SECTION I: INTRODUCTION

A. Risk Factors:

Standard Risk Factors:

1. Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
2. As the price / value / interest rates of the securities in which the Schemes invest fluctuates, the value of your investment in the Scheme may go up or down.
3. The NAVs of the Schemes may be affected by changes in the general market conditions, factors and forces affecting capital market, in particular, level of interest rates, various markets related factors and trading volumes, settlement periods and transfer procedures.
4. Past performance of the Sponsors/AMC/Mutual Fund does not guarantee the future performance of the Schemes.
5. The name of the Scheme does not in any manner indicate either the quality of the Scheme or their future prospects and returns.
6. The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the contribution of an amount of Rs. 22.2 lacs collectively made by them towards setting up the Fund and such other accretions and additions to the corpus set up by the Sponsors.
7. The Scheme are not a guaranteed or assured return Scheme.
8. All Mutual Funds and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme(s) will be achieved.
9. As the liquidity of the Schemes' investments could at times, be restricted by trading volumes and settlement periods, the time taken by the Schemes for redemption of units may be significant or may also result in delays in redemption of the units, in the event of an inordinately large number of redemption requests or of a restructuring of the Schemes' portfolio. In view of this the Trustee has the right, at their sole discretion to limit redemptions (including suspending redemption) under certain circumstances.
10. The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.
11. Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
12. Investors in the Scheme are not being offered any guaranteed/indicated returns.
13. Mutual Funds being vehicles of securities investments are subject to market and other risk and there can be no guarantee against loss resulting from investing in the Scheme. The various factors which impact the value of the Scheme investments include but are not limited to fluctuations in the equity and bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of securities, tax laws, liquidity of the underlying instruments, settlements periods, trading volumes etc. and there is no assurance or guarantee that the objectives of the Scheme will be achieved.
14. From time to time and subject to the regulations, the sponsors, the mutual funds and investment Companies managed by them, their affiliates, their associate companies, subsidiaries of the sponsors and the AMC may invest in either directly or indirectly in the Schemes. The funds managed by these affiliates, associates and/ or the AMC may acquire a substantial portion of the Schemes. Accordingly, redemption of units held by such funds, affiliates/associates and sponsors may have an adverse impact on the units of the Schemes because the timing of such redemption may impact the ability of other unit holders to redeem their units.
15. The Scheme may invest in other Scheme managed by the AMC or in the Scheme of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations and guidelines. As per the Regulations, no investment management fees will be charged for such investments.

16. Different types of securities in which the Scheme would invest as given in the Scheme information document carry different levels and types of risk. Accordingly the Schemes' risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.
17. Investors may note that AMC/Fund Manager's investment decisions may not be always profitable as the actual market movement may be at variance with the anticipated trend. The Schemes proposes to invest substantially in equity and equity related securities. The Schemes will, to a lesser extent, also invest in debt and money market instruments. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Schemes' portfolio due to the absence of a well developed and liquid secondary market for debt securities would result, at times, in potential losses to the Schemes, in case of a subsequent decline in the value of securities held in the Schemes' portfolio.
18. Liquidity risk - In case of abnormal circumstances it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, the Schemes will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction.
19. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/unrated securities offering higher yields. This may increase the risk of the portfolio.

Scheme Specific Risk Factors:

➤ Risk associated with investments in Equities –

1. The value of the Schemes' investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Schemes may fluctuate and can go up or down.
2. Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities.
3. Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the schemes are vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by schemes. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the schemes may be adversely affected due to such factors.
4. The schemes will also be vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes.

5. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk. Within the Regulatory limits, the AMC may choose to invest in unlisted securities. This may however increase the risk of the portfolio.
6. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.
7. Fund manager endeavours to generate returns based on certain past statistical trend. The performance of the schemes may get affected if there is a change in the said trend. There can be no assurance that such historical trends will continue.
8. In case of abnormal circumstances it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However fund will aim at taking exposure only into liquid stocks where there will be minimal risk to square off the transaction. The Schemes investing in foreign securities will be exposed to settlement risk, as different countries have different settlement periods.
9. The schemes are also vulnerable to movements in the prices of securities invested by the schemes which again could have a material bearing on the overall returns from the schemes. These stocks, at times, may be relatively less liquid as compared to growth stocks.
10. Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Schemes or business prospects of the Company in any particular sector.

➤ **Risk associated with investments in Fixed Income Securities :**

- **Market Risk:** The Net Asset Value (NAV) of the Scheme(s), to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme(s) is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- **Liquidity Risk:** Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme(s) and may lead to the Scheme(s) incurring losses till the security is finally sold.
- **Credit Risk:** Investments in Debt Securities are subject to the risk of an issuer's inability to meet **interest** and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- **Price Risk:** Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or **decrease** in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which

interim cash flows can be reinvested may be lower than that originally assumed.

- Different types of fixed income securities in which the Scheme(s) would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme(s) risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- The Scheme(s) at times may receive large number of redemption requests, leading to an asset-liability mismatch and therefore, requiring the investment manager to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.
- Investment in unrated instruments may involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities"
- Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the Schemes.
- The inability of the Schemes to make intended securities purchases due to settlement problems could cause the Schemes to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the Schemes' portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in the Schemes' portfolio.

➤ **Risks associated with Investing in Foreign Securities - ADRs/GDRs/other overseas investments:**

It is AMC's belief that the investment in ADRs/GDRs/overseas securities offers new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment

opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Schemes. Since the Schemes would invest only partially in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI from time to time.

To the extent that the assets of the Schemes will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

Investors are requested to note that the costs associated with overseas investments like advisory fees (other than those expenses permissible under regulation 52 of SEBI Regulations) would not be borne by the scheme.

➤ **Risks associated with Investing in Derivatives:**

1. The Schemes may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
2. The Fund may use derivatives instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Schemes to certain risks inherent to such derivatives.
3. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
4. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Also, the market for derivative instruments is nascent in India.
5. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.
6. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:

- Lack of opportunity available in the market.

- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place
- Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged
- Exchanges could raise the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss, and might materially impact returns.

RISK FACTORS WITH RESPECT TO IMPERFECT HEDGING USING INTEREST RATE FUTURES

An Interest Rate Futures is an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange traded. These future contracts are cash settled.

1. Perfect Hedging means hedging the underlying using IRF contract of same underlying.
 2. Imperfect hedging means the underlying being hedged and the IRF contract has correlation of closing prices of more than 90%.
- In case of imperfect hedging, the portfolio can be a mix of:
- 1) Corporate Bonds and Government securities or
 - 2) Only Corporate debt securities or
 - 3) Only government securities with different maturities

Risk associated with imperfect hedging includes:

Basis Risk: The risk arises when the price movements in derivative instrument used to hedge the underlying assets does not match the price movements of the underlying assets being hedged. Such difference may potentially amplify the gains or losses, thus adding risk to the position.

Price Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Risk of mismatch between the instruments: The risk arises if there is a mismatch between the prices movements in derivative instrument used to hedge, compared to the price movement of the underlying assets being hedged. For example when IRF which has government security as underlying is used, to hedge a portfolio that contains corporate debt securities.

Correlation weakening and consequent risk of regulatory breach: SEBI Regulation mandates minimum correlation criterion of 0.9 (calculated on a 90 day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 working days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value.

➤ **Risks associated with investing in Securitised Debt**

A securitization transaction involves sale of receivables by the originator (a bank, non-banking finance company, housing finance company, microfinance companies or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by selling

his loan receivables to an SPV, receives consideration from investors much before the maturity of the underlying loans. Investors are paid from the collections of the underlying loans from borrowers. Typically, the transaction is provided with a limited amount of credit enhancement (as stipulated by the rating agency for a target rating), which provides protection to investors against defaults by the underlying borrowers. Generally available asset classes for securitization in India are:

- Commercial vehicles
- Auto and two wheeler pools
- Mortgage pools (residential housing loans)
- Personal loan, credit card and other retail loans
- Corporate loans/receivables
- Microfinance receivables

In pursuance to SEBI communication dated: August 25, 2010, given below are the requisite details relating to investments in Securitised debt.

- Risk profile of securitized debt vis-à-vis risk appetite of the scheme:

The Scheme aims to provide reasonable returns to investors with a long-term investment horizon. Securitised debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity which would match with the long-term investment horizon of these investors. Investment in these instruments will help the fund in aiming at reasonable returns. These returns come with a certain degree of risks which are covered separately in the Scheme Information Document. Accordingly, the medium risk profile of the securitised debt instruments matches that of the prospective investors of these funds.

- Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc.
- Risk mitigation strategies for investments with each kind of originator

For a complete understanding of the policy relating to selection of originators, we have first analysed below risks attached to a securitization transaction.

In terms of specific risks attached to securitization, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher, which helps in making their overall risks comparable to other AAA/AA rated asset classes.

The Scheme may invest in securitized debt assets. These assets would be in the nature of Asset Backed securities (ABS) and Mortgage Backed securities (MBS) with underlying pool of assets and receivables like housing loans, auto loans and single corporate loan originators. The Scheme intends to invest in securitized instruments rated AAA/AA by a SEBI recognized credit rating agency.

Before entering into any securitization transaction, the risk is assessed based on the information generated from the following sources:

- (1) Rating provided by the rating agency
- (2) Assessment by the AMC

(1) Assessment by a Rating Agency

In its endeavor to assess the fundamental uncertainties in any securitization transaction, a credit rating agency normally takes into consideration following factors:

Credit Risk:

Credit risk forms a vital element in the analysis of securitization transaction. Adequate credit enhancements to cover defaults, even under stress scenarios, mitigate this risk. This is done by evaluating following risks:

- Asset risk
- Originator risk
- Portfolio risk
- Pool risks

The quality of the pool is a crucial element in assessing credit risk. In the Indian context, generally, pools are 'cherry-picked' using positive selection criteria. To protect the investor from adverse selection of pool contracts, the rating agencies normally take into consideration pool characteristics such as pool seasoning (seasoning represents the number of installments paid by borrower till date: higher seasoning represents better quality), over dues at the time of selection and Loan to Value (LTV). To assess its risk profile vis-à-vis the overall portfolio, the pool is analyzed with regard to geographical location, borrower profile, LTV, and tenure.

Counterparty Risk:

There are several counterparties in a securitization transaction, and their performance is crucial. Unlike in the case of credit risks, where the risks emanate from a diversified pool of retail assets, counterparty risks result in either performance or non-performance. The rating agencies generally mitigate such risks through the usage of stringent counterparty selection and replacement criteria to reduce the risk of failure. The risks assessed under this category include:

- Servicer risk
- Commingling risk
- Miscellaneous other counterparty risks

Legal Risks:

The rating agency normally conducts a detailed study of the legal documents to ensure that the investors' interest is not compromised and relevant protection and safeguards are built into the transaction.

Market Risks:

Market risks represent risks not directly related to the transaction, but other market related factors, stated below, which could have an impact on transaction performance, or the value of the investments to the investors.

- Macro-economic risks
- Prepayment risks
- Interest rate risks

Other Risks associated with investment in securitized debt and mitigation measures

Limited Liquidity and Price Risk:

There is no assurance that a deep secondary market will develop for the Certificates. This could limit the ability of the investor to resell them.

Risk Mitigation: Securitized debt instruments are relatively illiquid in the secondary market and hence they are generally held to maturity. The liquidity risk and HTM nature is taken into consideration at the time of analyzing the appropriateness of the securitization.

Limited Recourse, Delinquency and Credit Risk:

The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts to the Certificate Holders may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Servicer may repossess and sell the Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realise the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risk Mitigation: In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained to ensure that they all qualify for similar rating.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments Full prepayment of underlying loan contract may arise under any of the following circumstances;

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same
- In the event of prepayments, investors may be exposed to changes in tenor and yield.

Risk Mitigation: A certain amount of prepayments is assumed in the calculations at the time of purchase based on historical trends and estimates. Further a stress case estimate is calculated and additional margins are built in.

Bankruptcy of the Originator or Seller:

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Risk Mitigation: Normally, specific care is taken in structuring the securitization transaction so as to minimize the risk of the sale to the trust not being construed as a 'true sale'. It is also in the interest of the originator to demonstrate the transaction as a true sell to get the necessary revenue recognition and tax benefits.

Bankruptcy of the Investor's Agent:

If Investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion is normally obtained to the effect that the Investors Agent's recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Risk Mitigation: All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent.

Credit Rating of the Transaction / Certificate:

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling:

With respect to the Certificates, the Servicer will deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of originator. If originator in its capacity as Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss.

(2) Assessment by the AMC

Mapping of structures based on underlying assets and perceived risk profile

The scheme will invest in securitized debt originated by Banks, NBFCs and other issuers of investment grade credit quality and established track record. The AMC will evaluate following factors, while investing in securitized debt:

Originator:

Acceptance Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Track record:

The AMC ensures that there is adequate past track record of the Originator before selection of the pool including a detailed look at the number of issuances in past, track record of issuances, experience of issuance team, etc.

Willingness to pay:

As the securitized structure has underlying collateral structure, depending on the asset class, historical NPA trend and other pool / loan characteristics, a credit enhancement in the form of cash collateral, such as fixed deposit, bank, guarantee etc. is obtained, as a risk mitigation measure.

Ability to pay:

This assessment is based on a strategic framework for credit analysis, which entails a detailed financial risk assessment.

Management analysis is used for identifying company specific financial risks. One of the most important factors for assessment is the quality of management based on its past track record and feedback from market participants. In order to assess financial risk a broad assessment of the issuer's financial statements is undertaken to review its ability to undergo stress on cash flows and asset quality. Business risk assessment, wherein following factors are considered:

- Outlook for the economy (domestic and global)
- Outlook for the industry
- Company specific factors

In addition a detailed review and assessment of rating rationale is done including interactions with the company as well as agency

Critical Evaluation Parameters (For Pool Loan and Single Loan Securitization Transactions)

Typically the AMC would avoid investing in securitization transaction (without specific risk mitigant strategies / additional cash/security collaterals/ guarantees) if there are concerns on the following issues regarding the originator / underlying issuer:

- High default track record/ frequent alteration of redemption conditions / covenants
- High leverage ratios – both on a standalone basis as well on a consolidated level/ group level
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be
- Poor reputation in market
- Insufficient track record of servicing of the pool or the loan, as the case may be.

Advantages of Investments in Single Loan Securitized Debt

- **Wider Coverage:** A Single Loan Securitized Debt market offers a more diverse range of issues / exposures as the Banks / NBFCs lend to larger base of borrowers.
- **Credit Assessment:** Better credit assessment of the underlying exposure as the Banks / NBFCs ideally co-invest in the same structure or take some other exposure on the same borrower in some other form.
- **Better Structuring :** Single Loan Securitized Debt investments facilitates better structuring than investments in plain vanilla debt instruments as it is governed by Securitization guidelines issued by RBI.
- **Better Legal documentation:** Single Loan Securitized Debt structures involve better legal documentation than Non-Convertible Debenture (NCD) investments.
- **End use of funds:** Securitized debt has better standards of disclosures as well as limitation on end use of funds as compared to NCD investments wherein the end use is general corporate purpose.
- **Yield enhancer:** Single Loan Securitized Debt investments give higher returns as compared to NCD investments in same corporate exposure.
- **Regulator supervision:** Macro level supervision from RBI in Securitization Investments as compared to NCD investments.
- **Tighter covenants:** Single Loan Securitized Debt structures involve tighter financial covenants than NCD investments.

Disadvantages of Investments in Single Loan Securitized Debt

- **Liquidity risk:** Investments in Single Loan Securitized Debts have relatively less liquidity as compared to investments in NCDs.

- **Co-mingling risk:** Servicers in a securitization transaction normally deposit all payments received from the obligors into a collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account. In this interim period, collections from the loan agreements by the servicer may not be segregated from other funds of the servicer. If the servicer fails to remit such funds due to investors, investors in the Scheme may be exposed to a potential loss.

Table below illustrates the framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/Type of Pool	Mortgage Loan	Commercial Vehicle and Construction Equipment	CAR	2 wheelers	Micro Finance Pools	Personal Loans
Approximate Average maturity (in Months)	36-120 months	12- 60 months	12-60 months	15-48 months	15-80 weeks	5 months - 3 years
Collateral margin (including cash ,guarantees, excess interest spread , subordinate tranche)	3-10%	4-12%	4-13%	4-15%	5-15%	5-15%
Average Loan to Value Ratio	75%-95%	80%-98%	75%-95%	70%-95%	Unsecured	Unsecured
Average seasoning of the Pool	3-5 months	3-6 months	3-6 months	3-5 months	2-7 weeks	1-5 months
Maximum single exposure range	4-5%	3-4%	NA (Retail Pool)	NA (Retail Pool)	NA (Very Small Retail loan)	NA (Retail Pool)
Average single exposure range %	0.5%-3%	0.5%-3%	<1% of the Fund size	<1% of the Fund size	<1% of the Fund size	<1% of the Fund size

Notes:

1. Retail pools are the loan pools relating to Car, 2 wheeler, micro finance and personal loans, wherein the average loan size is relatively small and spread over large number of borrowers.
2. Information illustrated in the Tables above, is based on the current scenario relating to Securitized Debt market and is subject to change depending upon the change in the related factors.
3. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments
4. Majority of our securitized debt investments shall be in asset backed pools wherein we'll have underlying assets as Medium and Heavy Commercial Vehicles, Light Commercial Vehicles (LCV), Cars, and Construction Equipment etc. Where we invest in Single Loan Securitization, as the credit is on the underlying issuer, we focus on the credit review of the borrower. A credit analyst sets up limit for various issuers based on independent research taking into account their historical track record, prevailing rating and current financials.

In addition to the framework as per the table above, we also take into account following factors, which are analyzed to ensure diversification of risk and measures identified for less diversified investments:

- **Size of the Loan:**

We generally analyze the size of each loan on a sample basis and analyze a static pool of the originator to ensure the same matches the Static pool characteristics. Also indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.1,00,00,000/- it may be easier to construct a pool with just 10 housing loans of Rs.10,00,000 each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.5,00,000/- per individual. Also to amplify this illustration further, if one were to construct a pool of Rs.1,00,00,000/- consisting of personal loans of Rs.1,00,000/- each, the larger number of contracts (100 as against one of 10 housing loans of Rs.10 lakh each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.

- **Average Original Maturity of the Pool:**

Indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60-month contracts, the original maturity and the residual maturity of the pool viz. number of remaining installments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the installments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 installments.

- **Default Rate Distribution:**

We generally ensure that all the contracts in the pools are current to ensure zero default rate distribution. Indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here being, as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.

- **Geographical Distribution:**

Regional/state/ branch distribution is preferred to avoid concentration of assets in a particular region/state/branch.

- **Loan to Value Ratio:**

Indicates how much % value of the asset is financed by borrower's own equity. The lower LTV, the better it is. This Ratio stems from the principle that where the borrowers own contribution of the asset cost is high, the chances of default are lower. To illustrate for a Truck costing Rs.20 lakhs, if the borrower has himself contributed Rs.10 lakh and has taken only Rs.10 lakh as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs.20 lakhs if he defaults in repaying an installment. This is as against a borrower who may meet only Rs.2 lakh out of his own equity for a truck costing Rs.20 lakh. Between the two scenarios given above, the latter would have higher risk of default than the former.

- **Average seasoning of the pool:**

Indicates whether borrowers have already displayed repayment discipline. To illustrate, in the case of a personal loan, if a pool of assets consist of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than one where only 10% of installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.

- **Risk Tranching:**

Typically, we would avoid investing in mezzanine debt or equity of Securitized debt in the form of sub ordinate tranche, without specific risk mitigant strategies / additional cash / security collaterals/ guarantees, etc.

➤ **Risks associated with Short Selling and Securities Lending & Borrowing (SLB)**

The Scheme will not engage in Short Selling activity.

Securities lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The risks in security lending consist of the failure of intermediary / counterparty, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the intermediary / counterparty. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The scheme may not be able to sell lent out securities, which can lead to temporary illiquidity & loss of opportunity.

Investors are requested to refer to section "How will the Scheme allocate its assets?" for maximum permissible exposure to Securities Lending & Borrowing.

The AMC shall report to the Trustee on a quarterly basis as to the level of lending in terms of value, volume and the names of the intermediaries and the earnings/losses arising out of the transactions, the value of collateral security offered etc. The Trustees shall offer their comments on the above aspect in the report filed with SEBI under sub-regulation 23(a) of Regulation 18.

The Scheme will not engage in Short Selling activity.

➤ **Risk associated with Investing in money market instruments:**

- a. Interest Rate risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise.
- b. Credit risk: This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest.
- c. Liquidity risk: The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio.

➤ **Risks associated with investing in Tri Party Repo through CCIL (TREPS):**

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his

settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

➤ **Risks associated with Repo Transactions in Corporate Debt Securities**

Lending transactions:

The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However in repo lending transactions, the collateral may be sold and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

Borrowing transactions:

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

➤ **Risk Factors associated with a Sectoral Fund**

Investing in a sectoral/thematic fund is based on the premise that the Fund will seek to invest in companies belonging to a specific sector/theme. This will limit the capability of the Fund to invest in other sectors/theme.

These funds would invest in equity and equity related securities of companies engaged in the particular sector/theme and hence concentration risk is expected to be high.

Also, as with all equity investing, there is the risk that companies in that specific sector/theme will not achieve its expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Thus, investing in a sector/theme specific fund could involve potentially greater volatility and risk.

RISK MANAGEMENT STRATEGIES

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity and debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in equity and debt securities and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risks associated with Equity investments	
<p>Concentration Risk Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.</p>	<p>The Schemes will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.</p>
<p>Market Risk The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme</p>	<p>Market risk is a risk which is inherent to an equity scheme. The Schemes may use derivatives to limit this risk.</p>
<p>Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.</p>	<p>The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.</p>
<p>Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.</p>	<p>As such the liquidity of stocks that the fund invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time and not affected by illiquidity of the underlying stocks.</p>
<p>Currency Risk The Scheme will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.</p>	<p>The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call</p>

	<p>options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.</p> <p>All currency derivatives trade, if any will be done only through the stock exchange platform.</p>
--	--

<u>Risks associated with Debt investment</u>	
<p><u>Market Risk/ Interest Rate Risk</u> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>The schemes will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the scheme will increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.</p>
<p><u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).</p>	<p>The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.</p> <p>Liquidity risk is today characteristic of the Indian fixed income market. The Schemes will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.</p>
<p><u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).</p>	<p>Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.</p> <p>In case of securitized debt instruments, the Schemes will ensure that these instruments are sufficiently backed by assets.</p>
<p><u>Reinvestment Risk</u> This risk refers to the interest rate levels at which cash flows received from the</p>	<p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small</p>

<p>securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>portion of the portfolio value.</p>
<p>Currency Risk The Scheme will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.</p>	<p>The scheme subject to applicable regulations, shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Scheme may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.</p> <p>All currency derivatives trade, if any will be done only through the stock exchange platform.</p>
<p>Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.</p>	<p>The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.</p>

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(C) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS, IF ANY

SECTION –II - INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An open ended equity scheme investing in Banking & Financial Services sector

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

To generate long-term capital appreciation to unit holders from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in banking and financial services.

However there can be no assurance or guarantee that the investment objective of the scheme would be achieved.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Type of Security	Indicative allocation (% of total assets)		Risk Profile
	Maximum	Minimum	
ICICI Prudential Banking & Financial Services Fund			
Equity & Equity related securities of companies engaged in Banking and Financial Services Sector	100	80	High
Equity & equity related securities of companies other than those engaged in the Banking and Financial Services Sector	20	0	Medium to High
Debt & Money market instruments	20	0	Low to Medium

The Scheme may also take exposure to:

- Derivatives instruments up to 100% of the Net Assets.
- ADR/GDR/Foreign securities/Overseas ETFs up to 50% of the Net Assets. Investments in ADR/GDR and foreign securities would be as per SEBI Circular dated September 26, 2007 as may be amended from time to time.
- Securitised Debt up to 50% of the Net Assets or maximum permissible limit for debt portfolio, whichever is lower.
- Stock lending up to 30% of its net assets.

In the event of variance from the asset allocation, the fund manager will carry out portfolio rebalancing within 30 Days. Further, in case the portfolio is not rebalanced within the period of 30 days, justification for the same shall be placed before the investment committee and reasons for the same shall be recorded in writing. The investment committee shall then decide on the course of action.

- The Cumulative Gross Exposure to Equity, Debt and Derivatives Positions will not exceed 100% of the Net Assets of the Schemes.
- It may be noted that no prior intimation/indication would be given to investors when the composition/asset allocation pattern under the scheme undergo changes within the permitted band as indicated above or for changes due to defensive positioning of the portfolio with a view to protect the interest of the unit holders on a temporary basis. The investors/unit holders can ascertain details of asset allocation of the scheme as on the last date of each month on AMC's website at www.icicipruamc.com that will display the asset

allocation of the scheme as on the given day.

- Considering the inherent characteristics of the Scheme, equity positions would have to built-up gradually and also sold off gradually. This would necessarily entail having large cash position before the portfolio is fully invested and during periods when equity positions are being sold off to book profits/losses or to meet redemption needs.
- Investors may note that securities, which endeavor to provide higher returns typically, display higher volatility. Accordingly, the investment portfolio of the Scheme would reflect moderate to high volatility in its equity and equity related investments and low to moderate volatility in its debt and money market investments.

Change in Investment Pattern

Subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially, depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and defensive considerations.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document.

D. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosure as made under the section "How the Scheme will allocate its assets":

The corpus of the Scheme will be invested in equity shares and in equity related securities as well as in debt and money market instruments. Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

- a) Equity and equity related securities including convertible bonds and debentures and warrants carrying the right to obtain equity shares.
- b) Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
- c) Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills)
- d) Debt securities issued by domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee
- e) Corporate debt securities (of both public and private sector undertakings)
- f) Obligations or Securities issued by banks (both public and private sector) including term deposits as permitted by SEBI / RBI from time to time and development financial institutions
- g) Money market instruments as permitted by SEBI/RBI
- h) Securitised Debt
- i) The non-convertible part of convertible securities
- j) Any other domestic fixed income securities
- k) Derivative instruments like Interest Rate Swaps, Forward Rate Agreements, Stock/ Index Futures and such other derivative instruments permitted by SEBI from time to time.
- l) ADRs / GDRs / Foreign Securities as permitted by Reserve Bank of India and Securities and Exchange Board of India
- m) Repo transactions in Corporate Debt Securities

- n) Any other security as may be permitted by SEBI.

The portion of the Scheme's portfolio invested in each type of security may vary in accordance with economic conditions, interest rates, liquidity and other relevant considerations, including the risks associated with each investment. The Scheme will, in order to reduce the risks associated with any one security, utilize a variety of investments.

Subject to the Regulations, the securities mentioned in "Where will the Scheme invest" above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of varying maturity. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals.

The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per the guidelines and regulations applicable to such transactions. Further the Scheme intends to participate in securities lending as permitted under the Regulations. Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.

DERIVATIVE

i) Trading in Derivatives

The Scheme may use derivatives instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose that may be permitted by SEBI Mutual Fund regulations from time to time.

The following information provides a basic idea as to the nature of the derivative instruments proposed to be used by the Scheme and the risks attached there with.

Advantages of Derivatives:

The volatility in Indian markets both in debt and equity has increased over last few months. Derivatives provide unique flexibility to the Scheme to hedge part of its portfolio. Some of the advantages of specific derivatives are as under:

ii) Derivatives Strategy **Equity Derivative**

The Scheme intends to use derivatives for purposes that may be permitted by SEBI Mutual Fund Regulations from time to time. Derivatives instruments may take the form of Futures, Options, Swaps or any other instrument, as may be permitted from time to time. SEBI has vide its Circular DNP/Cir-29/2005 dated September 14, 2005 and DNP/Cir-29/2005 dated January 20, 2006 and CIR/IMD/DF/11/2010 dated August 18, 2010 specified the guidelines pertaining to trading by Mutual Fund in Exchange traded derivatives. All Derivative positions taken in the portfolio would be guided by the following limits:

- Position limit for the Fund in index options contracts
 - The Fund position limit in all index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher per Stock Exchange.
 - This limit would be applicable on open positions in all options contracts on a particular underlying index.
- Position limit for the Fund in index futures contract
 - The Fund position limit in all index futures contracts on a particular underlying index shall

be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.

- This limit would be applicable on open positions in all futures contracts on a particular underlying index.

- **Additional position limit for hedging**

In addition to the position limits at point (i) and (ii) above, Fund may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Fund's holding of stocks.
- Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.

- **Position limit for the Fund for stock based derivative contracts**

The Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, :-

- The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).
- The MWPL and client level position limits however would remain the same as prescribed

- **Position limit for the Scheme**

The position limits for the Scheme and disclosure requirements are as follow. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a Fund shall not exceed the higher of:

1% of the free float market capitalisation (in terms of number of shares).

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index."

i) Index Futures:

Benefits

a) Investment in Stock/ Index Futures can give exposure to the index without directly buying the individual stocks. Appreciation in Index stocks can be effectively captured through investment in Stock /Index Futures.

b) The Fund can sell futures to hedge against market movements effectively without actually selling the stocks it holds.

The Stock /Index futures are instruments designed to give exposure to the equity market indices. BSE Limited and National Stock Exchange of India Limited have started trading in index futures of 1, 2 and 3-month maturities. The pricing of an index future is the function of the underlying index and interest rates.

Illustration

Spot Index: 1070

1 month Nifty Future Price on day 1: 1075

Fund buys 100 lots

Each lot has a nominal value equivalent to 200 units of the underlying index

Let us say that on the date of settlement, the future price = Closing spot price = 1085

Profits for the Fund = $(1085-1075) * 100 \text{ lots} * 200 = \text{Rs } 200,000$

Please note that the above example is given for illustration purposes only.

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, it is clear from the example that the profit or loss for the Fund will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the future at the time of purchase.

Basic Structure of a Stock & Index Future

The Stock/ Index futures are instruments designed to give exposure to the equity markets indices.

BSE Limited (BSE) and National Stock Exchange of India Limited (NSE) provide futures in select stocks and indices with maturities of 1, 2 and 3 months. The pricing of a stock/index future is the function of the underlying stock/index and short term interest rates.

Example using hypothetical figure

1 month NIFTY 50 Index Future

Say, Fund buys 1,000 futures contracts; each contract value is 50 times futures index price

Purchase Date: April 01, 2019

Spot Index: 6036.25

Future Price: 6081.90

Say, Date of Expiry: April 24, 2019

Say, Margin: 20%

Assuming the exchange imposes total margin of 20%, the Investment Manager will be required to provide total margin of approx. Rs. 6.08 Cr (i.e. $20\% * 6081.90 * 1000 * 50$) through eligible securities and cash.

Date of Expiry

Assuming on the date of expiry, i.e. April 24, 2019, Nifty 50 Index closes at 6100, the net impact will be a profit of Rs 9,05,000 for the fund i.e. $(6100-6081.90)*1000*50$

Futures price = Closing spot price = 6100.00

Profits for the Fund = $(6100-6081.90)*1000*50 = \text{Rs. } 9,05,000$

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity.

The net impact for the Fund will be in terms of the difference of the closing price of the index and cost price. Thus, it is clear from the example that the profit or loss for the Fund will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures.

ii) Buying Options:

Benefits of buying a call option:

Buying a call option on a stock or index gives the owner the right, but not the obligation, to

buy the underlying stock / index at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

Illustration

For example, if the fund buys a one month call option on ABC Limited at a strike of Rs. 150, the current market price being say Rs.151. The fund will have to pay a premium of say Rs. 15 to buy this call. If the stock price goes below Rs. 150 during the tenure of the call, the fund avoids the loss it would have incurred had it straightaway bought the stock instead of the call option. The fund gives up the premium of Rs. 15 that has to be paid in order to protect the fund from this probable downside. If the stock goes above Rs. 150, it can exercise its right and own ABC Limited at a cost price of Rs. 150, thereby participating in the upside of the stock.

Benefits of buying a put option

Buying a put option on a stock originally held by the buyer gives him/her the right, but not the obligation, to sell the underlying stock at the designated strike price. Here the downside risks are limited to the premium paid to purchase the option.

Illustration

For example, if the fund owns ABC Limited and also buys a three month put option on ABC Limited at a strike of Rs. 150, the current market price being say Rs.151. The fund will have to pay a premium of say Rs. 12 to buy this put. If the stock price goes below Rs. 150 during the tenure of the put, the fund can still exercise the put and sell the stock at Rs. 150, avoiding therefore any downside on the stock below Rs. 150. The fund gives up the fixed premium of Rs. 12 that has to be paid in order to protect the fund from this probable downside. If the stock goes above Rs. 150, say to Rs. 170, it will not exercise its option. The fund will participate in the upside of the stock, since it can now sell the stock at the prevailing market price of Rs. 170.

Basic Structure of an Equity Option

An option gives a buyer the right but does not cast the obligation to buy or sell the underlying. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium) and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

In India, National Stock Exchange (NSE) became the first exchange to launch trading in options on individual securities. Trading in options on individual securities commenced from July 2, 2001. All stock/index Option contracts are European style (w.e.f. January 2011) and cash settled as stipulated by the Securities and Exchange Board of India (SEBI).

Example using hypothetical figures on Index Options:

Market type: N

Instrument Type: OPTIDX

Underlying: Nifty

Purchase date: April 01, 2019

Expiry date: April 24, 2019

Option Type: Put Option (Purchased)

Strike Price: Rs. 6,000.00

Spot Price: Rs. 6036.00

Premium: Rs. 84.00

Lot Size: 50

No. of Contracts: 100

Say, the Fund purchases on April 01, 2019, 1 month Put Options on Nifty on the NSE i.e. put

options on 5000 shares (100 contracts of 50 shares each) of Nifty.
Date of Exercise

As these are European style options, they can be exercised only on the exercise date i.e. April 24, 2019. If the share price of Nifty falls to Rs.5,500 on expiry day, the net impact will be as follows:

Premium expense = Rs.84*100* 50 Rs. 4,20,000

Option Exercised at = Rs. 5,500

Profits for the Fund = (6000.00–5,500.00) * 100*50 = Rs. 25,00,000

Net Profit = Rs. 25,00,000 – Rs. 4,20,000 = Rs. 20,80,000

In the above example, the Investment Manager hedged the market risk on 5000 shares of Nifty Index by purchasing Put Options.

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. Certain factors like margins have been ignored. The purchase of Put Options does not increase the market risk in the fund as the risk is already in the fund's portfolio on account of the underlying asset position. The premium paid for the option is treated as an expense. Additional risks could be on account of illiquidity and potential mis-pricing of the options.

iii) Interest Rate Swaps and Forward rate Agreements

Benefits

Bond markets in India are not very liquid. Investors run the risk of illiquidity in such markets. Investing for short-term periods for liquidity purposes has its own risks. Investors can benefit if the Fund remains in call market for the liquidity and at the same time take advantage of fixed rate by entering into a swap. It adds certainty to the returns without sacrificing liquidity.

Benchmark : NSE MIBOR

Deal Tenor : 3 months (say 91 days)

Documentation : International Securities Dealers Association (ISDA).

Let us assume the fixed rate decided was 10%.

At the end of three months, the following exchange will take place:

Counter party 1 pays : compounded call rate for three months, say 9.90%

Counter party 2 pays fixed rate: 10%

In practice, however, the difference of the two amounts is settled. Counter party 2 will pay:

Rs 5 Crores *0.10%* 91/365 = Rs. 12,465.75

Thus the trade off for the Fund will be the difference in call rate and the fixed rate payment and this can vary with the call rates in the market. Please note that the above example is given for illustration purposes only and the actual returns may vary depending on the terms of swap and market conditions.

iv) Interest rate futures (IRF):

IRF means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract.

Hedging using interest rate futures could be perfect or imperfect, subject to applicable regulations.

Currently, exchange traded Interest Rate Futures traded on exchange are standardized contracts based on 10-Year Government of India Security and 91 day Treasury bill. IRF contracts are cash settled.

IRFs give an opportunity in the fixed income market to hedge interest rate risk or rebalance the portfolio by using them. By locking into a price, the IRF contract can help to eliminate the interest rate risk. Thus, in order to protect against a fall in the value of the portfolio due to falling bond prices, one can take short position in IRF contracts.

Example:

Date: April 01, 2019

Spot price of the Government Security: Rs.108.83

Price of IRF– April contract: Rs. 108.90

On April 01, 2019, Fund buys 1000 units of the Government security from the spot market at Rs. 108.83. Subsequently, it is anticipated that the interest rate will rise in the near future. Therefore to hedge the exposure in underlying Government security, Fund sells April 2019 Interest Rate Futures contracts at Rs. 108.90.

On April 15, 2019 due to increase in interest rate:

Spot price of the Government Security: Rs. 107.24

Futures Price of IRF Contract: Rs.107.30

Loss in underlying market will be $(107.24 - 108.83) * 1000 = (\text{Rs. } 1,590)$

Profit in the Futures market will be $(107.30 - 108.90) * 1000 = \text{Rs. } 1,600$

Illustration for Imperfect Hedging

Scenario 1 and 2

Assumption: Portfolio whose duration is 3 years, is being hedged with an IRF whose underlying securities duration is 10 years

Portfolio Duration: 3 year

Market Value of Portfolio: Rs 100 cr
Imperfect Hedging cannot exceed 20% of Portfolio

Maximum extent of short position that may be taken in IRFs is as per below mentioned formula:

Portfolio (security) Modified Duration * Market Value of Portfolio (security) / (Futures Modified Duration * Futures Price/PAR)

Consider that we choose to hedge 20% of portfolio
 $(3 * (0.2 * 100)) / (10 * 100/100) = \text{Rs } 6 \text{ cr}$

So we must Sell Rs 6 cr of IRF with underlying duration of 10 years to hedge Rs 20 cr of Portfolio with duration of 3 years.

Scenario 1

If the yield curve moves in a way that the 3 year moves up by 10 bps and the 10 year moves up by 5bps, which means that the short end has moved up more than the long end

Amount of Security in Portfolio (LONG): Rs 20cr

If yields move up buy 10 bps then the price of the security with a modified duration of 3 years will move down by;

Formula: (Yield movement * Duration) * Portfolio Value
 $((0.001 * 3) * 20,00,00,000) = - 6,00,000$

Underlying IRF (SHORT): Rs 6crs

If yields move up buy 5bps then the price of the security with a duration of 10 years will move down by;

Formula: (Yield movement * Duration) * Portfolio Value
 $(-0.0005 * 10) * 6,00,00,000 = 3,00,000$

Since we have sold the IRF, this movement is positive and hence the total loss will be reduced to:

$-6,00,000 + 3,00,000 = -3,00,000$

Due to IRF, the overall impact on the portfolio due to interest rate movement has been reduced.

Scenario 2

If the yield curve moves in a way that the 3 year does not move and the 10 year moves down by 5 bps, which means that the yield curve has flattened.

If yield does not move then the price of the security with a duration of 3 years will remain flat:

Formula: (Yield movement * Duration) * Portfolio Value
 $(0 * 3) * 20,00,00,000 = 0$

Underlying IRF (SHORT): Rs 6cr

If yields moves down by 5bps then the price of the security with a duration of 10 years will move up by;

$(0.0005 * 10) * 6,00,00,000 = -3,00,000$

In this scenario, the imperfect hedge created on the portfolio would create a loss on the total position.

The fund will use derivatives instruments for the purpose hedging or portfolio rebalancing or for any other stock and / or index derivative strategies as allowed under the SEBI regulations.

Example of Hedging using Index Futures

The scheme holds stock at current market price of Rs. 100. To hedge the exposure, the scheme will sell index futures for Rs. 100.

The stock will make a gain or a loss subject to its relative out-performance or underperformance of the markets.

Stock A falls by 10% and market index also falls by 10%.

Profit/(Loss) on stock A will be = (Rs. 10)

Profit/(Loss) on Short Nifty futures = Rs. 10

Net Profit/(loss) = Nil

Therefore, hedging allows the scheme to protect against market falls.

Please note that the above examples are only for illustration purposes.

Various Derivatives Strategies:

If and where Derivative strategies are used under the scheme the Fund Manager will employ a combination of the following strategies:

1. Index Arbitrage:

As the Nifty 50 Index derives its value from fifty underlying stocks, the underlying stocks can be used to create a synthetic index matching the Nifty Index levels. Also, theoretically, the fair value of a stock/ index futures is equal to the spot price plus the cost of carry i.e. the interest rate prevailing for an equivalent credit risk, in this case is the Clearing Corporation of the NSE.

Theoretically, therefore, the pricing of Nifty Index futures should be equal to the pricing of the synthetic index created by futures on the underlying stocks. However, due to market imperfections, the index futures may not exactly correspond to the synthetic index futures.

The Nifty Index futures normally trades at a discount to the synthetic Index due to large volumes of stock hedging being done using the Nifty Index futures giving rise to arbitrage opportunities.

The fund manager shall aim to capture such arbitrage opportunities by taking long positions in the Nifty Index futures and short positions in the synthetic index. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of-capital.

Objective of the Strategy

The objective of the strategy is to lock-in the arbitrage gains.

Risks Associated with this Strategy

- Lack of opportunity available in the market
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices:
- **Execution Risk:** The prices which are seen on the screen need not be the same at which execution will take place.

2. Cash Futures Arbitrage: (Only one way as funds are not allowed to short in the cash market).

The Plans under the scheme would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock.

The Plans will first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return.

Buying the stock in cash market and selling the futures results into a hedge where the Plans have locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts. The future contracts are settled based on the last half an hour's weighted average trade of the cash market. Thus there is a convergence between the cash market and the futures market on expiry. This convergence helps the Plans under the Scheme to generate the arbitrage return locked in earlier. However, the position could even be closed earlier in case the price differential is realized before expiry or better opportunities are available in other stocks. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of-capital.

Objective of the Strategy

The objective of the strategy is to lock-in the arbitrage gains.

Risk Associated with this Strategy

- Lack of opportunity available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place

3. **Hedging and alpha strategy:** The fund will use exchange-traded derivatives to hedge the equity portfolio. The hedging could be either partial or complete depending upon the fund managers' perception of the markets. The fund manager shall either use index futures and options or stock futures and options to hedge the stocks in the portfolio. The fund will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index. For example, one can seek to generate positive alpha by buying an IT stock and selling Nifty IT Index future or a bank stock and selling Bank Index futures or buying a stock and selling the Nifty Index.

Objective of the Strategy

The objective of the strategy is to generate alpha by superior stock selection and removing market risks by hedging with appropriate index.

Risk Associated with this Strategy

- The stock selection under this strategy may under-perform the market and generate a negative alpha.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

4. **Other Derivative Strategies:** As allowed under the SEBI guidelines on derivatives, the fund manager will employ various other stock and index derivative strategies by buying or selling stock/index futures and/or options.

Objective of the Strategy

The objective of the strategy is to earn low volatility consistent returns.

Risk Associated with this Strategy

- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

Debt Derivatives

The Scheme may use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose that may be permitted by SEBI Mutual Fund regulations from time to time.

Interest rate swap is a strategy in which one party exchanges a stream of interest for another party's stream. Interest rate swaps are normally 'fixed against floating', but can also be 'fixed against fixed' or 'floating against floating' rate swaps. Interest rate swaps will be used to take advantage of interest-rate fluctuations, by swapping fixed-rate obligations for floating rate obligations, or swapping floating rate obligations to fixed-rate obligations.

i) Advantages of Derivatives

The volatility in Indian debt markets has increased over last few months. Derivatives provide unique flexibility to the Scheme to hedge part of their portfolio. Some of the advantages of specific derivatives are as under:

ii) Interest Rate Swaps and Forward rate Agreements

Bond markets in India are not very liquid. Investors run the risk of illiquidity in such markets. Investing for short-term periods for liquidity purposes has its own risks. Investors can benefit if the Fund remains in call market for the liquidity and at the same time take advantage of fixed rates by entering into a swap. It adds certainty to the returns without sacrificing liquidity.

The following is an illustration how derivatives work

Basic Details: Fixed to floating swap

Notional Amount: Rs. 5 Crores

Benchmark: NSE MIBOR

Deal Tenor: 3 months (say 91 days)

Documentation: International Securities Dealers Association (ISDA).

Let us assume the fixed rate decided was 10%

At the end of three months, the following exchange will take place:

Counter party 1 pays: compounded call rate for three months, say 9.90%

Counter party 2 pays fixed rate: 10%

In practice, however, the difference of the two amounts is settled. Counter party 2 will pay $\text{Rs. } 5 \text{ Crores} * 0.10\% * 91/365 = \text{Rs. } 12,465.75$

Thus the trade off for the Fund will be the difference in call rate and the fixed rate payment and this can vary with the call rates in the market. Please note that the above example is given for illustration purposes only and the actual returns may vary depending on the terms of swap and market conditions.

Risk Factor: The risk arising out of uses of the above derivative strategy as under:

- Lack of opportunities available in the market.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. Additional risks could be on account of illiquidity and potential mis-pricing of the options.

Valuation of Derivative Products

1. The traded derivatives shall be valued at market price in conformity with the valuation policy of the Mutual Fund.
2. The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the SEBI (Mutual Funds) Regulations, 1996 as amended from time to time.

E. WHAT ARE THE INVESTMENT STRATEGIES?

Equities

The Scheme aims to maximize long-term capital appreciation by predominantly investing in equity and equity related securities of companies engaged in banking services and financial services. Financial services companies listed in the Indian equity markets provide non-banking financial services like stock broking, wealth management, insurance, etc. Most of the banks in India also provide these services in addition to the traditional banking services.

The companies which are considered as financial services are as follows. However, this is a very fast evolving space so this list may have further additions in the future.

- Banks
- Non-banking financial companies
- Housing Finance Companies
- Micro Finance Companies
- Broking and securities
- Stock exchanges, depositories and related infrastructure providers
- Wealth management or various kinds of asset management
- Insurance
- Currency and Forex
- Credit cards and payment gateways or such infrastructure providers
- Internet based finance
- Rating agencies
- Financial data providers like Bloomberg or Reuters
- Investment companies

The Scheme may also invest in companies other than Banking and Financial Services sector.

Banking & Financial Services Sector Outlook:

The performance of the Banking and Financial Services sector of any nation has a direct correlation to the performance of the nation's economy. The Indian Financial services industry has experienced significant growth in the last few years. There has been a considerable broadening and deepening of the Indian financial markets due to various financial market reforms undertaken by the Indian regulators, the introduction of innovative financial instruments in recent years and the entry of sophisticated domestic and international financial services participants. Sectors such as banking, asset management, insurance and brokerage have been liberalized to allow private sector involvement, which has contributed to the development and modernization of the financial services sector.

Banking

The upsurge in economic activity in India and an under penetrated market provides huge potential for growth for banks in India. Consumer credit penetration in India is very low. Household gearing in India is low in absolute terms and relative to other economies. Strong economic growth will translate into rising disposable incomes, which will fuel the demand for consumer credit. Given a low base, India has considerable room to grow. Most banks now have significant proportion of their businesses covered under core banking solution. With technology implementation (internet banking), wider distribution network (ATMs) and growing customer base (rural penetration), Indian banks are well poised to move on to the next level of growth.

Growth of NBFCs and other Financial Services Sectors in India

Non-banking financial companies (NBFCs) are fast emerging as an important segment of Indian financial system. They have broadened and diversified the range of products and services offered by a financial sector. The sector comprises commercial banks, insurance companies, non-banking financial companies, cooperatives, pension funds, mutual funds and other smaller financial entities.

According to the Reserve Bank of India's (RBI) Financial Stability Report, the non-banking financial companies (NBFC) sector registered a significantly higher credit growth.

Since, Government of India has huge focus on Digital initiatives; we can see more and more payment banks and companies entering the capital markets.

Due to the above factors and possible growth of NBFC sector and other financial services sectors in India, the Scheme may increase the exposure towards these sectors in order to generate capital appreciation for the investors.

Asset Management Companies

Growth in the asset management industry in India has been signified by two main factors, the growth in the retail mutual fund business and the emergence of alternative asset management. From 1963 to 1987, Unit Trust of India was the only mutual fund operating in the country. From 1987 onwards, several other public sector mutual funds entered this sector and participation was finally opened up to the private sector in 1993. The mutual fund industry has experienced considerable growth since the last few years. The private sector accounts for major market share of the total AUM. Recently, an asset management company was listed on stock exchanges and few others are in the process of listing. This provides an opportunity for the Scheme to consider investment in these companies.

Insurance Companies

The insurance sector in India is regulated by the Insurance Regulatory and Development Authority. In December 1999, the parliament passed the Insurance Regulatory and Development Authority Act, 1999 that opened the Indian insurance sector to foreign and private investors. Since then, various foreign and Indian private sector participants have targeted the market potential by providing a range of customized products. Currently, there are many insurance companies in India operating in both Life Insurance and General Insurance. There are various public sector insurance companies alongwith private companies. There are also foreign insurance companies operating in joint venture.

As per the current statistics, the insurance industry of India consists of 53 insurance companies of which 24 are in life insurance business and 29 are non-life insurers. In 2017, the Union Cabinet has approved the public listing of five Government-owned general insurance companies and reducing the Government's stake to 75 per cent from 100 per cent. This is expected to bring higher levels of transparency and accountability, and enable the companies to raise resources from the capital market to meet their fund requirements.

There has been considerable broadening and deepening of the Indian financial markets due to various financial market reforms undertaken by the regulators, the introduction of innovative financial instruments in recent years and the entry of sophisticated domestic and international players.

Insurance sector has also seen increase in FDI investment limits to 49%. This has enabled greater interest being shown by foreign insurance companies who are keen to increase their stake in joint ventures.

Strong economic growth, favorable demographics, increased geographic penetration, growth of small and medium enterprises and the increasing needs for capital among Indian corporations are expected to continue to drive India's financial services industry.

Broking Companies:

The primary drivers for the level of activity in the secondary markets have been economic growth and growing companies, leading to increased international and domestic investor interest.

With improved political scenario and better visibility on economic growth, and favorable demographics, Indian Capital markets are expected to do well. With flow of foreign funds and domestic funds (through MF and Insurance) into the capital markets, the level of activity in equity markets can be expected to be high leading to increased volumes. One of the beneficiaries of this significant rise in trading volumes will be broking companies. Consequently, the revenues of these broking firms are expected to be buoyant.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/ Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed.

Portfolio Turnover

Portfolio turnover is defined as the lower of purchases and sales after reducing all subscriptions and redemptions and derivative transactions there from and calculated as a percentage of the average assets under management of the Scheme during a specified period of time.

The AMC's portfolio management style is conducive to a low portfolio turnover rate. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets. The AMC will endeavour to balance the increased cost on account of higher portfolio turnover with the benefits derived there from.

POSITION OF EQUITY MARKET IN INDIA

The Indian stock market is one of the world's largest stock markets on the basis of investor base and has a collective pool of about 27 million investor accounts.

There are two leading stock exchanges in India, i.e. BSE Limited (BSE) and National Stock Exchange of India Limited (NSE). BSE was established in 1875 and is the oldest stock exchange in Asia. NSE, a more recent establishment which came into existence in 1992, is the largest and most advanced stock market in India and is also one of the biggest stock exchanges in Asia in terms of transactions. NSE's flagship index, NIFTY 50, is used extensively by investors in India and around the world to take exposure to the Indian equities market.

BSE has a large number of scrips which are listed. The Indian stock market scene really picked up after the opening up of the economy in the early nineties. NSE changed the way the Indian markets function, in the early nineties, by replacing floor based trading with nationwide screen based electronic trading, which took trading to the doorstep of the investor. NSE was mainly set up to bring in transparency in the markets. Instead of trading membership being confined to a group of brokers, NSE ensured that anyone who was qualified, experienced and met minimum financial requirements was allowed to trade. The price information which could earlier be accessed only by a handful of people could now be seen by a client in a remote location with the same ease. The paper based settlement was replaced by electronic depository based accounts and settlement of trades was always done on time. One of the most critical changes was that a robust risk management system was set in place, so that settlement guarantees could protect investors against broker defaults. The corporate governance rules were gradually put in place which initiated the process of bringing the listed companies at a uniform level.

POSITION OF DEBT MARKET IN INDIA

Indian debt markets, in the early nineties, were characterised by controls on pricing of assets, segmentation of markets and barriers to entry, low levels of liquidity, limited number of players, near lack of transparency, and high transactions cost. Financial reforms have significantly changed the Indian debt markets for the better. Most debt instruments are now priced freely on the markets; trading mechanisms have been altered to provide for higher levels of transparency, higher liquidity, and lower transactions costs; new participants have entered the markets, broad basing the types of players in the markets; methods of security issuance, and innovation in the structure of instruments have taken place; and there has been a significant improvement in the dissemination of market information. There are three main segments in the debt markets in India, viz., Government Securities, Public Sector Units (PSU) bonds, and corporate securities. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitized Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt now goes upto sixty years and more (perpetual). Perpetual bonds are now issued by banks as well. Securities may be both listed and unlisted and there is increasing trend of securities of maturities of over one year being listed by issuers. While in the corporate bond market, deals are conducted over telephone and are entered on principal-to-principal basis, due to the introduction of the Reserve Bank of India's NDS-Order Matching system a significant proportion of the government securities market is trading on the new system.

The yields and liquidity on various securities as on April 30, 2019 are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 days	6.11%	High
GOI	Treasury Bill	364 days	6.42%	High
GOI	Short Dated	1-3 Yrs	6.57%-7.05%	High
GOI	Medium Dated	3-5 Yrs	7.05%-7.34%	High
GOI	Long Dated	5-10 Yrs	7.34%-7.41%	High
Corporates	Taxable Bonds (AAA)	1-3 Yrs	7.86%-7.98%	Medium

F. FUNDAMENTAL ATTRIBUTES:

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations, 1996:

(i) Type of Scheme:

For details on type of Scheme, please refer “Type of the Scheme”:

(ii) Investment Objective

Main Objective - Please refer “What is the Investment Objective of the Scheme?”
Investment pattern – Please refer “How will the Scheme allocate its assets ”

(iii) Terms of Issue

a) Liquidity

For details on redemption of units, please refer Section UNITS AND OFFER “Redemption of Units” in Ongoing Offer details. The redemption price will be at Applicable NAV based prices, subject to applicable exit load provisions.

Being an open ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges. Notification of the same will be made through Customer Service Centres of the AMC and as may be required by the respective Stock Exchanges.

b) Aggregate fees and expenses charged to the Scheme:

For details on redemption of units, please refer Section “FEES AND EXPENSES”

c) Any safety net or guarantee provided:

The Scheme mentioned in this document are not guaranteed or assured return schemes.

Changes in Fundamental Attributes:

In accordance with Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and

- The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load. However, in case the change pertains to investments in units of Real Estate Investment Trust (REIT) and Infrastructure Investment Trust (InvIT), the aforesaid exit period shall be for at least 15 days.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The benchmark of the Scheme is NIFTY Financial Services TRI.

The composition of the benchmark is such that, it is most suited for comparing performance of the Scheme. The Trustees reserves the right to change the benchmark in future, if a benchmark better suited to the investment objective of the Scheme is available.

H. WHO MANAGES THE SCHEME?

The investments under the Scheme are managed by Mr. Roshan Chutkey. As on April 30, 2019, Mr. Roshan Chutkey has managed the Scheme for the tenure of 1 year 4 months since January 2018.

*Ms. Priyanka Khandelwal is the dedicated fund manager for managing overseas investments of the Schemes of the Fund which have a mandate to invest in overseas securities.

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Schemes at the time of making investments. however, all investments by the Schemes will be made in accordance with the investment objective, asset allocation and where will the schemes invest, described earlier, as well as the SEBI (MF) Regulations, including schedule VII thereof, as amended from time to time.

1. A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments

comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and TREPS:

Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

2. A mutual fund Scheme shall not invest more than 10% of its NAV in un-rated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made by an internal committee constituted by AMC to approve the investment in un-rated debt securities in terms of the parameters approved by the Board of Trustees and the Board of Asset Management Company.

Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments as specified under Clause 1 & 2 above.

3. The Fund under all its Schemes shall not own more than 10% of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B

4. Transfer of investments from one Scheme to another Scheme in the same Mutual Fund is permitted provided:
 - Such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a Stock Exchange for spot transactions); and
 - The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.

Further the inter Scheme transfer of investments shall be in accordance with the provisions contained in clause Inter-Scheme transfer of investments, contained in Statement of Additional Information.

5. The Scheme may invest in other Schemes under the same AMC or any other Mutual Fund without charging any fees, provided the aggregate inter-Scheme investment made by all the Schemes under the same management or in Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund. 10. The schemes shall not invest in Fund of funds scheme.

11. No mutual fund Schemes shall invest more than 10% of its NAV in equity shares or equity related instruments of any company. Provided that the limit of 10% will not be applicable

for the investments in case of Index Fund or sector or industry specific scheme. In case of In case of sector or industry specific scheme, the upper ceiling on investments may be in accordance with the weightage of the scrips in the representative sectoral index or sub index as disclosed in the SID or 10% of the NAV of the scheme, whichever is higher.

12. A mutual fund scheme shall not invest more than 5% of its NAV in the unlisted equity shares or equity related instruments in case of open ended scheme and .
13. No loans for any purpose can be advanced by the Scheme.
14. The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/ redemption of units or payment of interest and dividend to the unit holders. Such borrowings shall not exceed more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
15. If any company invests more than 5% of the NAV of any of the Schemes, investments made by that or any other schemes of the Mutual Fund in that company or its subsidiaries will be disclosed in accordance with the SEBI (MF) Regulations.
16. The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by the Board, settle their transactions entered on or after January 15, 1998 only through dematerialised securities. Further all transactions in government securities shall be in dematerialised form.
17. The Scheme will comply with provisions specified in Circular dated August 18, 2010 related to overall exposure limits applicable for derivative transactions as stated below:
 - i. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
 - ii. Mutual Funds shall not write options or purchase instruments with embedded written options.
 - iii. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
 - iv. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
 - v. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purpose does not exceed the quantity of the existing position against which hedge has been taken.
 - vi. Mutual Funds may enter into interest rate swaps for hedging purposes. The counterparty in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
 - vii. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point (i) above.

viii. Definition of Exposure in case of Derivative Positions - Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option Bought	Option Premium Paid * Lot Size * Number of Contracts

Exposure limit for participating in Interest Rate Futures

In addition to the existing provisions of SEBI circular No.IMD/DF/11/2010 dated August 18, 2010, the following are prescribed:

i. To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Future Price/ PAR})}$$

ii. In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

iii. Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

a) Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

b) Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 3 of SEBI circular dated August 18, 2010. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
 ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.

c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Para 3 of SEBI circular dated August 18, 2010.

iv. The basic characteristics of the scheme should not be affected by hedging the portfolio

or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

v. The interest rate hedging of the portfolio should be in the interest of the investors.

18. The Fund shall ensure that total exposure of debt schemes in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, TBills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 25% of the net assets of the scheme;

Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 15% of the net assets of the scheme shall be allowed only by way of increase in exposure to Housing Finance Companies (HFCs);

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 25% of the net assets of the scheme.

19. Investment restrictions for Exposure to Repo transactions in Corporate Debt Securities:

Below stated conditions and norms shall apply to repo in corporate debt securities, which are subject to change as may be prescribed by SEBI and/or RBI from time to time:

1. Any scheme shall not lend/borrow more than 10% of its net assets in repo against corporate debt securities.
2. The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt, derivatives and any other permitted assets shall not exceed 100% of the net assets of the Scheme.
3. The Scheme shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
4. The exposure limit/investment restrictions prescribed under the Seventh Schedule of the Regulations and circulars issued there under (wherever applicable) shall be applicable to repo transactions in corporate debt securities.
5. Counterparty selection & credit rating
The AMC follows an issuer selection and approval process for fixed income investments and the same shall be used for selection of counterparties for repo in corporate debt securities. Repo transactions shall be carried out with only those counterparties who have a credit rating of 'AA- and above' (Long term rating) or 'A1+' (Short term rating) provided by any credit rating agency as accredited by SEBI from time to time.
6. Tenor of Repo
Tenor of repo shall not exceed 6 months. There shall be no restriction/ limitation on the tenor of collateral.
7. Applicable haircut
The AMC would be guided by the parameters for applying haircut as may be specified by RBI and/or SEBI for undertaking repo in corporate debt securities, from

time to time.

8. Rating of underlying instruments

The schemes shall participate in repo transactions only in AA (or equivalent short term rating) and above rated corporate debt securities.

20. The Schemes will comply with any other Regulation applicable to the investments of mutual funds from time to time.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow or as deemed fit in the general interest of the unit holders.

All investment restrictions shall be applicable at the time of making investment.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (MF) Regulations change, so as to permit the Schemes to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

J. HOW HAS THE SCHEMES PERFORMED?

The performances of the Scheme are as on April 30, 2019.

Returns of the Scheme are shown below. For computation of returns the allotment NAV has been taken as Rs.10/-. NAV of growth option is considered for computation of returns without considering load.

Compounded Annualised Returns (in %) of the Scheme and its benchmark for Growth Option as on April 30, 2019.

Scheme/Index Name	Inception Date ^	1 Years	3 Years	5 Years	Inception

SECTION III: UNITS AND OFFER

This section provides details you need to know for investing in the Scheme.

A. NEW FUND OFFER DETAILS – Not Applicable

This section does not apply to the schemes covered in this SID, as the ongoing offer of the Schemes has commenced after the NFO period, and the units are available for continuous subscription and redemption.

B. ONGOING OFFER DETAILS

<p>Ongoing Offer Period This is the date from which the Scheme will reopen for subscriptions/redemptions after the closure of the NFO period.</p>	<p>The Scheme is an open ended scheme and hence is available for subscription and redemption on an ongoing basis on every business day at NAV based prices. The Units of the Scheme will not be listed on any exchange, for the present.</p>
<p>Ongoing price for subscription (purchase)/switch-in (from other Schemes/plans of the mutual fund) by investors This is the price you need to pay for purchase/switch-in.</p>	<p>The purchase price of the Units will be based on the Applicable NAV.</p> <p>Purchase Price = Applicable NAV (for respective plan and option of the Scheme)</p> <p>Example: An investor invests Rs. 20,000/- and the current NAV is Rs. 20/- then the purchase price will be Rs. 20/- and the investor receives $20000/20 = 1000$ units.</p> <p>The Scheme will comply with SEBI circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 regarding applicability of entry load.</p>
<p>Ongoing price for redemption (sale) /switch outs (to other Schemes/plans of the Mutual Fund) by investors. This is the price you will receive for redemptions/switch outs.</p>	<p>The Redemption Price of the Units will be based on the Applicable NAV (for respective plan and option of the Scheme) subject to the prevalent exit load provisions. The Redemption Price of the Units will be computed as follows:</p> <p>Redemption Price = Applicable NAV (for respective plan and option of the Scheme) * (1-Exit Load as applicable to the investor).</p> <p>Applicable exit load shall be subject to the tenure of investment of the investor in the scheme vis-à-vis the exit load structure applicable when investor had invested in the scheme.</p> <p>Example: An investor invests on April 1, 2017 when the applicable exit load for the scheme was 2% if redeemed within 1 year, else nil.</p> <p>Scenario 1) In case investor redeems before April 1, 2018, then applicable exit load would be 2%. Now suppose the same investor decides to redeem his 1000 units. The prevailing NAV is Rs 25/-. Hence, the sale or redemption price</p>

	<p>per unit becomes Rs. 24.50/- i.e. $25 \times (1 - 2\%)$. The investor therefore gets $1000 \times 24.50 = \text{Rs. } 24,500/-$.</p> <p>Scenario 2) In case investor redeems on or after April 1, 2018, then applicable exit load would be nil. Now suppose the same investor decides to redeem his 1000 units. The prevailing NAV is Rs 30/-. Hence, the sale or redemption price per unit will be Rs. 30/- i.e. $30 \times (1 - 0)$. The investor therefore gets $1000 \times 30 = \text{Rs. } 30,000/-$.</p>
<p>Cut off timing for subscriptions/ redemptions/ switches</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>Cut off timing for subscriptions/ redemptions/ switches: 3.00 p.m.</p> <p>Purchases transaction including switch-ins:</p> <p>A) Application amount less than Rs. 2 lakh: In respect of valid applications received upto 3.00 pm on a business day, by the Mutual Fund alongwith a local cheque or a demand draft payable at par at the place where the application is received: the closing NAV of that business day on which application is received.</p> <p>In respect of valid applications received after 3.00 pm on a business day, by the Mutual Fund alongwith a local cheque or a demand draft payable at par at the place where the application is received: the closing NAV of the next business day.</p> <p>B) Application amount equal to or more than Rs. 2 lakh: In respect of valid application received before the cut-off time, units shall be allotted based on the NAV of the day on which the funds are available for utilisation before 3.00 pm.</p> <p>Hence, subject to compliance with the time-stamping provisions as contained in the Regulations, units in schemes, with subscription of Rs. 2 lakh and above, shall be allotted based on the NAV of the day on which the funds are available for utilisation before the applicable cut-off time.</p> <p>C) Aggregation of split investment transaction of Rs. 2 lakhs and above:</p> <ol style="list-style-type: none"> a. All transactions received on the same day as per the cut off timing and time stamping rules prescribed under SEBI Mutual Fund Regulations, 1996 or circulars issued thereunder from time to time. b. Transactions shall include purchases, additional purchases, excluding Switches, Systematic Investment Plan/ Systematic Transfer Plan and triggered transactions. c. Aggregation shall be done on the basis of investor/s Permanent Account Number. In case of joint holding, transactions with similar holding structures shall be aggregated, similar to the principle applied for compilation of Consolidated Account Statement (CAS). d. All transactions shall be aggregated where investor holding

	<p>pattern is same as stated above, irrespective of whether the amount of the individual transaction is above or below Rs 2 lacs.</p> <p>e. Only transactions in the same scheme shall be clubbed. This will include transactions at option level (viz. Dividend and Growth).</p> <p>f. Transactions in the name of minor received through guardian shall not be aggregated with the transaction in the name of same guardian.</p> <p>The Mutual Fund reserves right to change/modify any of the terms with respect to processing of transaction in line with guidelines issued by SEBI or AMFI from time to time.</p> <p>Redemptions including switch-outs: In respect of valid applications received upto 3.00 pm on a business day by the Mutual Fund, same day's closing NAV shall be applicable.</p> <p>In respect of valid applications received after the cut off time by the Mutual Fund: the closing NAV of the next business day.</p> <p>e.g.: If an investor submits redemption request at 2.00 pm on Monday, the same shall be processed at the closing NAV of Monday. If an investor submits redemption request at 3.30 pm on Monday, the same shall be processed at the closing NAV of Tuesday.</p> <p>Applications accompanied by physical cheques/ Demand Drafts: - For transaction through initial investment, the units will be issued at applicable NAV, on receipt of physical transaction request at the nearest official point of transaction of the AMC within 3 business days from the date of transaction.</p> <p>Web based transactions: For purchase transactions through the website of the Fund, following rules will apply:</p> <p>Internet Banking: As stated above, provided the electronic bank confirmation is received simultaneously for web-based transactions using internet banking.</p>
Investment Sponsors/AMC	by The sponsors or AMC will invest not less than one percent of the AUM of the Schemes as on the date of notification of SEBI Regulations (May 06, 2014) or fifty lakh rupees, whichever is less, in the growth option of the Schemes and such investment will not be redeemed unless the Schemes are wound up.

- New Investor - If the investor fails to mention the scheme name in the SIP Mandate Form, then the Fund reserves the right to register the SIP as per the scheme name available in the main application. In case multiple schemes are mentioned in the main application form, Fund reserves the right to reject the SIP request.
- Existing Investor - If the investor fails to mention the scheme name in the SIP Mandate Form, then the Fund reserves the right to register the SIP in the existing scheme (Eligible for SIP) available in the investor's Folio. In case Multiple Schemes or Equity Linked Savings Scheme (ELSS) are available in the folio then Fund reserves the right to reject the SIP request.

- In case SIP date is not selected, then the SIP will be registered on 10th (default date) of each Month/Quarter, as applicable. Further if multiple SIP dates are opted for or if the selection is not clear, then the sip will be registered for 10th of each Month/Quarter, as applicable.
- If the investor has not mentioned the SIP start Month, SIP will start from the next applicable month, subject to completion of 30 days lead time from the receipt of SIP request.
- In case the SIP 'End period' is incorrect OR not mentioned by the investor in the SIP form, then 5 years from the start date shall be considered as default End Period.

SIP TOP UP Facility:

- Investors can opt for SIP TOP UP facility with Fixed Top Up option or Variable Top Up option, wherein the amount of the SIP can be increased at fixed intervals. In case the investor opts for both options, the Variable Top Up option shall be triggered.
- The minimum Fixed TOP UP amount shall be Rs. 100/- and in multiples of Rs. 100/- thereafter.
- Variable TOP UP would be available in at 10%, 15% and 20% and such other denominations (over and above 10%, 15% and 20%) as opted by the investor in multiples of 5%.
- The frequency is fixed at Yearly and Half Yearly basis. In case the TOP UP facility is not opted by ticking the appropriate box and frequency is not selected, the TOP UP facility may not be registered.
- In case of Quarterly SIP, only the Yearly frequency is available under SIP TOP UP.
- SIP Top-Up facility shall also be available for the existing investors who have already registered for SIP facility without Top-Up option.

Top-Up Cap amount or Top-Up Cap month-year:

Top-Up Cap amount: Investor has an option to freeze the SIP Top-Up amount once it reaches a fixed predefined amount. The fixed pre-defined amount should be same as the maximum amount mentioned by the investor in the bank mandate. In case of difference between the Cap amount & the maximum amount mentioned on Bank mandate, then amount which is lower of the two amounts shall be considered as the default amount of SIP Cap amount.

Top-Up Cap month-year: It is the date from which SIP Top-Up amount will cease and last SIP installment including Top-Up amount will remain constant from Cap date till the end of SIP tenure.

Investor shall have flexibility to choose either Top-Up Cap

amount or Top-Up Cap month- year. In case of multiple selection, Top-Up Cap amount will be considered as default selection.

Top-Up Cap is applicable for Fixed Top Up option as well as Variable Top Up option.

All the investors of the fund availing the facility under SIP Variable Top - Up feature are hereby requested to select either Top - Up Cap amount or Top - Up Cap month - year. In case of no selection, the SIP Variable Top - Up amount will be capped at a default amount of Rs. 10 Lakhs.

Under the said facility, SIP amount will remain constant from Top - Up Cap date/ amount till the end of SIP Tenure.

Micro Systematic Investment Plan (Micro SIP):

The unit holder will have the facility of MicroSIP under the current Systematic Investment Plan facility. The Minimum Investment amount per installment will be as per applicable minimum investment amount of the respective Scheme. The total investment under MicroSIP cannot exceed Rs. 50,000/-.

Micro Investment: With effect from October 30, 2012, where the aggregate of the lump sum investment (fresh purchase & additional purchase) and Micro SIP installments by an investor in a financial year i.e April to March does not exceed 50,000/- it shall be exempt from the requirement of PAN. However, requirements of Know Your Customer (KYC) shall be mandatory. Accordingly, investors seeking the above exemption for PAN still need to submit the KYC Acknowledgement, irrespective of the amount of investment. This exemption will be available only to Micro investment made by the individuals being Indian citizens (including NRIs, Joint holders, minors acting through guardian and sole proprietary firms). PIOs, HUFs, QFIs and other categories of investors will not be eligible for this exemption.

Mode of Payment for SIP:

In case of SIP with payment mode as Standing Instruction / NACH, Investors shall be required to submit a cancelled cheque or a photocopy of a cheque of the bank account for which the debit mandate is provided.

Investors are requested to note that holding of units through Demat Option is also available under all open-ended equity and Debt schemes wherein SIP facility is available.

The units will be allotted based on the applicable NAV as per the SID and will be credited to investors' Demat account on weekly basis upon realization of funds. For e.g. Units will be credited to investors' Demat account every Monday for realization status received in last week from Monday to Friday.

The investors shall note that for holding the units in demat form, the provisions laid down in the SID and guidelines, procedural requirements as laid by the Depositories (NSDL/CDSL) shall be applicable. In case the investor wishes to convert the units held in non-demat mode to demat mode or vice versa at a later date, such request along with the necessary form should be submitted to their Depository Participant(s).

Units held in demat form will be freely transferable, subject to the applicable regulations and the guidelines as may be amended from time to time.

Investors/unitholders subscribing for SIP are required to submit SIP request at least 30 days prior to the date of first debit date and SIP start date shall not be beyond 100 days from the date of submission of request for SIP.

Facility of National Automated Clearing House (NACH) Platform in Systematic Investment Plan (SIP):

In addition to existing facility available for payments through Postdated cheques/Standing Instructions for investments in SIP, the NACH facility can also be used to make payment of SIP installments. NACH is a centralized system, launched by National Payments Corporation of India (NPCI) with an aim to consolidate multiple Electronic Clearing Service (ECS) mandates. This facility will enable the unit holders of the Fund to make SIP investments through NACH by filling up the SIP Registration cum mandate form. A Unique number will be allotted to every mandate registered under NACH called as Unique Mandate Reference Number ("UMRN") which can be used for SIP transactions.

The NACH facility shall be available subject to terms and conditions contained in the Easy Pay Debit Mandate Form and as prescribed by NPCI from time to time.

SYSTEMATIC INVESTMENT PLAN PLUS (SIP PLUS) is available under the Scheme:

Salient features of the SIP Plus facility are as follows:

1. It is an optional feature in addition to the Systematic Investment Plan.
2. A Group Life Insurance Cover shall be provided under this facility by a life insurance company. The premium for providing such cover shall be borne by ICICI Prudential Asset Management Company Limited (the AMC).
3. The minimum SIP Plus installment shall be the minimum amount prescribed for SIP (under respective frequencies), subject to minimum of Rs. 500/- per

installment

4. Maximum Age upto which SIP Plus is available: 55 Years. SIP investment under SIP Plus facility can be continued beyond 55 years of age, however the provision for insurance cover will continue maximum upto the age of 55 years (as on the renewal date).

- Year 3 onwards: 100 times of the SIP Plus installment.

All the above mentioned limits are subject to maximum cover of Rs. 50 lacs per investor across all schemes/plans/folios.

b) If SIP Plus discontinues, the Insurance Cover would be as follows:

- SIP Plus discontinues before 3 years : Insurance Cover stops immediately
- SIP Plus discontinues after 3 years :Insurance cover equivalent to the value of units allotted under SIP PLUS investment basis the valuation as on 1st business day of month in which renewal confirmation is given, subject to a maximum of 100 times the monthly installment, capped at the maximum of Rs. 50 lacs

6. SIP plus ceases under below conditions:

Redemption / switch-out (fully or partly) of units purchased under the scheme in which SIP Plus facility is availed before the completion of the SIP Plus tenure.

The investor may either opt to continue the SIP beyond 55 years of age or specify an End date in the application form. If the investor does not provide an End date, AMC reserves the right to consider the SIP end date as five years from the start date as default. If SIP tenure selected is less than 3 years, investor would not be eligible for insurance cover and SIP would be registered as regular SIP.

SIP Plus can be availed with SIP Top Up facility as well. The amount of Life Insurance Cover will be calculated on the basis of the first triggered SIP amount. SIP Plus shall be available only on fresh subscriptions/ registrations of SIP Top - up received on or after the March 26, 2019 (effective date). SIP Plus shall not be available on availing of SIP Top - up facility in an ongoing SIP.

Eligibility criteria:

1. Resident Individual/Eligible Non Resident Indian applicants.

2. Individuals aged above 18 years and not more than 51 years, at the time of the first investment.
3. Only the First / Sole unit holder will be covered under the insurance. No Insurance Cover will be provided for the second / third unitholder.

Registration:

The investor will necessarily be required to furnish his / her date of birth and gender in the SIP Plus application form, in absence of which, no Insurance Cover can be availed by the investor. Furnishing details of nominee in the SIP Plus application form is not mandatory. The Group Life Insurance Cover will be governed by the terms and conditions of the insurance policy with the relevant Insurance Company as determined by the AMC. In case of death of the applicant, his / her legal representatives may file a claim directly with the designated branch of the Insurance Company supported by all relevant documents as required by the Insurer and the payment of the claim may be made to the legal representatives by the Insurance Company. All insurance claims will be settled in India and shall be payable in Indian Rupees only. Settlement procedure will be as stipulated by the Insurance Company. Insurance claims will be directly settled by the Insurance Company. The AMC will not be responsible or liable for maintaining service levels and/or any delay in processing claims arising out of this facility. Details of SIP Plus facility is available on the term and conditions mentioned in the SIP Plus application form.

Systematic Withdrawal Plan (SWP)

Unitholders of the Scheme have the benefit of enrolling themselves in the Systematic Withdrawal Plan. The SWP allows the Unitholder to withdraw a specified sum of money each month from his investments in the Scheme. SWP is ideal for investors seeking a regular inflow of funds for their needs. It is also ideally suited to retirees or individuals who wish to invest lump-sum and withdraw from the investment over a period of time. At the time of registration the minimum amount, which the Unitholder can withdraw, is Rs. 500 and in multiples of Re. 1. The Unitholder may avail of this facility by sending a written request to the Registrar.

Monthly, Quarterly, Half Yearly and Annual frequencies are available under this facility. Minimum number of installments for all the frequencies will be 2. Investors can choose any date of his/her preference as SWP withdrawal date to register under any frequency available. In case the date chosen for SWP falls on a Non-Business Day or on a date which is not available in a particular month, the SWP will be processed on the immediate next Business Day.

In case none of the frequencies has been selected then

Monthly frequency shall be considered as the Default frequency and where no withdrawal date is selected, 1st business day of the month shall be considered as the default SWP date.

The amount thus withdrawn by Redemption will be equated into Units at Applicable NAV based prices and the number of Units so arrived at will be subtracted from the Units balance to the credit of that Unitholder.

The SWP may be terminated on a written notice by a Unitholder of the Scheme and it will terminate automatically if all Units are liquidated or withdrawn from the account or upon the Funds receipt of notification of death or incapacity of the Unitholder.

All terms and conditions for SIP/STP, including Exit Load, if any, prevailing in the date of SIP/STP enrolment/registration by the fund shall be levied in the Scheme.

Systematic Transfer Plan (STP)

1. Systematic Transfer Plan (STP) is an option wherein Unit holders of designated schemes (Source Schemes) can opt to transfer a fixed amount at regular intervals and provide standing instructions to the AMC to switch the same into the designated schemes (Target Schemes).
2. The source schemes refer to all open ended schemes* [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Liquid Fund for deployment of unclaimed amounts viz ICICI Prudential Liquid Fund - Unclaimed Redemption, ICICI Prudential Liquid Fund - Unclaimed Dividend, ICICI Prudential Liquid Fund - Unclaimed Redemption Investor Education and ICICI Prudential Liquid Fund - Unclaimed Dividend Investor Education].
*ICICI Prudential Long Term Equity Fund (Tax Saving) shall act as source scheme for this facility, subject to completion of lock-in period for units allotted.
3. The target schemes refer to all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Liquid Fund for deployment of unclaimed amounts viz ICICI Prudential Liquid Fund - Unclaimed Redemption, ICICI Prudential Liquid Fund - Unclaimed Dividend, ICICI Prudential Liquid Fund - Unclaimed Redemption Investor Education and ICICI Prudential Liquid Fund - Unclaimed Dividend Investor Education].
4. The amount transferred under STP from Source scheme to the Target Scheme shall be done by redeeming Units of Source scheme at Applicable NAV, subject to exit load, if any; and subscribing to the Units of the Scheme at Applicable NAV as on specified date

as given below:

Particulars	Frequency
Daily option	Daily
Weekly Options	Monday
Monthly and Quarterly Options	Any date*

*In case the date chosen for STP falls on a non-business day or on a day which is not available in a particular month, the STP will be processed on the immediate next business day.

5. In case of nil balance in the Source Scheme, STP for that particular due date will not be processed. STP will cease to be active upon five consecutive unsuccessful transactions or if all units are pledged or upon receipt of intimation of death of Unit holder.
6. All requests for registering or discontinuing Systematic Transfer Plans shall be subject to an advance notice of 7 (seven) working days.
7. The provision of "Minimum Redemption Amount" specified in Scheme Information Document (SID) of the respective Designated Source schemes and "Minimum Application Amount" applicable to the Scheme as specified in this document will not be applicable for Systematic Transfer Plan.
8. At the time of registration the minimum amount for this facility is Rs. 1,000/- and in multiples of Re.1 for weekly, monthly and quarterly frequency and Rs.250 and in multiples of Rs.50 for daily frequency. Minimum no. of installments for daily, weekly and monthly frequency will be 6 and for quarterly frequency will be 4.
9. The Fund reserves the right to include/remove any of its Schemes under the category of 'Designated Schemes available for STP' from time to time by suitable display of notice on AMC's Website.
10. The Scheme is available as a both Source and Target Scheme under this facility.

Value STP

The AMC has introduced ICICI Prudential Value Systematic Transfer Plan (Value STP) for the benefit of the Unitholders.

- 1) In this facility, unit holder(s) can opt to transfer an amount at regular intervals from a designated source scheme(s) of ICICI Prudential Mutual Fund ("Transferor Scheme") to the Growth option of designated target Scheme(s) of ICICI Prudential Mutual Fund ("Transferee Scheme"). It includes a feature of a 'Reverse Transfer' from the Transferee Scheme into the Transferor Scheme, in order to achieve the specified Target Investment Value [(first installment amount) X (number of installments paid; including the current installment)] on each transfer date in the Transferee Scheme, subject to the terms and conditions of Value STP.
- 2) In Value STP, transfers into the Transferee Scheme from the Transferor Scheme are made to achieve the

Total Target Investment Value [(first installment amount) X (total no. of installments specified by the unitholders)] in the Transferee Scheme. This is done by transferring an amount at regular intervals in a way that it increases the Target Investment Value of units in the Transferee Scheme systematically, by a fixed amount (i.e. the first installment amount specified by the Unitholder) on the date of each transfer for the tenure of the Value STP. The amount to be transferred will be arrived at on the basis of the difference between the Target Investment Value and the Market Value of the holdings in the Transferee Scheme on the date of transfer.

- 3) Value STP is available at Daily, Weekly, Monthly and Quarterly Intervals. The Unit holder is free to choose the frequency of such transfers.

Particulars	Frequency
Daily option	Daily
Weekly Options	Monday
Monthly and Quarterly Options	Any Date*

*In case the date chosen for STP falls on a non-business day or on a day which is not available in a particular month, the STP will be processed on the immediate next business day.

- 4) Value STP has the following features:

- i. **Transfer:** The first Value STP installment will be processed for the first installment amount specified by the Unitholder at the time of enrollment. From the second Value STP installment onwards, the transfer amount may be higher/lower than the first installment amount, as derived by the formula stated below:

$$[(\text{First installment amount}) \times (\text{Number of installments paid including the current installment})] - (\text{Market Value of the investments transferred through VALUE STP in the Transferee Scheme on the date of transfer})$$

In case the amounts (as specified above) to be transferred are not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme.

- ii. **Reverse Transfer:** On the date of transfer, if the market value of the investments in the Transferee Scheme through Value STP is higher than the Target Investment Value for that month [(first installment amount) X (number of installments paid; including the current installment)], then a reverse transfer will be effected from the Transferee Scheme to the Transferor Scheme, to the extent of the difference in the amount, in order to arrive at the Target Investment Value for that month.

5)

- a. The minimum amount per Value STP installment at the time of registration, shall be as follows:
- Weekly , Monthly and quarterly frequency: Rs. 1,000 and in multiples of Re.1
 - Daily frequency: Rs. 250 and in multiples of Rs.50.
- b. There should be a minimum of 6 installments for enrolment under daily, Weekly and Monthly Value STP and 4 installments for Quarterly Value STP.
- c. The minimum unit holder's account balance or a minimum amount of application at the time of Value STP enrolment should be Rs. 12,000 in the Transferor Scheme.

6) Load Structure: In respect of units created under Value STP enrollments made in the above-mentioned Transferor and Transferee Scheme(s) (and in Transferor Scheme for instances of Reverse Transfer), the Load Structure prevalent at the time of enrolment shall govern the investors during the tenure of the Value STP.

7) The Scheme acts as both transferor and Transferee Scheme under this facility.

8) The redemption/switch-out of units allotted in the Transferee Scheme shall be processed on the 'First In First Out' (FIFO) basis. In case there is a redemption / switch-out of any units allotted under Value STP in the Transferee Scheme by the Unit Holder, the balance installments under VALUE STP will be processed as a normal STP for the remaining installments by investing the amount indicated as first installment amount, on the date of each transfer over the balance tenure of the Value STP, subject to availability of unit balance in the Transferor Scheme.

9) In case of nil balance in the Transferor Scheme, Value STP for that particular due date will not be processed. Value STP will cease to be active upon five consecutive unsuccessful transactions or if all units are pledged or upon receipt of intimation of death of Unit holder.

10) Only one registration (either Flex STP or Value STP) per target scheme in a folio would be allowed.

This facility is available only for units held / to be held in a Non-demat Mode in the Transferor and the Transferee Scheme.

The Trustee reserves the right to change/modify the terms and conditions of Value STP or withdraw the Value STP at a later date. For the terms and conditions of Value STP, contact the nearest ISC or visit our website www.icicipruamc.com.

Flex STP

The AMC has introduced ICICI Prudential Flex Systematic Transfer Plan (Flex STP). Under this facility unit holder(s) can opt to transfer variable amount(s) linked to value of investments under Flex STP on the date of transfer at pre-determined intervals from designated source Scheme(s) [referred to as Transferor Scheme(s)] to the Growth option of designated target Scheme(s) [referred to as Transferee Scheme(s)].

Salient features of the facility:

1. Flex STP is available at Daily, Weekly, Monthly and Quarterly Intervals.

Particulars	Frequency
Daily option	Daily
Weekly Options	Monday
Monthly and Quarterly Options	Any Date*

*In case the date chosen for STP falls on a non-business day or on a day which is not available in a particular month, the STP will be processed on the immediate next business day.

2. At the time of registration, the minimum amount under this facility is as follows:

Frequency	Minimum Amount of Transfer (Rs.)
Daily	250/- and in multiples of Rs.50
Weekly, Monthly and Quarterly	1,000/- and in multiples of Re.1

3. There should be a minimum of 6 installments for enrollment under daily, Weekly and Monthly Flex STP and 4 installments for Quarterly Flex STP. The minimum balance in unit holder's account or minimum amount of application at the time of enrollment for Flex STP should be Rs. 12,000/-.
4. Flex STP with Daily, Weekly, Monthly and Quarterly Frequency shall commence if the application is submitted at least 7 business days prior to the applicable date.
5. Under Flex STP, the amount sought to be transferred shall be calculated as follows:
Fixed Amount to be transferred per Installment or the amount as determined by the following formula [(fixed amount to be transferred per installment X by the number of installments including the current installment) - market value of the investments through Flex STP in the Transferee Scheme on the date of transfer] whichever is higher.

In case the amount (as calculated basis above) to be transferred is not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme.

6. The first Flex STP installment will be processed basis the fixed installment amount specified by the unit holder at the time of enrollment. Flex STP shall be applicable from second installment onwards.
7. The total Flex STP amount invested in the Transferee Scheme shall not exceed the total enrollment amount i.e. amount per installment X number of installments.
8. The redemption / switch-out of units allotted in the Transferee Scheme shall be processed on First In First Out (FIFO) basis. In case there is a redemption / switch-out of any units allotted under Flex STP, the balance installments under Flex STP will be processed for the fixed installment amount specified by the unitholder at the time of enrollment.
9. If the Flex STP Date and/or Frequency has not been indicated or multiple frequencies are selected, Monthly frequency shall be treated as Default frequency and last business day of the month shall be treated as Default Date.
10. Flex STP shall be applicable subject to payment of exit load, if any, in the Transferor Schemes.
11. In case of nil balance in the Transferor Scheme, Flex STP for that particular due date will not be processed. Flex STP will cease to be active upon five consecutive unsuccessful transactions or if all units are pledged or upon receipt of intimation of death of Unit holder.
12. In order to discontinue the facility, a written request must be submitted at least 7 business days prior to the next applicable transfer date for daily/Weekly/Monthly/Quarterly frequency.
13. For availing this facility, investors are required to submit ICICI Prudential Flex STP form duly complete in all respects.
14. The Scheme acts as both transferor and Transferee Scheme under this facility.
15. Only one registration (either Flex STP or Value STP) per target scheme in a folio would be allowed.

Trustees reserve the right to change / modify the terms and conditions or withdraw this facility.

The provision of "Minimum Redemption Amount" specified in the SID(s) of the respective Designated Source Schemes and "Minimum Application Amount" applicable to the Scheme as specified in this document will not be applicable for STP.

This facility will ensure that the Unit Holder is able to systematically invest into equity Schemes and balanced Scheme without having to give any post dated cheque, unlike under SIP. The above list is subject to change from time to

	<p>time. The Trustee reserves the right to change/modify the terms and conditions of Value STP or withdraw the Flex STP at a later date. For the terms and conditions of Flex STP, contact the nearest ISC or visit our website www.icicipruamc.com</p> <p>All terms and conditions for SIP/STP, including Exit Load, if any, prevailing in the date of SIP/STP enrolment/ registration by the fund shall be levied in the Scheme.</p>
Flexible Lifetime Investment Programme	<p>The ability to switch part or all of a Unit holder's investments between the open ended Schemes offered by the Fund is an important feature of this offer. Investors may choose to alter the allocation of their investment among the Schemes in order to meet their changed investment needs, risk profiles or changing circumstances during their lifetime. A Unit holder is therefore able to tailor his / her investment to his / her specific situation.</p>
How to Switch?	<p>On an on-going basis the Unit holders will have the option to switch all or part of their investment from one Scheme to any of the other Schemes offered by the Fund provided the switch option is available in the scheme.</p> <p>To effect a switch, a Unitholder must provide clear instructions. A request for a switch may be specified either in terms of amount or in terms of the number of units of the Scheme from which the switch is sought. Such instructions may be provided in writing or by completing the Switch Request Slip provided in the transaction booklet and lodging the same on any Business Day at any of the Customer Service Centers. An Account Statement reflecting the new holdings is proposed to be dispatched to the Unitholders within 5 Business Days of completion of switch transaction.</p> <p>The switch will be effected by redeeming Units from the Scheme in which the Units are held and investing the net proceeds in the other Scheme(s).</p> <p>The price at which the Units will be switched out of the Scheme will be based on the Applicable NAV of the relevant Scheme(s) and considering any exit loads that the Trustee may approve from time to time. Exit load applicable to redemption of units is also applicable to switch.</p> <p>For switches on an ongoing basis, the applicable NAV for effecting the switch out of the existing open-ended funds will be the NAV of the Business Day on which the switch request, complete in all respects, is received by the AMC, subject to the cut-off time and other terms specified in the SID of the respective existing open-ended Schemes.</p>
Consolidated Account Statement (CAS)	<p>1. The Consolidated Account Statement (CAS) for each calendar month will be issued on or before tenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records.</p>

2. For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before tenth day of succeeding month. In case of a New Fund Offer Period (NFO), the AMC shall send confirmation specifying the number of units allotted to the applicant by way of a physical account statement or an email and/or SMS's to the investor's registered address and/or mobile number not later than five business days from the date of closure of the NFO.
3. In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request.
4. In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS.

Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before tenth day of succeeding month, unless a specific request is made to receive the same in physical form.

Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.

Further, CAS issued for the half-year (September/ March) shall also provide:

- a. The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
- b. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan where the concerned investor has actually invested in.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their

	<p>investment has been paid to distributors, during the concerned half-year period.</p> <p>In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.</p> <p>CAS for investors having Demat account:</p> <ul style="list-style-type: none"> • Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account Statement (CAS) from the Depository. • Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis. • If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within ten days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis. • In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository. <p>The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.</p> <p>However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).</p>
Dividend Policy	<p>Growth Option</p> <p>The Scheme will not declare any dividends under this option. The income earned by the Scheme will remain reinvested in the Scheme and will be reflected in the Net Asset Value. This option is suitable for investors who are not looking for regular income but who have invested with the intention of capital appreciation.</p> <p>Dividend Option</p> <p>This option is suitable for investors seeking income through dividend declared by the Scheme. The Trustee may approve the distribution of dividend by AMC out of the net surplus under this Option. The remaining net surplus after considering the dividend and tax, if any, payable there on will be ploughed back in the Scheme and be reflected in the NAV. "It should be noted that pursuant to payment of dividend, the NAV of the dividend option of the scheme would fall to the extent of dividend payout and statutory, levy, if any."</p> <p>(iii) Dividend Payout:</p> <p>As per the SEBI (MF) Regulations, the Mutual Fund shall</p>

despatch to the Unit Holders, dividend warrants within 30 days of declaration of the Dividend. Dividends will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). Dividends will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of dividend to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the Registered address of the sole/first holder as indicated in the original application form. To safeguard the interest of Unit Holders from loss or theft of dividend cheques, investors should provide the name of their bank, branch and account number in the application form. Dividend cheques will be sent to the Unit Holder after incorporating such information. The minimum amount for dividend payout shall be Rs.100 (net of dividend distribution tax and other statutory levy, if any), else dividend would be mandatorily reinvested.

(iv) Dividend Reinvestment:

The investors opting for Dividend Option may choose to reinvest the dividend to be received by them in additional Units of the Scheme. Under this provision, the dividend due and payable to the Unitholders will be compulsorily and without any further act by the Unitholders reinvested in the Scheme (under the Dividend Option, at the first ex-dividend NAV). The dividends so reinvested shall be constructive payment of dividends to the Unitholders and constructive receipt of the same amount from each Unitholder for reinvestment in Units. On reinvestment of dividends, the number of Units to the credit of Unitholder will increase to the extent of the dividend reinvested dividend by the NAV applicable on the day of reinvestment, as explained above.

(v) Dividend Transfer Plan (DTP)

Dividend Transfer Plan facility will be available under the scheme.

The designated schemes (source and target schemes) for this facility are as given below:

- Target schemes- all open ended schemes where subscription is allowed [except (i) Exchange Traded Funds (ETFs) and (ii) separate plans under ICICI Prudential Liquid Fund for deployment of unclaimed amounts viz ICICI Prudential Liquid Fund - Unclaimed Redemption, ICICI Prudential Liquid Fund - Unclaimed Dividend, ICICI Prudential Liquid Fund - Unclaimed Redemption Investor Education and ICICI Prudential Liquid Fund - Unclaimed Dividend Investor Education]

	<p style="text-align: center;">Education]</p> <p>Note: Investors are requested to note that any change in dividend sub-option, due to additional investment or on the basis of a request received from the investor, will be applicable to all existing units in the dividend option of the Scheme under the respective folio.</p> <p>The Trustee reserves the right to declare dividends under the dividend option of the Scheme depending on the net distributable surplus available under the Scheme. It should, however, be noted that actual distribution of dividends and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustee.</p> <p>The dividend will be distributed in accordance with applicable SEBI Regulations and SEBI Circular no. SEBI/ IMD/ Cir No. 1/ 64057/06 dated April 4, 2006 on the procedure for Dividend Distribution.</p>
Deployment of unclaimed dividend / redemption	The treatment of unclaimed redemption & dividend amount will be as per SEBI circular dated Feb 25, 2016.
Dividend	<p>The dividend warrants shall be dispatched to the unit holders within 30 days of the date of declaration of the dividend.</p> <p>In the event of failure to dispatch dividend within 30 days, the AMC shall be liable to pay interest at 15% per annum to the unit holders.</p> <p>For folios where dividend warrants are returned undelivered and/ or the dividend warrants remains unclaimed on 3 (three) consecutive occasions, the AMC reserves the right to compulsorily reinvest the future dividend amounts; wherein reinvestment option is available under the respective scheme.</p>

Redemption of Units

The Units can be redeemed (i.e. sold back to the Fund) on every Business Day at the Redemption Price (hereinafter defined). The redemption request can be made for a minimum amount as mentioned in para "**Highlights of the scheme**".

In case, a unit holder specifies the redemption amount as well as number of Units for redemption, (subject to the minimum redemption amount as mentioned above) the number of Units specified will be considered for deciding the redemption amount. If only the redemption amount is specified by the Unit holder, the Fund will divide the redemption amount so specified by the Applicable NAV based price to arrive at the number of Units.

If a unit holder submits a redemption/switch-out request mentioning only the name of the Scheme and folio number but not mentioning the units and the amount for redemption, the Fund shall assume that the redemption/switch-out request is for all the units under the stated folio from the Scheme and the option mentioned on the redemption/switch-out request and shall redeem all the units.

In case an investor has purchased Units on more than one Business Day, the Units purchased prior in time (i.e. those Units which have been held for the longest period of time) will be deemed to have been redeemed first i.e. on a First-in-First-Out basis.

The redemption will be at Applicable NAV based prices, subject to applicable exit load.

The Fund reserves the right to modify exit loads, at any time in future, on perspective basis. In such an event, the Redemption Price of the Units will be adjusted by using the following formula. The maximum load (exit) under the Scheme will not exceed the limits as prescribed under the Regulations.

17(b)

The Fund shall ensure that the Redemption Price is not lower than 93% of the NAV and the Purchase Price is not higher than 107% of the NAV, provided that the difference between the Redemption Price and Purchase Price of the Units shall not exceed the permissible limit of 7% of the Purchase Price, as provided for under the Regulations.

Notice of the changes in the load structure (exit load) shall be made by a suitable display in the Customer Service Centers of the AMC and will be published in 2 daily newspapers.

Payment of proceeds

All redemption requests received prior to the cut-off time on any Business Day at the Official Points of Acceptance of Transactions will be considered accepted on that Business

Day, subject to the redemption requests being complete in all respects, and will be priced on the basis of Redemption Price for that day. Requests received after the cut-off time will be treated as though they were accepted on the next Business Day.

As per the Regulations, the Fund shall dispatch redemption proceeds within 10 Business Days (working days) of receiving the redemption request.

Trustees reserve the right to alter or modify the number of days taken for redemption of Units under the Fund after taking into consideration the actual settlement cycle, when announced, as also the changes in the settlement cycles that may be announced by the Principal Stock Exchanges from time to time.

As per the guidelines issued by SEBI, in the event of failure to dispatch the redemption or repurchase proceeds within 10 working days, the AMC is liable to pay interest to the Unit holders @ 15% p.a. SEBI has further advised the mutual funds that in the event of payment of interest to the Unit holders, such Unit holders should be informed about the rate and the amount of interest paid to them.

If the Unit holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Fund retains the right to reject/withhold the redemption until a proper bank mandate is furnished by the Unitholder and the provision with respect of penal interest in such cases will not be applicable/ entertained.

The mode of payment may be direct credit/ECS/cheque or any other mode as may be decided by AMC in the interest of investors.

If the investor(s)/unitholder(s) submit(s) redemption request accompanied with request for change of Bank mandate or submits a redemption request within 7 days from the date submission of a request for change of Bank mandate details, the Asset Management Company will process the redemption but the release of redemption proceeds shall be deferred on account of additional verification, but will be within the regulatory limits as specified by Securities and Exchange Board of India time to time.

Suspension of Sale and Redemption of Units

Suspension or restriction of repurchase/ redemption facility under any scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees,

Additionally, the following requirements shall need to be observed before imposing restriction on redemptions:

a) Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:

i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security.

ii. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.

iii. Operational issues – when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems.

b) Restriction on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.

c) Any imposition of restriction would require specific approval of Board of AMC and Trustees and the same should be informed to SEBI immediately.

d) When restriction on redemption is imposed, the following procedure shall be applied:

1. No redemption requests up to INR 2 lakh shall be subject to such restriction.

2. Where redemption requests are above INR 2 lakh, AMCs shall redeem the first INR 2 lakh without such restriction and remaining part over and above INR 2 lakh shall be subject to such restriction.

Right to Limit Redemptions

Any Units, which by virtue of these limitations are not redeemed on a particular Business Day, will be carried forward for Redemption to the next Business Day, in order of receipt. Redemptions so carried forward will be priced on the basis of the Applicable NAV (subject to the prevailing load) of the Business Day on which Redemption is made. Under such circumstances, to the extent multiple Redemption requests

	<p>are received at the same time on a single Business Day, Redemptions will be made on pro-rata basis, based on the size of each Redemption request, the balance amount being carried forward for Redemption to the next Business Day(s). Suspension or restriction of repurchase/ redemption facility under any Scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, intimation would be sent to SEBI in advance providing details of circumstances and justification for the proposed action shall also be informed.</p>
Delay in payment of redemption / repurchase proceeds	Beyond 10 working days from the date of receipt of redemption request, the Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).
Bank Account Details	<p>As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications for purchase or redemption of Units. If the Unit-holder fails to provide the Bank mandate, the request for redemption would be considered as not valid and the Scheme retains the right to withhold the redemption until a proper bank mandate is furnished by the Unit-holder and the provision with respect of penal interest in such cases will not be applicable/ entertained.</p> <p>Bank Mandate Requirement</p> <p>For all fresh purchase transactions made by means of a cheque, if cheque provided alongwith fresh subscription/new folio creation does not belong to the bank mandate opted in the application form, any one of the following documents needs to be submitted.</p> <ol style="list-style-type: none"> 1. D. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date. The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the Regulations, or such norms as may be prescribed by SEBI from time to time and as stipulated in the valuation policy and procedures of the Fund, provided in Statement of Additional Information (SAI). The NAV of the Scheme shall be rounded off upto two decimals.

NAV of units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No. of Units outstanding under Schemes}}$$

The NAV will be calculated as of the close of every Business Day of the respective Schemes. The valuation of the Scheme's assets and calculation of the Scheme's NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

SECTION IV: FEES AND EXPENSES

This section outlines the expenses that will be charged to the Scheme.

A. NEW FUND OFFER (NFO) EXPENSES

The above expense percentage excludes additional expenses that can be charged towards: i) 5 bps under the Regulation 52(6A)(c), ii) 30 bps for gross new inflows from retail investors from B30 cities and iii) Goods and Services tax on investment management and advisory fees. The same is more specifically elaborated below.

Pursuant to SEBI circulars no. CIR/IMD/DF/21/2012 dated September 13, 2012, SEBI/HO/IMD/DF2/CIR/P/2018/16 dated February 02, 2018, SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018 and SEBI (Mutual Funds) Second Amendment Regulations, 2012, following additional costs or expenses may be charged to the scheme, namely:

(i) The AMC may charge Goods and Services tax on investment and advisory fees to the scheme of the Fund in addition to the maximum limit of total expenses ratio as prescribed in Regulation 52 of the Regulations, whereas Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the Regulations.

(ii) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from B30 cities as specified by the Securities and Exchange Board of India, from time to time are at least –

- 30 per cent of the gross new inflows from retail investors from B30 cities into the scheme, or;
- 15 per cent of the average assets under management (year to date) of the scheme,

whichever is higher;

Provided that if inflows from retail investors from B30 cities are less than the higher of the above, such expenses on daily net assets of the scheme shall be charged on proportionate basis;

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from retail investors from B30 cities;

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

For the above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of the previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the Scheme would amount upto Rs. 2,00,000/- per transaction.

(iii) Additional expenses, incurred towards different heads mentioned under sub-regulations (2) and (4) of Regulation 52 of the Regulations, not exceeding 0.05 per cent of daily net assets of the scheme. However, such additional expenses will not be charged if exit load is not levied or not applicable to the Scheme.

At least 2 basis points on daily net assets within the maximum limit of overall expense Ratio shall be annually set apart for investor education and awareness initiatives.

Further, the brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 12bps and 5bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. (A)	Net Assets Before expenses	500,000,000.00	589,200,000.00
	NAV per Unit Before Expense	10.00	11.78
	Return Before Expense	-	20.00%
(B)	Total Expenses (1.8% of Net Assets Before expenses)	(9,000,000.00)	(10,605,600.00)
(A-B)	Net Assets After expenses	491,000,000.00	578,594,400.00
	Units	50,000,000.00	50,000,000.00
	NAV per Unit	9.820	11.5719
	Return After Expense	-	17.84%

For calculating expense of ICICI Prudential Banking & Financial Services Fund – Direct plan, Brokerage component will not be considered.

C. LOAD STRUCTURE

Load is an amount, which is paid by the investor to subscribe to the units or to redeem the units from the Scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.icicipruamc.com) or may call your distributor.

Entry Load: Not Applicable.

In terms of SEBI circular no. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009 has notified that, w.e.f. August 01, 2009 there will be no entry load charged to the Schemes of the Mutual Fund and the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor.

Exit Load: Refer para, "Highlights of the scheme"

Any redemption/switch arising out of excess holding by an investor beyond 25% of the net assets of the Scheme in the manner envisaged under specified SEBI Circular No. SEBI/IMD/CIR No. 10/22701/03 dated 12th December 2003, such redemption / switch will not be subject to exit load.

The exit load charged, if any, shall be credited back to the respective scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Exit Load, if any, prevailing on the date of enrolment of SIP/ STP shall be levied in the Scheme.

Units issued on reinvestment of dividends shall not be subject to exit load.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. Any imposition or enhancement in the load shall be applicable on prospective investments only.

Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. Such changes will be applicable

for prospective investments. The Trustee shall arrange to display a notice in the Customer Service Centers of the AMC before the change of the then prevalent load structure. The SID will be updated in respect of changes in the load structure as per the addendum issued. The addendum detailing the changes in the load structure will be published by AMC in 2 daily newspapers- one in regional language and the other in English language newspaper. Changes in the fundamental attributes may be stamped in the acknowledgement slip issued by the Fund after the changes in load structure.

SECTION V: RIGHTS OF UNIT HOLDERS

Please refer to SAI for details.

SECTION VI: PENALTIES, PENDING LITIGATION OR PROCEEDINGS, FINDINGS OF INSPECTIONS OR INVESTIGATIONS FOR WHICH ACTION MAY HAVE BEEN TAKEN OR IS IN THE PROCESS OF BEING TAKEN BY ANY REGULATORY AUTHORITY

- 1) All disclosures regarding penalties and action(s) taken against foreign Sponsor(s) may be limited to the jurisdiction of the country where the principal activities (in terms of income / revenue) of the Sponsor(s) are carried out or where the headquarters of the Sponsor(s) is situated. Further, only top 10 monetary penalties during the last three years shall be disclosed.

Nil

- 2) In case of Indian Sponsor(s), details of all monetary penalties imposed and/ or action taken during the last three years or pending with any financial regulatory body or governmental authority, against Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company; for irregularities or for violations in the financial services sector, or for defaults with respect to share holders or debenture holders and depositors, or for economic offences, or for violation of securities law. Details of settlement, if any, arrived at with the aforesaid authorities during the last three years shall also be disclosed.

Cases pertaining to ICICI Bank Ltd. (the Bank):

- 2.1. In November 2017, an overseas regulator imposed a composition sum of approximately SGD 8 lacs for non-adherence of rules under AML regulations at one of ICICI Bank's overseas branches, resulting from regulatory inspection conducted in 2013 and pursuant to consultant's review of records, relating to the period of May 2012 to April 2014. There were no dealings with sanctioned entities and the remediation primarily required improvement to the branch's AML/CFT controls, which has since been undertaken. The local regulator in that jurisdiction has also acknowledged the efforts undertaken by the branch in addressing the issues identified in these reports.
- 2.2. As mentioned by RBI in its press release dated March 29, 2018, RBI has through an order dated March 26, 2018, imposed a monetary penalty of ₹ 589.0 million on ICICI Bank for non-compliance with directions/guidelines issued by RBI. This penalty has been imposed in exercise of powers vested in RBI under the provisions of Section 47A(1) (c) read with Section 46(4)(i) of the Banking Regulation Act, 1949. The Bank has paid the penalty to RBI on April 9, 2018.

- 2.3. The Bank & ex-Compliance Officer had received a Notice from SEBI on July 31, 2018 under Rule 4(1) of SCR (Procedure for Holding Inquiry and imposing penalties by Adjudicating Officer) Rules 2005 requiring responses on matters relating to alleged non-compliance with certain provisions of the erstwhile Listing Agreement with respect to delayed disclosure of an agreement relating to merger of the erstwhile Bank of Rajasthan with the Bank. The Bank is in the process of taking suitable action.
- 2.4. The Bank & its ex-Managing Director & CEO had received a Notice from SEBI on May 24, 2018 under Rule 4(1) of SCR (Procedure for Holding Inquiry and imposing penalties by Adjudicating Officer) Rules 2005 requiring responses on matters relating to alleged non-compliance with certain provisions of the erstwhile Listing Agreement and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. Matter in this regard is under adjudication.
- 2.5. RBI has vide its order dated February 25, 2019, imposed a monetary penalty of ₹ 10 million on ICICI Bank for non-compliance with guidelines/directions issued by RBI on Time-bound implementation & strengthening of SWIFT related operational controls. This penalty has been imposed in exercise of powers vested in RBI under section 47(A)(1)(c) read with Section 46(4)(i) of the Banking Regulation Act, 1949.
- 2.6. The Overseas Branch of the Bank in Singapore had inadvertently claimed certain tax deductions from AY2013 to AY2015. This was self-identified by the branch in June 2016 and voluntary disclosure of the same was made along with revised tax computation for relevant Assessment Years. Owing to the above, Inland Revenue Authority of Singapore (IRAS) has levied a penalty of SGD 1,500 on the branch.

3) Details of all enforcement actions taken by SEBI in the last three years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party. The details of the violation shall also be disclosed.

- 3.1 In connection with certain investments made by few schemes of ICICI Prudential Mutual Fund, the AMC has ensured compliance with the directions issued by SEBI. Further, in the same matter, quasi-judicial proceedings have been initiated by SEBI. The AMC had filed an application with SEBI for settling the adjudication proceedings, without admission or denial of findings. In this matter, the AMC has paid the full settlement amount to SEBI. In light of the above, SEBI vide its settlement order dated November 29, 2018 has disposed off the pending proceedings against the AMC.
- 3.2 Basis certain alleged violations observed during the inspection of ICICI Prudential Mutual Fund under SEBI (Mutual Funds) Regulations, 1996, for the period from April 01, 2014 to March 31, 2016, quasi-judicial proceedings have been initiated by SEBI, with respect to following matters:
 - a) Investment by schemes as per the investment objective;
 - b) Rebalancing of scheme portfolio in case of downgrade of securities; and
 - c) Determination of quantum of dividend and fixing of record date for declaration of dividend.

In reference to the above, the AMC and ICICI Prudential Trust Limited (the Trustee Company) have received a show cause notice on August 28, 2018. In response to the above, the AMC and the Trustee Company have taken suitable action.

3.3 Further, details as specified in para 2.3 and 2.4 above shall also form part of disclosure under this para.

4) Any pending material civil or criminal litigation incidental to the business of the Mutual Fund to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel are a party should also be disclosed separately.

4.1 As per the SEBI (Mutual Funds) Regulations, 1996, mutual fund schemes are permitted to invest in securitised debt. Accordingly, few schemes of ICICI Prudential Mutual Fund ("the Fund") had made investment in Pass Through Certificates (PTCs) of certain special purpose vehicles / securitisation trusts ("the Trusts"). The returns filed by few of these securitisation Trusts whose PTCs were held by the Fund were taken up for scrutiny by the Income Tax Authorities for Assessment Years 2007-08, 2008-09, 2009-10 and 2010-11. Arising out of this, the Income Tax Authorities had raised a demand on such Trusts. On failure to recover the same from the Trusts, Income Tax Authorities sent demand notices to the Fund along with other Mutual Funds as beneficiaries / contributors to such Trusts. The Fund in consultation with its tax & legal advisors had contested the applicability of such demand and got the attachment order vacated by Hon'ble High Court of Bombay. The Trusts on their part had contested the matter and the Income Tax Appellate Tribunal upheld their appeal and dismissed the contentions and all the cross-appeals filed by the Tax Authorities. The Tax Authorities have now filed an appeal with Hon'ble High Court on the matter.

5) Any deficiency in the systems and operations of the Sponsor(s) and/ or the AMC and/ or the Board of Trustees/Trustee Company which SEBI has specifically advised to be disclosed in the SID, or which has been notified by any other regulatory agency, shall be disclosed.

Nil
