce CapSTPs at any other frequencies or on any other dates as the AMC may feel appropriate from time to time. In the event that such a day is a Holiday, the transfer would be affected on the next Business Day.</p> <p>The requests for discontinuation of CapSTP shall be subject to an advance notice of 15 days before the next due date for CapSTP.</p> <p>CapSTP will terminate automatically if all Units are liquidated or withdrawn from the account or upon the Funds' receipt of notification of death or incapacity of the Unit holder. Further, in case where the balance amount in a folio is less than the STP/CapSTP amount, the entire amount will be transferred to the transferee scheme.</p> <p>FLEX - SYSTEMATIC INVESTMENT PLAN/ SYSTEMATIC TRANSFER PLAN ("Flex SIP/ Flex STP")</p> <p>Terms and conditions of Flex SIP/STP are as follows</p> <ol style="list-style-type: none"> 1. Flex SIP is a facility wherein an investor can opt to invest variable amount linked to the value of his investments in any of the existing open ended scheme(s) of Axis Mutual Fund ("Investee scheme"), on pre-determined date. This facility allows investors to take advantage of market movements by investing higher when the markets are low and vice-versa. 2. Flex STP is a facility wherein an investor under any of the existing open ended scheme(s) of Axis Mutual Fund can opt to transfer variable amount linked to value of his investments, on predetermined date from designated open-ended Scheme(s) of Axis Mutual Fund ("Transferor Scheme") to the Growth Option of designated open-ended Scheme(s) ("Transferee Scheme").
--	---

3. A single Flex SIP/STP Enrolment Form can be filled for investment/transfer into one Scheme/Plan/Option only.
4. In case of valid enrolment forms received, indicating choice of option other than the growth option in the Investee / Transferee Scheme, it will be deemed as the growth option in the Investee / Transferee Scheme and processed accordingly.
5. In case of Flex STP, unit holders' details and mode of holding (single, jointly, anyone or survivor) in the Transferee Scheme will be as per the existing folio number of the Transferor Scheme. Units will be allotted under the same folio number. Unitholders' name should match with the details in the existing folio number, failing which the enrolment form is liable to be rejected.

6. The minimum number of installments for enrollment and Amount under **Flex STP:**

Frequency under Flex-STP Facility	Minimum Installments	Minimum Flex-STP amount* (Rs.)
Monthly (1st, 7th, 10th, 15th or 25th)	6	Rs. 1,000/- and in multiple of Rs. 1/-
Quarterly (1st, 7th, 10th, 15th or 25th)	2	Rs. 3,000/- and in multiple of Rs. 1/-

*For Axis Long Term Equity Fund (An Open-ended equity-linked savings Scheme with a 3 year lock-in) minimum amount of Rs. 500/- for all frequencies and thereafter in multiples of Rs. 500/-.

7. The minimum number of installments for enrollment and Amount under **Flex SIP:**

Frequency under Flex-SIP Facility	Minimum Installments	Minimum Flex-SIP amount
Monthly	12 Installments for all schemes	Rs. 1,000/- and in multiple of Rs. 1/- for all schemes
Yearly	3 Installments for all schemes	Rs. 12,000/- and in multiple of Rs. 1/-

There is no maximum duration for Flex SIP/ STP enrolment.

8. **Calculation of Flex STP**

Under the Flex STP – (as per the Frequency) unit holders will be eligible to transfer fixed amount to be transferred per installment **OR** the amount as determined by the following formula whichever is **higher**:

Fixed installment amount or (number of installments including the current installment X fixed amount to be transferred per installment) - market value of the investments through Flex STP in the Transferee Scheme on the date of transfer whichever is **Higher**

In case of Flex STP, if the amount (as specified by the formula) to be transferred under STP is not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme and Flex STP will be closed.

Calculation of Flex SIP

	<p>Under the Flex SIP – (as per the Frequency) unit holders will be eligible to invest fixed amount to be invested per installment OR the amount as determined by the following formula whichever is higher:</p> <p>Fixed installment amount or (number of installments including the current installment X fixed amount to be invested per installment) - market value of the investments through Flex SIP* in the Investee Scheme whichever is Higher</p> <p>*The installment value of FLEX SIP will be determined on the basis of NAV on 10th day (T-10) before the installment date. If T-10th day falls on a Non-Business day or falls during a book closure period, then valuation will be done on T-11th day.</p> <p>In case of Flex SIP, the required amount is not available in the designated bank account and the debit instruction fails then Flex SIP will be stopped.</p> <ol style="list-style-type: none"> 9. If the NAV falls continuously throughout the Flex STP period, number of installments may be less than those mentioned on application form. 10. The first Flex SIP/STP instalment will be processed for the fixed instalment amount specified by the unit holder at the time of enrolment. From the second Flex SIP/STP instalment onwards, the investment/ transfer amount shall be computed as per formula stated above. 11. In case the date of investment/ transfer falls on a Non-Business Day or falls during a book closure period, the immediate next Business Day will be considered for the purpose of determining the applicable NAV. 12. Once the Flex SIP/ STP have been stopped the unit holder needs to provide a new request to start Flex SIP/ STP. 13. The redemption/ switch-out of units allotted in the Investee/ Transferee Scheme shall be processed on First in First out (FIFO) basis. If there are other financial transaction (purchase, redemption or switch) processed in the Investee/ Transferee scheme during the tenure of Flex SIP/ STP, the Flex SIP / STP will be processed as normal SIP / STP for the rest of the installments for a fixed amount. 14. In respect of Flex SIP / STP enrollments made in any of the existing open ended Scheme(s), the Load Structure prevalent at the time of enrollment shall be applicable to the investors during the tenure of the Flex SIP / STP. Load structure for investments through Flex SIP / STP to the Schemes eligible for this facility: <ol style="list-style-type: none"> a. Exit Load of the Transferor Scheme(s) The amount transferred under the Flex STP from the Transferor Scheme to the Transferee Scheme shall be affected by switching units of Transferor Scheme at applicable NAV, after payment of exit load, if any, and subscribing to the units of the Transferee Scheme at Applicable NAV. b. Exit Load of the Investee /Transferee Scheme(s) Applicable Exit Load, if any, in the Investee / Transferee Schemes Plan /Option as on the date of enrollment will also be levied. For Scheme load structure please refer to SID/ KIM or contact the nearest Investor Service Centre (ISC) of Axis Mutual Fund or visit our website www.axismf.com.

Transferor Scheme:	Axis Regular Saver
Transferee Scheme:	Axis Bluechip Fund - Growth Option
Date & Frequency of Flex STP:	10th date - Monthly Interval
Amount of Transfer per Installment	Rs 3,000/-
Number of Installments:	12
Enrolment Period:	January - December 2013

Calculation of Flex STP instalment amount on the date of the fourth instalment i.e. April 10, 2013

- i. Total units allotted up to the date of last installment i.e. March 10, 2013 is assumed as 822.73;
- ii. NAV of AXIS Bluechip Fund - Growth Option on April 10, 2013 is assumed as Rs. 9/- per unit;
- iii. Hence the market value of the investment in the Investee / Transferee Scheme on the date of investment/ transfer is Rs. 7,404.55[822.73X 9].

The installment amount will be calculated as follows:

- a) Fixed amount specified at the time of enrolment:

Rs.3,000/-

Or

- b) As determined by the formula:
 $(3,000 \times 4) - 7,404.55 = \text{Rs. } 4,595/-$

a) or b) Whichever is Higher.

Hence, on April 10, 2013, **the installment amount to be transferred** to the Transferee Scheme will be Rs. **4,595/-**

Enrolment Period:	January - December 2013

Calculation of Flex SIP instalment amount for the 4th instalment i.e. April 10, 2013

- i. Total units allotted up to the date of last installment i.e. March 10, 2013 is assumed as 822.73;
- ii. NAV of Axis Bluechip Fund - Growth Option on T-10th day* is assumed as Rs. 9/- per unit;
- iii. Hence the market value of the investment in the Investee Scheme on T-10th day is Rs. 7,404.55[822.73X 9].

The installment amount will be calculated as follows:

- a. Fixed amount specified at the time of enrolment:
Rs.3,000/-

Or

- b. As determined by the formula:
 $(3,000 \times 4) - 7,404.55 = \text{Rs. } 4,595/-$

a) or b) Whichever is Higher.

Hence, on April 10, 2013, the installment amount to be invested to the Investee Scheme will be Rs. 4,595/-

*The installment value of Flex SIP will be determined on the basis of NAV on 10th day (T-10) before the installment date. In the above example T-10th day will be 31st March 2013

Investors are advised to read the SID/ KIM of the Transferee Scheme(s) and Statement of Additional Information carefully before investing. The SID/ KIM of the respective Scheme(s) are available with the ISCs of Axis Mutual Fund, brokers/distributors and also displayed on the Axis Mutual Fund website i.e. www.axismf.com.

SYSTEMATIC WITHDRAWAL PLAN (SWP)

Existing Unitholders have the benefit of availing the choice of SWP on pre-specified dates. The SWP allows the Unitholder to withdraw a specified sum of money each month/ quarter from his investments in the Scheme.

The amount thus withdrawn by redemption will be converted into Units at Applicable NAV based prices and the number of Units so arrived at will be subtracted from the Units balance to the credit of that Unitholder.

Unitholders may start the facility/ change the amount of withdrawals or the period of withdrawals by giving a 15 days written intimation/notice. The SWP may be terminated by a Unitholder by giving 15 days written intimation/ notice and it will terminate automatically if all the Units are liquidated or withdrawn from the account or the holdings fall below the SWP installment amount.

There are four options available under SWP viz. Monthly option, quarterly option, Half Yearly and Yearly option. The details of which are given below:

	Monthly Option	Quarterly Option	Half Yearly Option	Yearly Option

Eligible units				
Minimum value of SWP	Rs. 1,000/-			
Additional amount in multiples of	Re.1			
Dates of SWP Installment	1/5/10/15/25*			
Minimum No of SWP	Six	Four	Four	Two

* In the event that such a day is a non-business day, the withdrawals would be affected on the next business day.

Exit Load, if any, is applicable to SWP.

The AMC reserves the right to accept SWP applications of different amounts, dates and frequency.

Unitholders can enroll themselves for the facility by submitting the duly completed Systematic Withdrawal enrolment Form at any of the Investor Service Centres (ISCs)/Official Points of Acceptance (OPAs). The AMC / Trustee reserve the right to change / modify the terms and conditions under the SWP prospectively at a future date.

SWITCHING OPTIONS

(a) Inter - Scheme Switching option

Unit holders under the Scheme have the option to Switch part or all of their Unit holdings in the Scheme to any other Scheme offered by the Mutual Fund from time to time. The Mutual Fund also provides the Investors the flexibility to Switch their investments from any other scheme(s) / plan (s) offered by the Mutual Fund to this Scheme. This option will be useful to Unit holders who wish to alter the allocation of their investment among the scheme(s) / plan(s) of the Mutual Fund in order to meet their changed investment needs.

The Switch will be effected by way of a Redemption of Units from the Scheme at Applicable NAV, subject to Exit Load, if any and reinvestment of the Redemption proceeds into another Scheme offered by the Mutual Fund at Applicable NAV and accordingly the Switch must comply with the Redemption rules of the Switch out Scheme and the Subscription rules of the Switch in Scheme.

(b) Intra -Scheme Switching plan/option

Unit holders under the Scheme have the option to Switch their Units holding from one plan/option to another plan/option (i.e. Axis Treasury Advantage Fund to Axis Treasury Advantage Fund – Direct Plan and Growth to Dividend and vice-a-versa). The Switches would be done at the Applicable NAV based prices and the difference between the NAVs of the two plans/options will be reflected in the number of Units allotted.

Switching shall be subject to the applicable “Cut off time and Applicable NAV” stated elsewhere in the Scheme Information Document. In case of “Switch” transactions from one scheme to another, the allocation shall be in line with Redemption payouts.

AUTO SWITCH FACILITY

Investors will have an auto - switch facility from Axis Treasury Advantage Fund to the other schemes of Axis Mutual Fund during the New Fund Offer period of such schemes where offered by the AMC. With this facility, the investors will be able to invest in Axis Treasury Advantage Fund with an instruction to switch the units to the other schemes on the last day of the new fund offer. However, Axis Asset Management Co. Ltd. reserves the right to extend or limit the said facility on such terms and conditions as may be decided from time to time.

For details, investors are requested to refer to the Auto switch Key Information Memorandum cum application form.

All other features / guidelines of the switch facility will be equally applicable for the above stated Auto switch facility.

Automatic Switch of Redemption proceeds on Maturity (Auto Maturity Switch) from other close ended schemes of Axis Mutual Fund

The Mutual Fund provides the investors the flexibility to switch their redemption proceeds receivable on maturity of its close ended schemes (subject to the scheme information document of the close ended schemes) to Axis Treasury Advantage Fund – Daily Dividend Option in case of application roughed through Distributor and Axis Treasury Advantage Fund – Direct Plan in case of Direct application in the initial application in the close ended schemes. Investor can choose to avail of this facility only at the time of making the application to subscribe to the units of the close ended scheme. To make the switch effective, investor needs to hold all the units till maturity of the close ended scheme. The switch shall be subject to the applicable terms and conditions of both the switch-out scheme and switch-in scheme as regards the minimum number of Units that may be redeemed or issued, Exit / Entry Load etc.

However, investor shall have an option to alter his preference from auto maturity switch to Payout Option by submitting a written request, at any time during the tenure of the close ended scheme, not later than 7 working days from the maturity of the close ended scheme.

This Auto switch facility shall be affected by way of a Redemption of Units from the close ended Scheme on its maturity and investment of the Redemption proceeds in Axis Treasury Advantage Fund on the date of maturity (or the next business day if date of maturity is a non-business day).

For details, please contact any of the ISCs of Axis Mutual Fund.

DIVIDEND SWEEP OPTION (DSO)

The terms and conditions of Dividend Sweep Option (DSO) are as follows:

- 1) Dividend Sweep Option (DSO) is a facility wherein unit holder(s) of eligible scheme(s) [hereinafter referred to as "**Source Scheme(s)**"] of Axis Mutual Fund can opt to automatically invest the dividend (as reduced by the amount of applicable statutory levy) declared by the eligible Source Scheme(s) into other eligible Scheme(s) [hereinafter referred to as "**Target Scheme(s)**"] of Axis Mutual Fund.
- 2) The following is the list of eligible Source Schemes and Target Schemes of Axis Mutual Fund for DSO facility:

Source Scheme	Target Scheme
Axis Liquid Fund	Axis Liquid Fund
Axis Treasury Advantage Fund	Axis Treasury Advantage Fund
Axis Short Term Fund	Axis Short Term Fund

Axis Banking & PSU Debt Fund	Axis Banking & PSU Debt Fund
Axis Bluechip Fund	Axis Bluechip Fund
Axis Long Term Equity Fund	Axis Long Term Equity Fund
Axis Midcap Fund	Axis Midcap Fund
Axis Focused 25 Fund	Axis Focused 25 Fund

Axis Gilt Fund	Axis Gilt Fund
Axis Children's Gift Fund	Axis Children's Gift Fund
Axis Equity Saver Fund	Axis Equity Saver Fund
Axis Credit Risk Fund	Axis Credit Risk Fund
Axis Arbitrage Fund	Axis Arbitrage Fund
Axis Multicap Fund	Axis Multicap Fund
Axis Corporate Debt Fund	Axis Corporate Debt Fund

3) DSO facility is available to unit holder(s) only under the Dividend Plan / Option of the Source Scheme(s). However, the DSO facility will not be available to unit holder(s) under the Daily Dividend Option in the Source Scheme(s). Unit holder's enrolment under the DSO facility will automatically override any previous instructions for 'Dividend Payout' or 'Dividend Reinvestment' facility in the Source Scheme.

4) The enrolment for DSO facility should be for all units under the respective Dividend Plan / Option of the Source Scheme. Instructions for part Dividend Transfer and part Dividend Payout / Reinvestment will not be accepted. The dividend amount will be invested in the Target Scheme under the same folio. Accordingly, the unit holder(s) details and mode of holding in the Target Scheme will be same as in the Source Scheme.

5) The enrolment to avail of DSO facility has to be specified for each Scheme/Plan/Option separately and not at the folio level.

6) Under DSO, dividend declared (as reduced by the amount of applicable statutory levy and deductions) in the Source scheme (subject to minimum of Rs. 1,000/-) will be automatically invested into the Target Scheme, as opted by the unit holder, on the immediate next Business Day after the Record Date at the applicable NAV of the Target Scheme, subject to applicable load as specified under paragraph 9 below and accordingly equivalent units will be allotted in the Target Scheme, subject to the terms and conditions of the respective Target Scheme.

7) The provision for '**Minimum Application Amount**' specified in the respective Target Scheme's Scheme Information Document (SID) **will not be applicable** under DSO. e.g. the minimum application amount for new investors in Axis Equity Fund - Growth Plan is 5,000/-. However in case of DSO, a Unit Holder can avail of the facility irrespective of the amount of dividend (subject to a minimum of 1,000/-).

8) The Minimum amount of dividend eligible for transfer under Dividend Sweep Option is 1,000/- (Rupees One Thousand Only). In case the dividend sweep is being less than eligible amount, then the dividend will be re-invested in source scheme/ payout as per the existing option.

9) **Load Structure:**

	<p>The dividend amount to be invested under the DSO from the Source Scheme to the Target Scheme shall be invested by subscribing to the units of the Target Scheme at applicable NAV, subject to payment of Entry/Exit Load as under:</p> <p>Entry Load (Target Scheme) Direct Applications & Applications routed through any distributor/agent/broker: Nil</p> <p>Exit Load (Source Scheme): Nil</p> <p>Exit Load (Target Scheme): As per the relevant SID(s)</p> <p>The Trustee/AMC reserves the right to change the load structure under the DSO Facility at any time in future on a prospective basis.</p> <p>10) The Account Statement will be issued by mail or by email (if opted by the unit holder) to the unit holder as per regulations. In case of specific request received from unitholders, the Mutual Fund shall endeavour to provide the account statement to the unitholders after every transaction of Dividend Transfer.</p> <p>11) Unitholders who wish to enroll for DSO facility are required to fill DSO Enrolment Form available with the ISCs, distributors/agents and also displayed on the website www.axismf.com. The DSO Enrolment Form should be completed in English in Block Letters only. The DSO Enrolment Form complete in all aspects should be submitted at any of the Investor Services centre (ISCs) of Axis Mutual Fund.</p> <p>12) The request for enrolment for DSO must be submitted at least 10 days prior to the Record Date for the dividend. In case of the condition not being met, the enrolment would be considered valid from the immediately succeeding Record Date of the dividend, provided the difference between the date of receipt of a valid application for enrolment under DSO and the next Record Date for dividend is not less than 10 days.</p> <p>13) Unitholder(s) are advised to read the SID of Target Scheme(s) carefully before investing. The SID/ KIM of the respective Scheme(s) are available with the ISCs of Axis Mutual Fund, brokers / distributors and also displayed on the Axis Mutual Fund website i.e. – www.axismf.com</p> <p>14) Unit holders will have the right to discontinue the DSO facility at any time by sending a written request to the ISC. Notice of such discontinuance should be received at least 10 days prior to the Dividend Record Date. On receipt of such request, the DSO facility will be terminated. At the time of discontinuation of DSO facility, the Unit holders should indicate their choice of option i.e. dividend reinvestment or dividend payout. In the event the Unitholder does not indicate his choice of dividend option, the dividend, if any, will be reinvested (compulsory payout if dividend reinvestment option is not available) in the Source Scheme. Once the request for DSO is registered, then it shall remain in force unless it is terminated as aforesaid.</p> <p>15) The Trustee/AMC reserves the right to change/modify the terms and conditions of the DSO.</p> <p>The Trustee reserves the right to change/ modify the terms and conditions of the DSO at a later date on a prospective basis.</p> <p>TRIGGER FACILITY: Trigger is an event on the happening of which, the Fund will automatically redeem / switch the units, as the case may be, on behalf of the investor, on the date of happening of the event. Accordingly, a trigger will</p>

Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly advise the Mutual Fund to enable the Mutual Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties. • The Unit holder may request for a physical account statement by writing/calling the AMC/ISC/Registrar. In case of specific request received from the Unit Holders, the AMC/Fund will provide the Account Statement to the Investors within 5 business days from the receipt of such request. • In case of Unit Holders holding units in the dematerialized mode, the Fund will not send the account statement to the Unit Holders. The statement provided by the Depository Participant will be equivalent to the account statement. On allotment, the AMC will send an allotment advice to the investor. • The AMC shall issue Unit certificates within 5 business days from the date of receipt of request where the applicant so desires. <p>CONSOLIDATED ACCOUNT STATEMENT (CAS)</p> <p>CAS is an account statement detailing all the transactions and holding at the end of the month including transaction charges paid to the distributor, across all schemes of all mutual funds. CAS issued to investors shall also provide the total purchase value/cost of investment in each scheme.</p> <p>Further, CAS issued for the half-year (September/ March) shall also provide</p>

- a. The amount of actual commission paid by AMC/Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each scheme.
- b. The Scheme's average Total Expense Ratio (in percentage terms) for the half-year period, of both direct plan and regular plan, for each scheme where the concerned investor has invested in.

The word transaction will include purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan and systematic transfer plan.

a) For Unitholders not holding Demat Account:

CAS for each calendar month shall be issued, on or before tenth day of succeeding month by the AMC.

The AMC shall ensure that a CAS for every half yearly (September/ March) is issued, on or before tenth day of succeeding month, detailing holding at the end of the six month, across all schemes of all mutual funds, to all such investors in whose folios no transaction has taken place during that period.

The AMC shall identify common investors across fund houses by their Permanent Account Number (PAN) for the purposes of sending CAS. In the event the account has more than one registered holder, the first named Unit Holder shall receive the Account Statement.

The AMC will send statement of accounts by e-mail where the Investor has provided the e-mail id. Additionally, the AMC may at its discretion send Account Statements individually to the investors.

b) For Unitholders holding Demat Account:

SEBI vide its circular no. CIR/MRD/DP/31/2014 dated November 12, 2014, in order to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in demat form with Depositories, has required Depositories to generate and dispatch a single CAS for investors having mutual fund investments and holding demat accounts.

In view of the aforesaid requirement, for investors who hold demat account, for transactions in the schemes of Axis Mutual Fund on or after February 1, 2015, a CAS, based on PAN of the holders, will be sent by Depositories to investors holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month.

CAS will be sent by Depositories every half yearly (September/March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and demat accounts there have been no transactions during that period.

CAS sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic

transfer plan (including transaction charges paid to the distributor) and transaction in dematerialized securities across demat accounts of the investors and holding at the end of the month.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories. Investors whose folio(s)/ demat account(s) are not updated with PAN shall not receive CAS.

Consolidation of account statement is done on the basis of PAN. Investors are therefore requested to ensure that their folio(s)/ demat account(s) are updated with PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding.

For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS is sent by e-mail. However, where an investor does not wish to receive CAS through email, option is given to the investor to receive the CAS in physical form at the address registered in the Depository system.

Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out. Investors who do not hold demat account continue to receive CAS sent by RTA/AMC, based on the PAN, covering transactions across all mutual funds as per the current practice.

In case an investor has multiple accounts across two depositories; the depository with whom the account has been opened earlier will be the default depository.

The dispatches of CAS by the depositories constitute compliance by the AMC/ the Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations. However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).

Investors whose folio(s)/demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN.

For folios not included in the CAS (due to non-availability of PAN), the AMC shall issue monthly account statement to such Unit holder(s), for any financial transaction undertaken during the month on or before 10th of succeeding month by mail or email.

For folios not eligible to receive CAS (due to non-availability of PAN), the AMC shall issue an account statement detailing holding across all schemes at the end of every six months (i.e. September/March), on or before 10th day of succeeding month, to all such Unit holders in whose folios no transaction has taken place during that period shall be sent by mail/e-mail.

II. For Unitholders holding Demat Account:

SEBI vide its circular no. CIR/MRD/DP/31/2014 dated November 12, 2014, in order to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in demat form with Depositories, has required Depositories to generate and dispatch a single consolidated account statement for investors having mutual fund investments and holding demat accounts.

In view of the aforesaid requirement, for investors who hold demat account, for transactions in the schemes of Axis Mutual Fund on or after February 1, 2015, a Consolidated Account Statement, based on PAN of the holders, is being sent by Depositories to investors holding demat account, for each calendar month within 10th day of the succeeding month to the investors in whose folios transactions have taken place during that month.

Consolidated account statement is being sent by Depositories every half yearly (September/March), on or before 10th day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and demat accounts there have been no transactions during that period.

Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan (including transaction charges paid to the distributor) and transaction in dematerialized securities across demat accounts of the investors and holding at the end of the month.

In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories. Investors whose folio(s)/ demat account(s) are not updated with PAN shall not receive CAS.

Consolidation of account statement is done on the basis of Permanent Account Number (PAN). Investors are therefore requested to ensure that their folio(s)/ demat account(s) are updated with PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding.

For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS is sent by e-mail. However, where an investor does not wish to receive CAS through email, option is given to the investor to receive the CAS in physical form at the address registered in the Depository system.

Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out. Investors who do not hold demat account continue to receive Consolidated Account Statement sent by RTA/AMC, based on the PAN, covering transactions across all mutual funds as per the current practice.

In case an investor has multiple accounts across two depositories; the depository with whom the account has been opened earlier will be the default depository.

The dispatches of CAS by the depositories constitute compliance by the AMC/ the Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations. However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).

OPTION TO HOLD UNITS IN DEMATERIALIZED (DEMAT) FORM

Investors shall have an option to receive allotment of Mutual Fund units in their demat account while subscribing to the Units of the scheme in terms of the guidelines/ procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time.

Investors desirous of having the Units of the Scheme in dematerialized form should contact the ISCs of the AMC/Registrar.

Where units are held by investor in dematerialized form, the demat statement issued by the Depository Participant would be deemed adequate compliance with the requirements in respect of dispatch of statements of account.

In case investors desire to convert their existing physical units (represented by statement of account) into dematerialized form or vice versa, the request for conversion of units held in physical form into Demat (electronic) form or vice versa should be submitted along with a Demat/Remat Request Form to their Depository Participants. In case the units are desired to be held by investor in dematerialized form, the KYC performed by Depository Participant shall be considered compliance of the applicable SEBI norms.

Further, demat option shall also be available for SIP transactions. Units will be allotted based on the applicable NAV as per Scheme Information Document and will be credited to investors Demat Account on weekly basis on realization of funds.

Units held in Demat form are freely transferable in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time. Transfer can be made only in favour of transferees who are capable of holding units and having a Demat Account. The delivery instructions for transfer of units will have to be lodged with the Depository Participant in requisite form as may be required from time to time and transfer will be affected in accordance with such rules / regulations as may be in force governing transfer of securities in dematerialized mode.

The demat option is provided to all schemes and options of Axis Mutual Fund except for all daily and weekly dividend options under all debt and liquid schemes. Demat option shall also be available for SIP transactions. Units will be allotted based on the applicable NAV as per the Scheme Information Document and will be credited to Investors Demat Account on weekly basis on realization of funds.

exchange fluctuations, while converting the rupee amount in foreign exchange in the case of transactions with NRIs / FPIs. The Fund may make other arrangements for effecting payment of redemption proceeds in future.

Effect of Redemptions

The number of Units held by the Unit Holder in his / her / its folio will stand reduced by the number of Units Redeemed. Units once redeemed will be extinguished and will not be re-issued.

The normal processing time may not be applicable in situations where requisite details are not provided by investors/Unit holders. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and/or any delay/loss in transit.

AMC reserves the right to provide the facility of redeeming Units of the Scheme through an alternative mechanism including but not limited to online transactions on the Internet, as may be decided by the AMC from time to time. The alternative mechanism may also include electronic means of communication such as redeeming Units online through the AMC Website or any other website etc. The alternative mechanisms would be applicable to only those investors who opt for the same in writing and/or subject to investor fulfilling such conditions as AMC may specify from time to time.

Signature mismatches

If the AMC / Registrar finds a signature mismatch, while processing the redemption/ switch out request, then the AMC/ Registrar reserves the right to process the redemption only on the basis of supporting documents confirming the identity of the investors. List of such documents would be notified by AMC from time to time on its website.

Important Note: All applicants for Purchase of Units /Redemption of Units must provide a bank name, bank account number, branch address, and account type in the Application Form.

Unclaimed Redemptions and Dividends

The unclaimed Redemption and dividend amounts shall be deployed by the Fund in money market instruments and such other instruments/securities as maybe permitted from time to time. The investment management fee charged by the AMC for managing such unclaimed amounts shall not exceed 50 basis points. The circular also specifies that investors who claim these amounts during a period of three years from the due date shall be paid at the prevailing NAV. Thus, after a period of three years, this amount can be transferred to a pool account and the investors can claim the said amounts at the NAV prevailing at the end of the third year. In terms of the circular, the onus is on the AMC to make a continuous effort to remind investors through letters to take their unclaimed amounts. The details of such unclaimed amounts shall be disclosed in the annual report sent to the Unit Holders.

Further, according to circular no. SEBI/HO/IMD/DF2/CIR/P/ 2016/37 dated February 25, 2016 the unclaimed Redemption and dividend amounts may

	<p>be deployed in separate plan of Liquid scheme/Money market mutual fund scheme floated by Mutual Funds specifically for deployment of the unclaimed Redemption and dividend amounts.</p>
<p>Delay in payment of Redemption / Repurchase proceeds</p>	<p>The AMC shall be liable to pay interest to the Unit holders at 15% or such other rate as may be prescribed by SEBI from time to time, in case the Redemption / Repurchase proceeds are not made within 10 Business Days of the date of Redemption / Repurchase. However, the AMC will not be liable to pay any interest or compensation or any amount otherwise, in case the AMC / Trustee is required to obtain from the Investor / Unit holders verification of identity or such other details relating to Subscription for Units under any applicable law or as may be requested by a Regulatory Agency or any government authority, which may result in delay in processing the application.</p>
<p>Facility to transact in units of the Schemes through MF Utility portal & MFUI Points of Services pursuant to appointment of MF Utilities India Pvt. D. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market Value of Scheme's Investments} + \text{Fair Value of Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option. The NAVs of the Growth Option and the Dividend Option will be different after the declaration of the first Dividend.

The AMC will calculate and disclose the NAV of the Scheme on all the Business Days.

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the Scheme.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, Registrar & Transfer Agents expenses, printing and stationary, bank charges etc.

 - (b) Investor education and awareness initiative fees of at least 2 basis points on daily net assets of the Scheme.

Any expenditure in excess of the SEBI regulatory limits shall be borne by the AMC or by the Trustee or the Sponsor.

The mutual fund would update the current expense ratios on its website (www.axismf.com) atleast three working days prior to the effective date of the change. Investors can refer 'Total Expense Ratio of Mutual Fund Schemes' section on <https://www.axismf.com/Downloads.aspx> for Total Expense Ratio (TER) details.

Illustration of impact of expense ratio on scheme's returns

For any scheme, NAV is computed on a daily basis factoring in all the assets as well as liabilities of the Scheme (including expenses charged). Expenses charged to the Scheme bring down its NAV and hence the investor's net returns on a corresponding basis.

Illustration:

Particulars	Amount (in Rs.)	No of units	NAV per unit (in Rs.)
Invested on March 31, 2016 (A)	10,000.00	1,000.00	10.00
Value of above investment as on March 31, 2017 (gross of all expenses) (B)	11,500.00	1,000.00	11.50
Total Expenses charged during the year @2% p.a. (assumed) (C)	200.00		0.20
Value of above investment as on March 31, 2017 (net of all expenses) (D) = (B-C)	11,300.00	1,000.00	11.30
Returns (%) (gross of all applicable expenses) (E) = ((B/A)-1)		15.0%	
Returns (%) (net of all applicable expenses) (F) = ((D/A)-1)		13.0%	

Please Note:

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year. The expenses of the Direct Plan under the Scheme may vary with that of the Regular Plan under the Scheme.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to redeem the Units from the Scheme. This amount is used by the AMC to pay commission to the distributors and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer to the website of the AMC (www.axismf.com) or may call at **1800 3000 3300 or 1800 221 322** from 8.00 am to 7.00 pm (Monday to Friday) and 9.00 am to 6.00 pm (on Saturday) or can contact his distributor.

SEBI vide its circular no. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
Entry Load	Not Applicable
Exit Load	Nil

Units issued on reinvestment of Dividends shall not be subject to Load.

The above mentioned load structure shall be equally applicable to the special products such as SIP, STP, SWP, etc. offered by the AMC. Further, for switches between the Growth and Dividend Option, no load will be charged by the scheme. However, for switches between the Plans i.e. between Regular and Direct Plan or vice versa, load will be charged by the scheme.

Exit load charged to the investors will be credited back to the scheme net of GST. The Investor is requested to check the prevailing Load structure of the Scheme before investing.

For any change in Load structure AMC will issue an addendum and display it on the website/ Investor Service Centres.

Under the Scheme, the AMC/ Trustee reserves the right to change / modify the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/ Trustee reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

The Redemption Price however, will not be lower than 93% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only. The difference between the Redemption price and Sale price at any point in time shall not

exceed the permitted limit as prescribed by SEBI from time to time which is presently 7% calculated on the Sale Price.

At the time of changing the Load Structure:

1. An Addendum detailing the changes will be attached to Scheme Information Document and Key Information Memorandum. The addendum may be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Document and Key Information Memorandum already in stock.
2. The addendum will be displayed on the website of the AMC and arrangements will be made to display the addendum in the form of a notice in all the Investor Service Centres and distributors / brokers office.
3. The introduction of the Exit Load/ CDSC along with the details may be stamped in the acknowledgement slip issued to the Investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such Load/CDSC.
4. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
5. Any other measure which the Mutual Fund may consider necessary.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

Transaction Charges

In terms of SEBI circular no. CIR/ IMD/ DF/ 13/ 2011 dated August 22, 2011, as amended from time to time, Transaction Charge per subscription of Rs.10,000/- and above shall be charged from the investors and shall be payable to the distributors/ brokers (who have opted in for charging the transaction charge) in respect of applications routed through distributor/ broker relating to Purchases / subscription / new inflows only (lump sum and SIP), subject to the following:

- For Existing / New investors: Rs.100 / Rs.150 as applicable per subscription of Rs. 10,000/- and above
- Transaction charge for SIP shall be applicable only if the total commitment through SIP amounts to Rs.10,000/- and above. In such cases the transaction charge would be recovered in maximum 4 successful installments.
- There shall be no transaction charge on subscription below Rs.10,000/-.
- There shall be no transaction charges on direct investments.

The requirement of minimum application amount shall not be applicable if the investment amount falls below the minimum amount required due to deduction of transaction charges from the subscription amount.

The Transaction Charge as mentioned above shall be deducted by the AMC from the subscription amount of the Unit Holder and paid to the distributor and the balance shall be invested in the Scheme. The statement of account shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment.'
